

COLLEGE OF THE ALBEMARLE

1979-1981

WHAT ARE STUDENTS

STUDENTS are the most important people in our college.

STUDENTS are not an interruption of our work—they are the purpose of it.

STUDENTS are a necessary part of our business—they are not outsiders.

STUDENTS are not cold statistics—they are flesh-and-blood human beings, with feelings and emotions like yours and mine.

STUDENTS are people who bring us their needs—it is our privilege to fill those needs.

STUDENTS are deserving of our most courteous and attentive treatment.

STUDENTS are full partners in our effort to cultivate wisdom through knowledge.

STUDENTS are the life blood of this and every college.

**COLLEGE OF
THE ALBEMARLE**

**Catalog
1979-1981**

FOREWORD

All statements in this publication are announcements of present policies and are subject to change at any time without prior notice. College of The Albemarle reserves the right to make changes in program requirements and offerings, in regulations, and in fees. The college also reserves the right to discontinue at any time any programs or courses described in this catalog. While every effort will be made to give advance notice of any change of a program or course, such notice is not guaranteed or required.

College of The Albemarle is committed to the principle of equal opportunity. It is the college's policy not to discriminate on the basis of race, sex, color, national origin, religion, age, or handicap with regard to its students, employees or applicants for admission or employment. Inquiries regarding compliance with this equal opportunity policy may be directed to the President of College of The Albemarle.

Unless otherwise indicated in a college publication, this catalog becomes effective September, 1979 and remains in effect through August, 1981.

ACADEMIC CALENDAR

SUMMER QUARTER 1979

May 14-18	Registration for all summer classes—day and night.
May 31	Thursday. First day of classes. Late fees apply.
June 6	Wednesday. Last day to register or add classes.
June 8	Friday. End of refund period.
July 4	Wednesday. Holiday.
July 5	Thursday. Last day to withdraw without penalty.
August 9	Thursday. Last day of classes.
August 10-16	Monday-Friday. Final exams for Summer Quarter.
August 16	Thursday. Summer quarter ends.
August 17	Friday. Commencement, 8:00 p.m.

MINI-QUARTERS: SUMMER 1979

FIRST MINI-QUARTER

May 14-18	Registration for all summer classes—day and night.
June 6	Wednesday. First day of classes. Late fees apply.
June 7	Thursday. Last day to register or add classes.
June 15	Friday. Last day to withdraw without penalty. End of refund period.
June 27	Wednesday. Last day of classes.
June 28	Thursday. Exams.

SECOND MINI-QUARTER

May 14-18	Registration for all summer classes—day and night.
June 29	Friday. First day of classes. Late fees apply.
July 2	Monday. Last day to register or add classes.
July 4	Wednesday. Holiday.
July 6	Friday. End of refund period.
July 11	Wednesday. Last day to withdraw without penalty.
July 23	Monday. Last day of classes.
July 24	Tuesday. Exams.

THIRD MINI-QUARTER

May 14-18	Registration for all summer classes—day and night.
July 25	Wednesday. First day of classes. Late fees apply.
July 26	Thursday. Last day to register or add classes.
August 3	Friday. End of refund period. Last day to withdraw without penalty.
August 15	Wednesday. Last day of classes.
August 16	Thursday. Exams.
August 17	Friday. Commencement, 8:00 p.m.

FALL QUARTER 1979

August 27-31	Registration for all fall classes—day and night.
September 5	Wednesday. Freshman and Transfer student orientation and counseling.
September 6	Thursday. First day of classes. Late fees apply.

September 12	Wednesday. Last day to register or add classes.
September 17	Monday. End of refund period.
October 10	Wednesday. Last day to withdraw without penalty.
November 14	Wednesday. Last day of classes.
November 15-16, 19-21	Thursday-Friday, Monday-Wednesday. Exam week.
November 21	Wednesday. Fall quarter ends.

WINTER QUARTER 1979-80

November 12-16	Registration for all winter classes—day and night.
November 28	Wednesday. Freshman and transfer student orientation and counseling.
November 29	Thursday. First day of classes. Late fees apply.
December 5	Wednesday. Last day to register or add classes.
December 10	Monday. End of refund period.
December 19	Wednesday. Christmas holidays begin after last class.
January 3	Thursday. Classes resume.
January 16	Wednesday. Last day to withdraw without penalty.
February 20	Wednesday. Last day of classes.
February 21-22, 25-27	Thursday-Friday, Monday-Wednesday. Exam week.
February 27	Wednesday. Winter quarter ends.

SPRING QUARTER 1980

February 18-22	Registration for all spring classes—day and night.
March 4	Tuesday. Freshman and transfer student orientation and counseling.
March 5	Wednesday. First day of classes. Late fees apply.
March 11	Tuesday. Last day to register or add classes.
March 14	Friday. End of refund period.
April 4	Friday. Easter holidays begin after last class.
April 14	Monday. Classes resume.
April 16	Wednesday. Last day to withdraw without penalty.
May 20	Tuesday. Last day of classes.
May 21-23, 26-27	Wednesday-Friday, Monday-Tuesday. Final exams for Spring quarter.
May 27	Tuesday. Spring quarter ends.
May 30	Friday. Commencement, 8:00 p.m.

SUMMER QUARTER 1980

May 19-23	Registration for all summer classes—day and night.
June 2	Monday. First day of classes. Late fees apply.
June 6	Friday. Last day to register or add classes.
June 11	Wednesday. End of refund period.
July 4	Friday. Holiday.
July 7	Monday. Last day to withdraw without penalty.
August 11	Monday. Last day of classes.
August 12-15, 18	Tuesday-Friday, Monday. Final exams for Summer quarter.
August 18	Monday. Summer quarter ends.
August 20	Wednesday. Commencement, 8:00 p.m.

MINI-QUARTERS: SUMMER 1980

FIRST MINI-QUARTER

May 19-23	Registration for all summer classes—day and night.
June 6	Friday. First day of classes. Late fees apply.
June 9	Monday. Last day to register or add classes.
June 16	Monday. End of refund period. Last day to withdraw without penalty.
June 27	Friday. Last day of classes.
June 30	Monday. Exams.

SECOND MINI-QUARTER

May 19-23	Registration for all summer classes—day and night.
July 1	Tuesday. First day of classes. Late fees apply.
July 2	Wednesday. Last day to register or add classes.
July 4	Friday. Holiday.
July 10	Thursday. End of refund period. Last day to withdraw without penalty.
July 23	Wednesday. Last day of classes.
July 24	Thursday. Exams.

THIRD MINI-QUARTER

May 19-23	Registration for all summer classes—day and night.
July 25	Friday. First day of classes. Late fees apply.
July 28	Monday. Last day to register or add classes.
August 4	Monday. End of refund period. Last day to withdraw without penalty.
August 15	Friday. Last day of classes.
August 18	Monday. Exams.
August 20	Wednesday. Commencement, 8:00 p.m.

FALL QUARTER 1980

August 25-29	Registration for all fall classes—day and night.
September 5	Friday. Freshman and transfer student orientation and counseling.
September 8	Monday. First day of classes. Late fees apply.
September 12	Friday. Last day to register, or add classes.
September 17	Wednesday. End of refund period.
October 10	Friday. Last day to withdraw without penalty.
November 14	Friday. Last day of classes.
November 17-21	Monday-Friday. Final exams for Fall quarter.
November 21	Friday. Fall quarter ends.

WINTER QUARTER 1980-81

November 10-14	Registration for all winter classes—day and night.
December 1	Monday. Freshman and transfer student orientation and counseling.
December 2	Tuesday. First day of classes. Late fees apply.
December 8	Monday. Last day to register or add classes.
December 11	Thursday. End of refund period.
December 19	Friday. Christmas holidays begin after last class.
January 5	Monday. Classes resume.
January 19	Monday. Last day to withdraw without penalty.

February 23	Monday. Last day of classes.
February 24-27,	Tuesday-Friday, Monday. Final exams for Winter
March 2	quarter
March 2	Monday. Winter quarter ends.

SPRING QUARTER 1981

February 16-20	Registration for all spring classes—day and night.
March 4	Wednesday. Freshman and transfer student orientation and counseling.
March 5	Thursday. First day of classes. Late fees apply.
March 11	Wednesday. Last day to register or add classes.
March 16	Monday. End of refund period.
April 8	Wednesday. Last day to withdraw without penalty.
April 15	Wednesday. Easter holidays begin after last class.
April 22	Wednesday. Classes resume.
May 19	Tuesday. Last day of classes.
May 20-22,	Wednesday-Friday, Monday-Tuesday. Final exams for
25-26	Spring quarter.
May 26	Tuesday. Spring quarter ends.
May 29	Friday. Commencement, 8:00 p.m.

SUMMER QUARTER 1981

May 11-15	Registration for all summer classes—day and night.
June 3	Wednesday. First day of classes.
June 9	Tuesday. Last day to register or add classes.
June 12	Friday. End of refund period.
July 3	Friday. Holiday.
July 10	Friday. Last day to withdraw without penalty.
August 12	Wednesday. Last day of classes.
August 13-14,	Thursday-Friday, Monday-Wednesday. Final exams for
17-19	Summer quarter.
August 19	Wednesday. Summer quarter ends.
August 21	Friday. Commencement, 8:00 p.m.

MINI-QUARTERS: SUMMER 1981

FIRST MINI-QUARTER

May 11-15	Registration for all summer classes—day and night.
June 9	Tuesday. First day of classes. Late fees apply.
June 10	Wednesday. Last day to register or add classes.
June 17	Wednesday. Last day to withdraw without penalty. End of refund period.
June 30	Tuesday. Last day of classes.
July 1	Wednesday. Exams.

SECOND MINI-QUARTER

May 11-15	Registration for all summer classes—day and night.
July 2	Thursday. First day of classes. Late fees apply.
July 3	Friday. Holiday.
July 6	Monday. Last day to register or add classes.
July 13	Monday. End of refund period. Last day to withdraw without penalty.

GENERAL INFORMATION

THE COMPREHENSIVE COMMUNITY COLLEGE

The comprehensive community college is a relatively new concept in higher education; it arose in response to the American commitment to the idea of broad educational opportunities for all segments of our society. As the name implies, a community college serves the educational needs of the area in which it is located, providing various types of educational programs for commuting students at a relatively low cost. Educational services can be broadly categorized into three areas—two-year college transfer programs, two-year and one-year occupational programs, and continuing education programs. The latter programs encompass activities ranging from adult basic education to general interest courses for college graduates.

HISTORY

The idea for a community college in Elizabeth City was developed when the Community College Act was passed by the 1957 North Carolina General Assembly, enabling counties to establish their own two-year colleges.

On November 5, 1960, the people of Pasquotank County voted their approval for a new college by a five to two margin. A charter was issued on December 16, 1960, and shortly thereafter the first Board of Trustees was appointed.

The college opened its doors to its first freshman class in September, 1961. Members of the first graduating class received their degrees on May 31, 1963.

College of The Albemarle was the first college in the state chartered under the Community College Act of 1957. The 1963 General Assembly adopted legislation "to promote and encourage education beyond the high school in North Carolina." Among other things, this legislation authorized the establishment of comprehensive community colleges. This legislation became effective on July 1, 1963, and on that same date, at the request of the college trustees and with the joint approval of the State Board of Education and the State Board of Higher Education of North Carolina, College of The Albemarle became the first comprehensive community college in the North Carolina Community College System.

As the college has grown, new technical and vocational curricula have been added and existing programs have been strengthened.

LOCATION AND FACILITIES

The college is presently operating on two campuses. The occupational and continuing education departments are located in the Technical Center on the U.S. 17 North campus. The college transfer departments, the Whitehurst Library, and the administrative offices are located on the Riverside Avenue campus. Construction has started on a classroom-learning resource-administrative office complex of approximately 68,000 square feet. Following completion of these facilities in 1980, College of the Albemarle will move all programs on the Riverside Avenue campus to the U.S. 17 North campus.

The Technical Center, completed in 1972, houses the technical and vocational classrooms, offices, laboratories, a branch of the Whitehurst Library, the continuing education offices, and the Individualized Instruction Center. Also on the new campus is an athletic field which is used for physical education activities.

The Riverside Avenue campus consists of three buildings—the Main Building, the Whitehurst Library, and a gymnasium-auditorium. In the Main Building there are classrooms, science and language arts laboratories, and faculty and administrative offices. The college bookstore, a snack bar, and a lounge area are located on the ground floor of this building.

The Whitehurst Library, adjacent to the Main Building, houses College of The Albemarle's collection of approximately 30,000 volumes of books carefully chosen to meet the needs of the college. It receives approximately 250 periodicals representing academic fields, professional interests, and general interests. Back issues of these periodicals are either bound or put on microfilm. The Learning Resources Center is responsible for the audio-visual program of the college and provides films, filmstrips, tapes, recordings, and other visual aids, both for classroom and individual use. A special room is provided for listening and recording.

The gymnasium-auditorium, completed in 1964, houses a collegiate size basketball court, bleachers having a seating capacity of over 500, and complete locker room facilities. A stage and auditorium, seating over 1,000, adds to the usefulness of this multi-purpose building.

The college maintains additional facilities at the Art Center on Riverside Avenue.

Classroom facilities for the Practical Nurse Education Program are provided by Albemarle Hospital. They are located adjacent to the Technical Center on U.S. 17 North.

OBJECTIVES OF THE COLLEGE

College of The Albemarle strives to serve the community by providing accessible higher education for young people and adults for their cultural development, for developing responsible citizenship, and for enriching personal living.

The major objectives of the college are as follows:

1. To provide specific occupational curricula which lead to employment in both vocational and technical areas, including shorter programs for retraining or for upgrading skills;
2. To prepare students for advanced scholarly study by providing the first two years of basic collegiate education which is transferable to senior colleges and universities;
3. To provide continuing education opportunities for adults who seek to develop vocational skills or who simply desire to study for personal development;
4. To provide basic literacy training and a high school completion program for adults whose formal education is below the twelfth grade level;
5. To provide career planning assistance as well as academic advisement and personal counseling;
6. To provide activities and services for the community for the purpose of enriching its cultural and civic life;
7. To develop in all students a capacity for self-directed learning and a commitment to life-long learning, while maintaining high academic standards in all programs of study.

ACCREDITATION

College of The Albemarle is accredited by the Southern Association of Colleges and Schools and the North Carolina State Board of Education.

Credits earned at College of The Albemarle in curricula leading to the Associate in Arts degree, the Associate in Science degree, the Associate in Fine Arts degree, and some of those leading to the Associate in Applied Science degree are transferable to senior colleges and universities for a higher degree.

COLLEGE PROGRAMS

College transfer programs include courses for those wishing to pursue studies leading to the Associate in Arts, the Associate in Science, and the Associate in Fine Arts degrees and for transferring into almost *any* program at a four-year college or university after completing their studies at College of The Albemarle. Students may select courses in any of the following educational programs:

Pre-Agriculture
Pre-Art
Pre-Business Administration
Pre-Business Education
Pre-Liberal Arts
Pre-Drama

Pre-Elementary Education
Pre-Forestry
Pre-Law
Pre-Mathematics
Pre-Science
Pre-Secondary Education
Pre-Music

Each of the following technical programs lead to the Associate in Applied Science degree and are designed to lead to immediate employment:

Accounting Technology
Agricultural Science
Associate Degree Nursing
Business Administration Technology
Drafting and Design Technology
Electronics Technology
Executive Secretary Technology
General Office Technology
Medical Secretary Technology

Vocational programs designed for those students wishing to prepare themselves for particular occupations are offered in the following areas:

Air Conditioning & Refrigeration
Advanced Machinist
Automotive Mechanics
Cosmetology
Electrical Installation & Maintenance
Electronic Servicing
Machinist
Marine Power Mechanics
Nurses' Assistant
Operating Room Technician
Practical Nurse Education
Welding

Continuing education programs include a variety of courses designed to meet the particular needs and interests of individuals, businesses, and industries in the area. Programs designed for training persons for specific industries are offered when needed, and general offerings designed to help persons complete their high school education and improve their skills in other areas are offered each quarter.

ADMISSION TO THE COLLEGE

College of The Albemarle follows the open door admissions policy established by the State Board of Education, with selective placement in the different curricula or other programs of the institution. This policy provides for the admission of any person who has 1) graduated from high school or earned its equivalent (GED),* or 2) who is eighteen years of age and is not attending high school.

Applicants for credit toward two-year degree programs must be high school graduates or hold the equivalency certificate and are required to take placement tests. Health questionnaires are also required. Health careers applicants must take entrance exams and are required to get a doctor's examination.

Prospective students for one-year vocational programs are required to be high school graduates or have earned its equivalent (GED).* In addition, the college may accept under certain conditions a limited number of one-year vocational special student applicants who are not high school graduates.

All full-time and part-time students must complete a standard application accompanied by proof of high school graduation or completion of the GED prior to initial registration. Any student who plans to enter a health career or cosmetology program must have a medical examination form completed by a physician.

All admissions materials for programs of study can be obtained from the Admissions Office. Specific guidelines on the admissions procedures for various programs may be obtained by writing or calling the Admissions Office.

For applicants who plan to enroll under the G. I. Bill, there are additional criteria which must be followed prior to *certification* to the V.A. for payment purposes.

It is the policy of College of The Albemarle to encourage all applicants to complete high school or the high school equivalency before admission to the college.

College of The Albemarle is committed to the principal of equal opportunity. It is the college's policy not to discriminate on the basis of race, sex, color, national origin, religion, age, or handicap with regard to its students, employees or applicants for admission or employment. Inquiries regarding compliance with this equal opportunity policy may be directed to the President of College of The Albemarle.

* Applicants' scores must meet the minimum requirements for the State of North Carolina or the applicant must present a certificate from another state verifying successful completion of the GED.

Preparatory training, particularly for the college transfer programs, should emphasize the traditional academic subjects. The recommended high school credits include:

English	4 units
Foreign Language	2 units
Mathematics	2 units
Social Studies	2 units
Natural Science	1 unit
Electives	5 units

ADMISSIONS REQUIREMENTS FOR TRANSFER STUDENTS

Students desiring to transfer to College of The Albemarle from another institution must meet the admission requirements in effect at the time of their applications and to provide proof of their eligibility to return to the institution last attended. If the students are ineligible to return to that institution, or if they have been placed on probation by that institution, they may be admitted to College of The Albemarle on Conditional Status. However, program selection and placement responsibility resides in the office of the Dean of Student Services.

Credit is given for "C" or better work completed at accredited institutions and institutions in the North Carolina Community College System if it parallels work offered at College of The Albemarle. All transfer credit is awarded pending successful completion of one quarter as a full-time student at the college.

Transfer students must maintain a "C" average on all work attempted (at least 36 hours) at College of The Albemarle to be eligible to graduate. If a "C" average is maintained, all grades transferred to the college will be considered with those earned at College of The Albemarle to determine honors.

FRESHMAN ORIENTATION PERIOD

The purpose of the required orientation program is to introduce students to their new environment and to acquaint them with the policies and regulations of the college. Receptions, assemblies, lectures, and open forum discussions are held to assist students in making an effective adjustment to college life.

REGISTRATION

College of The Albemarle has a registration period which usually begins two weeks prior to the first day of classes for any quarter. Tui-

tion and fees are due and payable on the day students register. All prospective financial aid recipients must have received their financial aid award letter prior to being registered for classes. Late registration is permitted through the first week of classes for each quarter, and two days of late registration are permitted for the summer mini-quarters. Students with incomplete admissions files may register for classes only with special permission from the Dean of Student Services. Students allowed to register under these conditions must complete their files before any grades can be released or credit granted. Students cannot register for a subsequent quarter until their files are complete.

Any past due accounts owed to the college must be paid before permission to register can be given.

Veterans and/or war orphans should see the Veterans Affairs section for special conditions concerning enrollment certification for initial entrance to College of The Albemarle.

AUDITING COURSES

Students who wish to audit courses must follow the usual procedure for registration. Auditors receive no credit but are expected to attend classes regularly and participate in class discussions. They are encouraged to do all work and assignments expected of regularly enrolled students. Auditors will be charged the same fees as students taking courses for credit and they are responsible for observing the same regulations concerning attendance and behavior as students registered for credit.

FEES AND EXPENSES

Students who enroll in curriculum classes are subject to the following tuition and fee rates:

Tuition for In-state Residents

\$3.25 per quarter hour or \$39.00 maximum per quarter

Tuition for Out-of-state Residents

\$16.50 per quarter hour or \$198.00 maximum per quarter

Activity Fee (12 or more quarter hours)

Fall Quarter \$10.00

Winter Quarter 9.00

Spring Quarter 9.00

Tuition is waived for persons 65 years of age or older.

All tuition and fees are due and payable at the time of registration.

Any past accounts owed to the college must be paid before permission to register can be given.

The cost of books, supplies, and gym uniforms, while varying according to the courses of study, should total approximately \$120 per year, with the major expense occurring in the Fall Quarter.

Candidates for graduation will be charged a fee to cover costs of the diploma, and cap and gown purchase. This fee is non-refundable.

Each full-time student (carrying 12 or more quarter hours) pays an activity fee. This entitles the student to admission to many college-sponsored activities. When the year book is published, full-time students enrolled for three consecutive quarters will be given yearbooks without charge.

DEVELOPMENTAL COURSES TUITION

Developmental course tuition is charged at the same rate as are other courses. These courses are listed in the Course Description section of this catalog and include all courses with two digits in the course number.

Total tuition will be the sum of tuition for developmental courses, plus the regular charge per quarter for other courses taken, not to exceed the applicable maximum tuition charge. Late registration and activity fees are additional.

PHYSICAL EDUCATION ACITVITY COURSE FEES

PED 204, *Bowling*. A nominal lane fee is charged for each game.

PED 206, *Golf*. A nominal greens fee is charged for each game played at local golf courses.

RESIDENT STATUS FOR TUITION PAYMENT

Current North Carolina law G. S. 116-143.1 on this subject states:

To qualify as a resident for tuition purposes, a person must have established legal residence (domicile) in North Carolina and maintained that legal residence for at least 12 months immediately prior to his or her classification as a resident for tuition purposes. Every applicant for admission shall be required to make a statement as to his/her length of residence in the State.

To be eligible for classification as a resident for tuition purposes, a person must establish that his or her presence in the State currently is, and during the requisite 12-month qualifying period was, for purposes of maintaining a bona fide domicile rather than of maintaining a mere temporary residence or abode incident to enrollment in an institution of higher education.

An individual shall not be classified as a resident for tuition purposes and, thus, not rendered eligible to receive the in-State tuition rate, until he or she has provided such evidence related to legal residence and its duration as may be required by officials of the institution of higher education from which the individual seeks the in-State tuition rate.

When an individual presents evidence that the individual has living parent(s) or court-appointed guardian of the person, the legal residence of such parent(s) or guardian shall be prima facie evidence of the individual's legal residence, which may be reinforced or rebutted relative to the age and general circumstances of the individual by the other evidence of legal residence required of or presented by the individual; provided, that the legal residence of an individual whose parents are domiciled outside this State shall not be prima facie evidence of the individual's legal residence if the individual has lived in this State the five consecutive years prior to enrolling or re-registering at the institution of higher education at which resident status for tuition purposes is sought.

Regulations concerning the classification of students by residence for purposes of applicable tuition differentials are set forth in detail in *A Manual To Assist The Public Higher Education Institutions Of North Carolina In The Matter Of Student Residence Classification For Tuition Purposes*. Copies of the *Manual* are available on request in the Dean of Student Services office, the Whitehurst Library, and the Technical Center Library.

All new students applying for admission must complete as a part of their application the Residence Status Form. In questions concerning resident status, students are advised to consult the Dean of Student Services.

INSURANCE

College of The Albemarle assumes no responsibility for injuries or losses. An opportunity will be provided at the time of registration for

all full-time students to obtain accident insurance (approximately \$5.00 per year).

All students enrolling in Associate Degree Nursing, Operating Room Technician and Practical Nurse Education programs are required to have malpractice insurance. Such insurance may be purchased through the college's Business Office.

REFUNDS AND TUITION CREDITS

Tuition refunds shall not be made unless the student is, in the judgment of the institution, compelled to withdraw from the college for unavoidable reasons. In such cases two-thirds of the student's tuition may be refunded if the student withdraws within ten (10) calendar days after the first day of classes. Tuition refunds will not be considered after that time. Tuition refunds will not be considered for tuition of \$5.00 or less, unless a course or curriculum is not offered, in which case all tuition shall be refunded. All refunds are forfeited for failure to adhere to proper withdrawal procedures.

All fees, including student activity fees, are non-refundable and forfeited upon withdrawal from the college.

Where students, having paid the required tuition, withdraw from the college before the end of the quarter and the reasons for withdrawal are found unavoidable by the college, they may be allowed credit for unrefunded tuition if they apply for re-admission during any of the next four calendar quarters and petition in writing to be allowed such credit. All credits are forfeited for failure to adhere to proper withdrawal procedures.

Petitions for refunds and credits must be made in writing to the Dean of Student Services within ten (10) calendar days of the official date of withdrawal. Forms for this purpose are available in the Student Services Offices. Reasons for withdrawal will be considered unavoidable when circumstances beyond the control of the student affect the life and livelihood to such an extent as to make continued enrollment impossible. Matters of personal convenience or preference are not considered unavoidable reasons.

TRANSCRIPT OF RECORDS

Upon request of the student, a record of academic credit earned at College of The Albemarle will be sent to any person or agency when requested by the student in writing provided all accounts with the college have been settled satisfactorily. There is no charge for transcripts.

FINANCIAL AID

The philosophy at College of The Albemarle is that any individual who wishes to attend the institution should not be deprived of this privilege by virtue of a lack of financial resources. Although the primary responsibility for financing an education remains with the student and/or his/her family, College of The Albemarle participates in programs designed to supplement the family contribution in order to meet documented student financial need. Financial aid consists of grants, loans, scholarships, campus employment, or any combination of these as determined by the policies of the Financial Aid Office.

APPLICATION

All students must file the following applications in order to be considered for aid:

- 1) The regular Application for Admission to the College.
- 2) The Institutional Application for Financial Aid.
- 3) Basic Educational Opportunity Grant—(a) Student completes the Financial Aid Form (FAF) authorizing information on the FAF to be released to the Basic Grant program. (b) The Student Eligibility Report (SER) is mailed from Basic Grant to the student. (c) The student brings the SER into the Financial Aid Office. Awards for additional institutionally controlled funds cannot be made until the student sends the SER to the Financial Aid Office.
- 4) One of the following need analysis:
 - a. Parent's Confidential Statement which should be completed for dependent students living at home with parents who own a business and/or farm.
 - b. Financial Aid Form (FAF) is for students living at home with parents or guardian who do not own a farm and/or business and for those students who are considered independent students.

Application for aid is renewed annually; therefore, returning students must submit new applications each year assistance is requested. Application forms may be obtained from area high school counselors or upon request to the college's Director of Financial Aid. In order to receive initial consideration for all types of financial aid, the student should complete all aid applications before June 1. Applications received after the June 1 deadline date will be considered only if funds are still available.

BASIC EDUCATIONAL OPPORTUNITY GRANT

The intent of the program is that every eligible student is entitled by right to federal grant assistance. All recipients of financial aid must submit their Student Eligibility Report to the Financial Aid Office before any other form of aid can be awarded.

SUPPLEMENTARY EDUCATIONAL OPPORTUNITY GRANT

Students who show academic promise and who could not attend the college without financial assistance are eligible for a Supplemental Educational Opportunity Grant. This federal program, available to a limited number of needy students, does not require employment or repayment. The amount of the grant is based on the student's financial need and may range from \$200 to \$1,500 per year. The grant may not exceed one-half of the student's total award and must be matched by at least an equal amount of other aid, such as a loan, scholarship, or employment with the college.

NORTH CAROLINA STUDENT INCENTIVE GRANT (NCSIG)

Administered by College Foundation, Inc., this grant program is provided to students who are legal residents of North Carolina accepted for enrollment or enrolled full-time in good standing, in an undergraduate program of study in an eligible college, university, technical, or vocational school in North Carolina. Students must demonstrate financial need as determined through the need analysis system of the College Scholarship Service. The amount of each grant will be based on demonstrated financial need in relation to resources and cost of education, but may not exceed one-half of a student's unmet need or \$1,500 per academic year whichever is less. Application for NCSIG is made by entering name, address, and College Scholarship code (5133) on the Financial Aid Form.

LOANS

NATIONAL DIRECT STUDENT LOAN

Loans not exceeding \$2,500 while at College of The Albemarle *may* be made to eligible students enrolled for full-time academic work. The repayment period and the interest do not begin until nine months after the student ends his/her full-time studies. The loans bear interest at the rate of 3% per year and repayment of principal may be extended over a ten year period, except that a minimum payment of \$90 per quarter is mandatory.

Borrowers who become teachers of handicapped children in public or other non-profit elementary and secondary schools, or teach in certain eligible schools located in areas of primarily low income families, may qualify for cancellation of the entire obligation at the annual rate of 15% for the first and second year, 20% for the third and fourth year, and 30% for the fifth year. Repayment may be deferred up to a total of three years while a borrower is serving in the Armed Forces, with the Peace Corps, or as a Volunteer in Service to America (VISTA). Repayment is deferred for as long as a borrower is enrolled at an institution of higher education and is carrying at least a half-time academic work load.

N. C. INSURED LOAN PROGRAM—COLLEGE FOUNDATION, INC.

Under this program an in-state student may borrow as much as \$2,500 per year. Repayment of principal and interest at 7% begins when students have ceased their course of study.

OUT-OF-STATE STUDENT LOANS

Out-of-state students should contact their family banks or state higher education assistance agencies concerning state-administered guaranteed student loan programs.

NURSING STUDENT LOANS

High school graduates who have been accepted for enrollment as full-time students in the Associate Degree Nursing program, or students presently enrolled in good standing, may obtain loans under this program. Students who are eligible for loans under this program are prohibited from receiving loans from the National Direct Student Loan program.

The maximum amount available to a student in an academic year is \$1,500. The repayment period and the interest begin nine months after the borrower ceases to pursue a full-time course of study. The loans bear interest of 3% per year and repayment may be extended over a ten year period, except that a \$45 per quarter payment is mandatory. Should a borrower become a full-time employee as a professional nurse (including teaching in any of the fields of nurse training and service as an administrator, supervisor, or consultant in any of the fields of nursing) in most public or non-profit private institutions or agencies, as much as 85% of the loan may be cancelled while employed as such for a five year period.

Eighty-five percent of the loan may be cancelled when the borrower is employed full-time for a three year period in a public or non-profit hospital (in any area determined by the Secretary of H.E.W.), which has a substantial shortage of such nurses at the hospital. Cancellation can be made only for each complete year of such employment and must be applied for during the year in which such employment was performed.

COLLEGE WORK-STUDY PROGRAM

The College Work-Study Program enables eligible students to help pay college expenses while attending classes full-time. Students participating in the program are employed in the library, gymnasium, laboratories, administrative and faculty offices, in various departments of the college, and in agencies located throughout the college's service area. Interested students should contact the Director of Financial Aid.

ALBEMARLE HOSPITAL AUXILIARY SCHOLARSHIPS

The Albemarle Hospital Auxiliary Scholarships are awarded annually to students who enroll in the Licensed Practical Nursing and Associate Degree Nursing programs. Students wishing to apply for these scholarships should contact the Chairperson of the Nursing Department or the Director of Financial Aid.

ALEXANDRA BOADA SCHOLARSHIP

This scholarship, awarded in memory of a former foreign language instructor, covers in-state tuition and fees for one academic year, and is sponsored by the Foreign Arts Club which designates the criteria for the award and selects the recipient. A list of eligibility requirements may be obtained from the Financial Aid Office.

JAMES T. CONNOLLY SCHOLARSHIP

The Connolly Scholarship, in memory of a former business instructor, is awarded annually to a northeastern North Carolina student who is enrolled in a business program at College of The Albemarle. A list of eligibility requirements may be obtained from the Financial Aid Office.

NURSING SCHOLARSHIPS

Financially needy students who are enrolled or accepted for enrollment in the Associate Degree Nursing program are eligible for Nurs-

ing Student Scholarships. The scholarships are based on need and academic success; \$2,000 is the maximum scholarship that may be awarded per student.

PRESIDENT'S SCHOLARSHIP

Valedictorians and salutatorians from each high school in Camden, Chowan, Currituck, Dare, Gates, Hyde, Pasquotank, Perquimans, Tyrrell, and Washington Counties may apply for a President's scholarship. This award covers tuition and fees. The recipient's eligibility remains in effect during six quarters enrollment at College of The Albemarle.

ROBINSON SCHOLARSHIPS

Graduates of northeastern North Carolina high schools who have at least average grades are eligible for these scholarships. The student's financial need will determine the amount of the scholarship.

THE RAYMOND H. SHORKEY MEMORIAL SCHOLARSHIP

The Shorkey Scholarship is awarded annually in the amount of in-state tuition and fees for one academic year (four quarters) to a full-time student in the Machinist Trade program. The scholarship recipient must be a North Carolinian residing in the seven county College of The Albemarle service area.

VFW SCHOLARSHIP

The VFW Scholarship is a \$100 renewable scholarship awarded each year to a full-time first year student. Applicants must be the son or daughter of a veteran of military service, and a permanent resident of Camden, Chowan, Currituck, Dare, Gates, Pasquotank, Perquimans, Tyrrell, Hyde, or Washington County.

GROVER CLYDE WHITE SCHOLARSHIP

The White Scholarship is a two year scholarship covering in-state tuition, fees, and books. Applicants must be northeastern North Carolina residents whose surname or mother's maiden name is White. The student's scholastic standing must be in the upper 25% of the high school graduating class.

PASQUOTANK EXTENSION HOMEMAKER CLUB SCHOLARSHIP

The Pasquotank Extension Homemaker Scholarship is a tuition scholarship which is awarded annually to a student from Pasquotank County. The student must have diversified interests both in school and in the community, as well as have a good scholastic average. Preference in selection is given to the children of Extension Homemakers.

ELIZABETH CITY JUNIOR WOMAN'S CLUB SCHOLARSHIP

The Elizabeth City Junior Woman's Club Scholarship is awarded annually to a full-time student who has maintained a 2.5 academic average. A list of eligibility requirements for the scholarship may be obtained through the Financial Aid Office.

STUDENT SERVICES

College of The Albemarle offers a comprehensive program of student services designed to aid students in meeting the challenges of college life, and to provide opportunities to maximize self-understanding and personal growth as well as develop intellectual and social skills.

GUIDANCE AND COUNSELING

Educational, vocational, and personal guidance and counseling are available to all students from the following two sources: the Student Services counselors and the faculty.

The Student Services counselors provide admissions counseling designed to assist students to identify programs of study and to select courses for which they are best suited and which lead toward the attainment of their educational objectives. Once enrolled the counselors continue to work closely with students to insure that their educational program is implemented and that they are making satisfactory progress toward the accomplishment of their educational goals. The counselors are available also for personal-social counseling if students desire to take advantage of this service.

Since the college offers college transfer education, many students frequent the counselor's offices to discuss transfer admission requirements at senior institutions. Although the counseling staff assumes the responsibility to be cognizant of transfer admission requirements, *in the final analysis it is the direct responsibility of the student to contact the senior college or university to determine requirements for transfer*, thus verifying the information obtained from the Student Services counselor.

Faculty members post regular office hours during which time students enrolled or anticipating enrollment in classes may seek advisement and consultation. By way of faculty advisement, the instructional staff is also utilized for career and program guidance information for enrolled students and prospective students.

INFORMATION SERVICE

Information pertaining to occupations, educational opportunities, and social concerns is available from the Student Services counselors for students and prospective students. Also, the Office of Student Services coordinates with the Public Information Office and faculty in the development and distribution of printed materials pertaining

to curriculum courses and programs (i.e., catalog, program brochures, and general information booklets).

TESTING AND ACADEMIC PLACEMENT

All incoming full-time College Transfer and Technical students will be given a series of guidance and placement (not entrance) tests. The English, mathematics and test of ability to follow directions section of the Comparative Guidance Placement (CGP) Test must be scored before new students can register to attend classes. The Admissions Office has a schedule of planned Saturday testing times and dates. Testing is also conducted in an abbreviated form on orientation day of each quarter, exclusive of the summer quarter.

The counseling staff at College of The Albemarle is qualified to administer and interpret a variety of group and individual tests. In addition to placement testing, students have the opportunity to take additional interest, personality and aptitude measurements as needs arise during their studies at College of The Albemarle.

PLACEMENT SERVICE

College of The Albemarle attempts to provide both educational and job placement assistance for its students. College transfer students are assisted by the Student Services counseling staff in gaining admission into senior colleges and universities to complete their baccalaureate program.

All other students who do not plan to continue their education are urged to register with the Placement Office located in the Technical Center Counseling Center six months prior to their graduation date, regardless of whether or not they plan to seek employment immediately upon graduation.

Students who desire employment are recommended to prospective employers in business and government and notified of vacancies which exist. Upon request by a prospective employer and approval of the student, the student's credentials consisting of personal data, references, and college transcript are sent to the employer by the Placement Office. Registrants are eligible for interviews with recruiters who come to the Placement Office seeking applicants for jobs.

Placement forms are available at any time during office hours in the Technical Center. The Director is also available for counseling with registrants who need information about job opportunities.

The Placement Office is responsible for keeping abreast of part-

time job offerings for students while they are enrolled in school. Students should contact the Director for additional information.

There is no charge for any of the services of the Placement Office.

TUTORIAL PROGRAM

The tutorial program is designed to help those occupational students who are having difficulty making satisfactory grades in any particular subject. Students recommended by instructors will tutor those students who need help. Interested students should contact the Office of Student Services or the Technical Center Counseling Center for additional information.

HEALTH SERVICE

The college does not have an elaborate system of health services. However, the Rescue Squad of Pasquotank County is available on call at no cost to the student in the case of an emergency. First aid kits are currently available in the gymnasium, the Business Office, the maintenance offices of both campuses, and certain laboratories. These locations are subject to change. The kits are available for student use; however, the college does not assume responsibility for the administration of first aid. The *Policy and Procedure Manual* should be consulted for information and procedures for handling accidents and emergencies.

Students have the opportunity to purchase accident insurance when they register. The college strongly recommends that students enrolling in occupational programs and who plan to take physical education activity courses avail themselves of this opportunity.

HOUSING

Many students from other counties and states desire to live in Elizabeth City while attending College of The Albemarle. No dormitory facilities are provided. Students must arrange their own living accommodations, and the college does not assume responsibility for the acquisition, approval, or supervision of such housing.

STUDENT ACTIVITIES

College of The Albemarle offers its students opportunities to participate in a variety of cultural, athletic, and recreational experiences. Students may also participate in the governance of the college as elective and appointive student government officers and senators.

Through financing made possible by the student activity fee paid by all full-time students, the Student Senate plans and directs a program of activities such as informal dances, concerts, fishing contests, melon fests. COA Week festivities, student-faculty sports competition, and the Spring formal, as well as lending financial support to student clubs, organizations, publications, intramurals, and the College Lyceum series.

The student newspaper, *Old Salt*, the yearbook, *Beacon*, and the campus literary magazine, *Argus*, are published by students. This work gives students an opportunity to explore their own creativity within the media arts, as well as an opportunity to work in editing, advertising, and photography.

Many activities are conducted in relation to courses of study—Associate Degree Nursing Clubs, Cosmetology Club, Foreign Arts Club, Phi Beta Lambda, Practical Nursing Club and Tec Club. Others are based on student interest and hobbies—the Satyrs, the college drama group; the Chorale, the college choral group; and Phi Beta Pro, a club interested in public relations.

Membership in the college's national scholastic fraternity, Phi Theta Kappa, is open to students who show high scholastic standing, character, leadership, and service while a student at College of The Albemarle.

The college also provides comprehensive drama and musical programs, a "straight poop" convocation series exploring a number of areas of student interests, and a Lyceum series designed to expose the students, faculty, and the community to cultural art forms not usually available in the college's geographic area.

The Department of Health, Physical Education, and Athletics offers an extensive program of intramural sports. Participation in these sports is purely voluntary, and college credit is not given. The sports offered in the intramural program are correlated with those taught in the required physical education courses so that students are given the opportunity to practice their skills in actual competition.

VETERANS AFFAIRS

Veterans are invited to take advantage of the student services and educational programs offered by the college. College of The Albemarle cooperates with the Veterans Administration (VA) and the North Carolina Department of Veterans Affairs in assisting veterans and dependents of disabled or deceased veterans. For information and application forms students should contact local Veterans Affairs offices. In Elizabeth City, the address of the North Carolina

Department of Veterans Affairs is 203 West Ehringhaus Street.

Most curriculum courses listed in the catalog are approved for veterans training, as well as the Adult High School Completion Program. For information concerning approved courses, please contact the Registrar.

All veterans and/or dependents are urged to contact local VA offices or the North Carolina Department of Veterans Affairs offices at least one month prior to enrollment at College of The Albemarle, and further to contact the Registrar for general information concerning VA educational benefits at the time of initial enrollment at the college.

All general regulations contained in this catalog apply to all students. However, there are some special conditions for the enrollment of veterans and/or dependents of veterans:

1. Under laws and/or regulations governing institutions approved for training of veterans and/or dependents of veterans, certain documents must be on file prior to certification of enrollment for educational assistance purposes. **NO ELIGIBLE PERSON WILL BE CERTIFIED UNTIL THE FOLLOWING DOCUMENTS ARE IN THE HANDS OF THE CERTIFYING OFFICIAL:**
 - a. Application for admission
 - b. High school transcript or its equivalent (GED)
 - c. Official transcripts of all previous education or training.
2. **Changing Curriculum.** Any deviation from the VA-approved educational objective constitutes a change of program. A Request for Change of Program (VA Form 21E-1995) must be filed with the VA at the beginning of the quarter in which the change is anticipated.
3. **Address Change.** The VA must be notified of any change of address to which assistance checks are mailed. Forms for this purpose are available from the Registrar's Office.
4. **Auditing Classes.** The VA does not recognize auditing as part of a normal class load. Should a change to audit reduce the course load below the number of hours necessary to be considered a full time student, the Registrar must notify the VA of such change and assistance pay will be adjusted accordingly. Following is a chart for determining student status for payment purposes:

Credit Hour Enrollment:

12 or more	— full time	6-8	— ½ time
9-11	— ¾ time	less than 6	— tuition only

5. Class Attendance. All students are expected to attend all classes. When excessive absences cause disenrollment by the instructor, the Registrar must notify the VA of a reduced course load which, in turn, could affect assistance payments. Monthly attendance reports are required of all veterans and other eligible persons to be submitted to the Registrar on the last class day of each month.
6. Withdrawals. Courses dropped after the official drop period, not to exceed 30 days, which reduce the certified rate of pursuit could result in the reduction in rate of pursuit being retroactive to the beginning of the term. This applies particularly when a non-punitive grade is given by the instructor and no mitigating circumstances exist. Mitigating circumstances as defined by the VA are:
 - a. Serious illness of the eligible veteran or person.
 - b. Serious illness or death in the eligible veteran's or person's immediate family.
 - c. Immediate family or financial obligations which require a change in terms, hours, or place of employment which precludes pursuit of a course.
7. Special Restriction. Federal regulations prohibit the enrollment of an eligible veteran in any curricula for a period during which more than 85 percent of the students enrolled are having all or part of their tuition, fees, or other charges paid to or for them by the school, the Veterans Administration, and/or by grants from any Federal agency. (Exception: Veteran's Farm Training Program.)
8. Public Law 93-508 states:

"Where two or more unit subjects are undertaken and the veteran fails or withdraws from all, the veteran will be determined to have made unsatisfactory progress. Veterans who fail to maintain satisfactory progressive average may be placed on a one-term probation period. Veterans who are terminated for unsatisfactory progress must go through Veterans Administration Counseling before they can be re-certified for educational benefits." This means (1) if you fail or drop all courses attempted in any quarter, your certification of enrollment will be cancelled for unsatisfactory progress, or (2) if your grade point average does not meet minimum standards after one probationary term, your certification of enrollment will be cancelled for unsatisfactory progress.
9. Public Law 95-202 states:

The school will report unsatisfactory progress when a student ac-

cumulates unsatisfactory punitive grades in the equivalent of more credit hours than the minimum full-time load for VA purposes (12 credit hours).

10. A veteran or other eligible person may not repeat a course for which credit has been granted and use those hours as a part of the VA certification.

COLLEGE OF THE ALBEMARLE RESERVES THE RIGHT TO CANCEL ENROLLMENT CERTIFICATIONS OF ANY VETERANS AND/OR DEPENDENTS OF VETERANS NOT MAKING NORMAL PROGRESS TOWARD THE VETERANS ADMINISTRATION APPROVED EDUCATIONAL OBJECTIVE AS DETERMINED BY APPROPRIATE COLLEGE OFFICIALS.

Records of progress are kept at this institution on veteran and non-veteran students, alike. Progress records are furnished the students, veterans and nonveterans alike, at the end of each scheduled school term.

Student Responsibilities, Regulations and Conduct

1. Attendance to all social events will be by student identification cards.
2. No outside guests, other than a student's date, are allowed at social events.
3. Dress of students (or their guests) should be appropriate for the school function involved.
4. College students are considered to be mature individuals. Their conduct, both in and out of school, is expected to be that of responsible adults in public places. Any and all actions or materials prohibited by federal, state, and city-county law also are prohibited on the COA campus. Common courtesy and cooperation are the basic rules for conduct.
5. General misconduct by students (or their guests) at school functions will subject them to disciplinary action by the Disciplinary Committee.
6. Each student is held responsible for information published in the college *Catalog* and announcements placed on the student bulletin boards.
7. Students who negligently lose, damage, destroy, sell, or otherwise dispose of college property placed in their possession or entrusted to them will be charged for the full extent of the damage or loss and are subject to disciplinary action.

8. Under no condition will intoxicating liquor (any beverage containing as much as one half of one percent of alcohol), narcotics, illicit drugs, hallucinogens, barbiturates, or amphetamines be permitted in or on college property. Anyone known to be under the influence of same is prohibited from entering on college property. Additionally, the introduction, possession, sale, exchange, and/or use thereof is considered grounds for dismissal and possible legal action. Use of a drug authorized by a medical prescription from a registered physician shall not be considered a violation of this rule.
9. Students who engage in such acts as stealing, cheating, gambling, use of profane language, personal combat and possession of firearms or dangerous weapons on college property are subject to disciplinary action.
10. Cheating and plagiarism are those processes of utilizing as one's own another's work, words, or ideas. Those processes are not the mark of the competent college student; students who use them are subject to disciplinary action by the college.
11. Personal cleanliness and property cleanliness are important phases of training. Students will be expected to make use of the disposal containers in the halls and in all areas of shops and classrooms.
12. No student shall possess or carry, whether openly or concealed, any gun, rifle, pistol, dynamite cartridge, bomb, grenade, mine, powerful explosive as defined in G.S. 14-284.1, bowie knife, dirk, dagger, slingshot, leaded cane, switchblade knife, blackjack, metallic knuckles, or any other weapon of like kind, not used solely for instructional or school sanctioned ceremonial purposes, in any college building or vehicle, or other property owned, used, or operated by the college.
13. College of The Albemarle honors the right of free discussion and expression. That these rights are a part of the fabric of this institution is not questioned. It is equally clear, however, that in a community of learning, willful disruption of the educational process, destruction of property and interference with the rights of others cannot be tolerated. Accordingly, it shall be the policy of the college to deal with such disruption, destruction, or interference promptly and effectively, but also fairly and impartially without regard to race, religion, sex or political beliefs.

Students interested in campus demonstration information are required to consult with the Dean of Student Services.

14. Any student, who with the intent to obstruct or disrupt any normal operation or function of the college, or any of its components, engages, or invites others to engage, in individual or collective conduct which destroys or significantly damages any college property, or which impairs or threatens impairment of the physical well-being of any member of the college community or which because of its violent, forceful, threatening or intimidating nature, or because it restrains freedom of lawful movement, or otherwise prevents members of the college community from conducting their normal activities within the college, shall be subject to prompt and appropriate disciplinary action, which may include suspension, expulsion, or dismissal from the college.

The following, while not intended to be exclusive, illustrate the offenses encompassed herein, when done for the purpose of obstructing or disrupting any normal operation or function of the college or any of its components: (1) occupation of any college building or part thereof with intent to deprive others of its normal use; (2) blocking the entrance or exit of any college building or room therein with intent to deprive others of lawful access to or from, or use of, said building or corridor or room; (3) setting fire to or by any other means destroying or substantially damaging premises; (4) any possession or display of, or attempt or threat to use, for any unlawful purpose, any weapon, dangerous instrument, explosive, or inflammable material in any college building or on any college campus; (5) prevention of, or attempt or prevent by physical act, the attending, convening, continuation, or orderly conduct of any college class or activity or of any lawful meeting or assembly in any college building; (6) blocking normal pedestrian or vehicular traffic on or into any college campus.

COLLEGE DISCIPLINARY COMMITTEE

The purpose of this committee is to hear charges against students accused by any member of the college community of infractions of rules or regulations applying to student behavior; to judge the guilt or innocence of students so charged; and to decide upon action to be taken against students judged to be guilty of such infractions.

The College Disciplinary Committee shall be composed of all current members of the Faculty Executive Committee, a student representative appointed by the current President of the Student

Senate, the Dean of Student Services, and the Dean of Instruction who shall be the chairman.

The chairman shall vote only in the event of a tie. The Dean of Student Services, as a representative of the student's interests, will be a non-voting member.

DISCIPLINARY PROCEDURES

Any student, faculty member, or administrator may:

- (1) File a written complaint against the student with the Dean of Instruction and request that the College Disciplinary Committee be convened to consider the complaint. The written charges of the alleged violations shall include the rule(s) or regulation(s) allegedly violated.
- (2) The Dean of Instruction shall distribute copies of the complaint to the committee members and to the student against whom the complaint is lodged and set the time for the committee's meeting. The student's copy of the charges and alleged violations shall be handed to the student by the Dean of Instruction or his designee or the copy may be mailed to the student's residence or last known residence.
- (3) The committee shall be the judge of whether sufficient time has elapsed for the accused to prepare his defense.
- (4) If the student fails to appear at a scheduled hearing and offers no reasonable excuse, the student will be suspended from the college for one quarter. If the student is unable to appear at a scheduled hearing for a logical reason, another hearing date will be set. The student will direct the excuse to the Dean of Instruction.
- (5) No member of the Disciplinary Committee who has an interest in the case shall sit in judgment. The temporary replacement shall be appointed by the Dean of Instruction except in the event of replacement of the Student Senate representative, whose replacement shall be appointed by the President of the Student Senate.
- (6) At the hearing, the Dean of Instruction shall preside. The Dean of Student Services shall present any information relative to the situation.

- (7) Both the accused and the accuser shall have the right to make statements in extenuation or rebuttal and to call witnesses on their behalf. Both shall also have the right to question witnesses.
- (8) Members of the committee shall have the right to call other persons to appear, and to question witnesses and the accused.
- (9) Any member of the college faculty or staff, or any student or group of students, may appear only with prior permission of the committee.
- (10) The Dean of Student Services may make a recommendation to the committee.
- (11) The Dean of Instruction shall be responsible for keeping a verbatim record of the hearing (e.g., a recording). In addition, he/she shall prepare three case summaries of the proceedings. One copy of the case summary shall be kept permanently in the office of the Dean of Instruction, another kept in the office of the Dean of Student Services (to be retained in files separate from student's permanent academic files) and the third shall be for the student. The recording shall be retained by the Dean of Instruction.

The Secretary to the Dean of Instruction is authorized to be present at the proceedings for operation of the recorder and to take written minutes for the case summaries.

STUDENT RECORDS CONFIDENTIALITY AND RELEASE

College of The Albemarle recognizes the importance of exercising responsibility in the maintenance and security of all student records. In order to meet that responsibility and the requirements of the Family Education Rights and Privacy Act of 1974, as enacted by Congress, the college makes the following information known:

- I. Types of educational records and information which directly relate to students and which are maintained by the college.
 - A. *Permanent Student Files*: Transcripts of work at other institutions, health forms or records, recommendation letters, placement test profiles, application and residency forms.
 - B. *Transcripts*: Academic record of all courses taken while enrolled at the college.

- II. The official responsible for the maintenance of each type of record, the persons who have access to those records, and the purpose for which they have access:
 - A. The Registrar is the individual responsible for the maintenance of student files and transcripts.
 - B. The permanent clerical staff in the Student Services office have access to the files for maintenance purposes.
 - C. The counselors and faculty advisors have access to the files for the purpose of academic advisement.
 - D. Members of the Academic Suspension Appeals Committee when a case comes before that committee.
 - E. Other authorized college committees whenever the nature of their responsibility requires access to student records (e.g., determining awards at graduation, etc.)
- III. The policy of the college for reviewing, maintaining, and expunging records:
 - A. As a matter of policy the institution destroys all student records except the official transcript five (5) years after the student leaves the college.
 - B. Parents and legal guardians of independent students 18 years of age or older do not have a right to view student records, grades, test scores, etc. unless written consent of the student is received. Parents of dependent students as defined in section 152 of the Internal Revenue Code of 1954 may review student records *without* the written consent of the student.
 - C. Requests for student transcripts will not be honored as long as the student has any outstanding debt to the college.
 - D. Official transcripts and placement files will be forwarded *only upon the written request of the student*.
 - E. Whenever it is requested that grades or records of students be released to faculty or to any agency, written permission must be obtained from the student except as outlined in II preceding. Forms are available in the Registrar's office for this purpose.
 - F. Instructors may post final exam and end of course grades provided a numerical code is used, unless students notify

their instructors five class days before the end of the quarter that they do not wish their grades posted.

- IV. The procedures established by the college providing access to student records:
- A. Upon receipt of a written request from the student, the Registrar shall within forty-five (45) days:
1. Allow the student to inspect and review the permanent file and transcript.
 2. Provide the student with copies of the material at a cost of \$.50 per page if the student so desires.
 3. Interpret the records to the student.
 4. Allow the student to challenge, in writing, the content of the files. Upon receipt of the challenge, the Registrar shall conduct a hearing at which time any materials found to be inappropriate or misleading will be corrected. Students shall also have the opportunity to insert into their file any written explanations they deem appropriate.
- B. College of The Albemarle considers the following "Directory Information" and will release such information unless each student notifies the Registrar in writing the first three class days of each quarter:
1. Name, address and phone number
 2. Date and place of birth
 3. Program of study
 4. Participation in officially recognized activities and sports
 5. Weight, height, grade point average, number of hours enrolled during present and past quarters and number of years of participation in sports prior to present season for members of intercollegiate athletic teams
 6. Dates of attendance
 7. Degrees and awards received
 8. The most recent previous educational agency or institution attended by the student
 9. Graduation honors

ACADEMIC REGULATIONS

THE CATALOG AND THE STUDENT'S PROGRAM

The catalog of College of The Albemarle, which is issued every two years, is intended to give a description of the operation of the college and of the regulations that pertain to academic matters.

Ordinarily students may expect to be allowed to secure a diploma or degree in accordance with the curriculum requirements outlined in the catalog in force when they first entered the college or in any subsequent catalog published while they are students. However, the faculty and administration reserve the right to make changes in curricula and in regulations at any time when in its judgment such changes are in the best interest of the students and of the college. If students choose to meet the requirements of a catalog other than the one in force at the time of original entrance, they must meet all requirements of the catalog they elect. Students who change their program of study must meet the requirements of the catalog in force at the time of the change.

Faculty and counselors will make every attempt to give effective guidance to all students; *however, the final responsibility for meeting all academic requirements rests with the student.*

GRADUATION REQUIREMENTS FOR THE ASSOCIATE DEGREE

I. General Statement

A. General Requirements

The college awards the degrees listed below to persons who have fulfilled the following requirements:

1. Completion of at least 96 hours of collegiate work with at least a C (2.0) average.
2. All of the requirements listed in the appropriate catalog (see above section) must be completed.
3. Of the last 45 hours of work completed for a degree, at least 36 must be completed at the college.
4. Any individual who has served in the Armed Forces of the United States of America for a minimum of eighteen (18) months of active duty, and who is eligible for the G.I. Bill of Rights, is exempted from the physical

education requirements. Elective hours are required in substitution of the waived physical education hours.

5. Vocational and technical courses (i.e., those with a four digit course number or a T prefix) are not applicable toward the Associate in Arts, the Associate in Science, or the Associate in Fine Arts degrees.

B. Other Requirements

1. Degrees will not be awarded to students with financial obligations to College of The Albemarle.

II. Associate Degree Requirements

<i>A. Associate in Arts Degree</i>	<i>Quarter Hours</i>
English Composition (ENG 101, 102, 103)	9
[Note: A student may utilize the completion of both ENG 111 and ENG 112 to satisfy the requirement for ENG 101.]	
Mathematics (MAT 111 or higher)	9
Natural Science	12
Humanities	18
Social Science (HIS 101, 102, 103 required)	15
Physical Education Activity Courses	6
Electives to complete at least 96 credit hours	
 <i>B. Associate in Science Degree</i>	
English Composition (ENG 101, 102, 103)	9
[Note: A student may utilize the completion of both ENG 111 and ENG 112 to satisfy the requirement for ENG 101.]	
Mathematics (College Algebra and higher)	18
Natural Science	24
Humanities	9
Social Science (HIS 101, 102, 103 required)	9
Physical Education Activity Courses	6
Electives to complete at least 96 credit hours	
 <i>C. Associate in Fine Arts Degree*</i>	
English Composition (ENG 101, 102, 103)	9
[Note: A student may utilize the completion of both ENG 111 and ENG 112 to satisfy the requirement for ENG 101.]	
Mathematics (MAT 111 or higher) and/or	
Natural Science	
Humanities	12

Social Science (HIS 101, 102, 103 required)	9
Physical Education Activity Courses	3
Professional Courses*	36-54
Elective to complete at least 96 credit hours	

* The Associate in Fine Arts degree is awarded only to students who complete at least 36 quarter hours of professional courses in one of the following areas: drama, art, or music. Refer to the Programs of Study section of this catalog for further details.

- D. *Associate in Applied Science Degree*
Curriculum requirements are outlined in the *Programs of Study* section of this catalog.

III. Definitions

- A. *Humanities*
Music, art, drama, speech, literature and foreign language.
- B. *Natural Sciences*
Biology, chemistry, physics, and physical science.
- C. *Social Sciences*
Economics, geography, history, political science, psychology, sociology, and education

VOCATIONAL DIPLOMA REQUIREMENTS

A diploma is awarded the student who successfully completes the prescribed vocational program of study. See the section in this catalog entitled *Programs of Study* for specific diploma requirements.

CREDIT BY EXAMINATION

I. College Level Examination Program (CLEP)—Subject Examinations

These examinations represent end-of-course examinations developed by the Educational Testing Service for certain widely taught undergraduate courses generally taken during the first two years of college. The tests measure understanding of basic facts and concepts as well as the ability to apply such understanding to the solution of problems and the interpretation of materials.

To receive college credit by taking the CLEP—*Subject Examinations*:

- a. The examinee must achieve a score at or above the score recommended by the Council on College Level Examinations.
- b. Credit will be granted only for those Subject Examinations that parallel courses which appear in the college catalog in force at the time a student applies for credit.
- c. The credit hours granted for a Subject Examination will not exceed the same amount of credit that the college grants upon the completion of the equivalent course or sequence of courses (e.g., if examinees successfully pass the *American History* Subject Examination they would receive nine (9) quarter hours of credit, since this examination covers the equivalent of three quarters of course work).
- d. The total amount of credit that will be granted for *Subject Examinations* will not exceed 45 quarter hours.
- e. No credit will be granted under this policy until the examinee has enrolled as a regular student at College of The Albemarle and passes twelve (12) credit hours with a 2.0 ("C") or better quality point average.

Students seeking additional information regarding the CLEP Subject Examinations should contact the Office of Student Services.

II. College of The Albemarle Proficiency Examinations

These examinations function as a method for obtaining credit by examination in subjects not covered by CLEP Subject Examinations. Any student may present a request to receive credit for a course by an examination to an instructor who has knowledge of the student's ability or who feels that the student's background should enable the student to pass the examination.

An examination agreeable to at least a majority of the members of the involved department should be prepared following the request of the student, and should be administered before the last day for adding courses. The exam must be graded by two department members.

The student will not receive a letter grade or quality points.

However, "credit by examination" will be entered on the student's transcript. The hours will be counted toward graduation, but will not be counted in computing a quality point average.

The student can request to receive credit for a given course by way of a proficiency examination only one time. Subsequent attempts to receive credit must be via regular enrollment in the course.

Students should contact the Office of Student Services for additional information.

GRADING SYSTEM

Each student receives a grade in each course at the end of the quarter. Instructors, using a numerical code, generally post grades outside their offices shortly after final grades are determined, and grade slips are mailed to students within a few days after the termination of each quarter.

The system of grades is as follows:

<i>Grade</i>	<i>Interpretation</i>	<i>Quality Points Per Quarter Hour</i>
A	Superior	4
B	Good	3
C	Average	2
D	Poor, but passing	1
F	Failure	0
I	Incomplete—a deficiency in the quantity of work accomplished. Given only when circumstances do not justify giving a specific grade. Must be removed by the end of the quarter following the one in which the incomplete (I) was received, regardless of whether or not the student is officially enrolled (includes the Summer Quarter). If not removed within this time, the Incomplete (I) becomes a Failure (F).	
AUDIT	Will be interpreted as a statement of intent to officially audit the course at the time of registration.	

- W Voluntary withdrawal by the student for unavoidable reasons as determined by the Office of Student Services or administrative disenrollment by the instructor. Student Services Counselors may assign grades of "W" until the end of the fifth week following the first day of classes for any quarter. Thereafter, instructors assign *all grades*.

A few courses offered by the college are graded on a satisfactory (S), unsatisfactory (U) basis. These courses are so indicated in their course descriptions.

ACADEMIC HONORS

I. Dean's List

In order to qualify for the Dean's List, a student must pass a minimum of 12 quarter hours of course work and attain at least a 3.25 quality point average, with no grade being below a C.

II. Commencement Marshals

The rising sophomores who have maintained the highest quality point average during their freshman year are honored by being named Commencement Marshals. The marshal who has the best academic record is designated Chief Marshal.

III. The President's Service Cup

The President's Service Cup is awarded by the President of College of The Albemarle at the spring Awards Day Convocation to the graduate who has contributed the most in services to the college during two years attendance at College of The Albemarle. Selection of this student is made by a vote of faculty and administrative staff.

IV. Honor Seals

The college, in an effort to recognize those candidates for graduation who have excelled academically, awards Honor Seals on degrees in accordance with the cumulative quality point average noted below. The appropriate citation is also read upon awarding the degree at the graduation exercise.

<i>summa cum laude</i> (with highest honors)	4.80-4.00
<i>magna cum laude</i> (with high honors)	3.60-3.79
<i>cum laude</i> (with honors)	3.40-3.59

POLICY FOR ENCOURAGING ACADEMIC PROGRESS

This policy for encouraging academic progress has three goals: (1) prevention of failure, (2) remediation, and (3) as a last resort, exclusion from a program or the college. It applies to all full-time curriculum students.

To impress students with the necessity of maintaining a good academic record, the college defines three categories of students.

(1) *Academic Alert*

This is a non-punitive category with the purpose of alerting the student, the counselor, and the teacher to potential academic problems. Academic alert means that students will be notified of their status and will be required to report to the office of Student Services. A counselor will attempt to identify the causes of poor academic performance, suggest ways to improve, and may suggest alternative programs for which the student is better qualified.

A student will be placed on Academic Alert for any one of the following reasons:

- A. having less than an overall 2.00 G.P.A. for any one quarter.
- B. having a low academic record in high school or at another college.
- C. making a low C.G.P. score.

(2) *Conditional Status*

Students will be placed on Conditional Status if they fail to meet the requirements of the scale for determining satisfactory academic progress.

Scale for Determining Satisfactory Academic Progress

Credit Hours Attempted	Minimum G.P.A.
0-16	1.00
17-32	1.25
33-48	1.50
49-64	1.75
65-80	1.90
81 and above	2.00

A student on Conditional Status may enroll for a maximum of 12 credit hours. In addition, the student must fulfill these conditions: a combination of enrollment and participation in Group Counseling (PSY 98), regular attendance in appropriate Skills

Labs for specific subjects and/or study in the Individualized Instruction Center, totaling at least 3 hours per week.

Notice: All persons receiving educational assistance under the G.I. Bill, VA regulations allow only one term on Conditional Status. Failure to meet minimum standards will result in cancellation of enrollment certification at the end of the first term on Conditional Status.

Notice: The status of a student transferring to COA will be determined by computing the G.P.A. on all hours attempted at other colleges. Following the first quarter at COA, the status will be determined by considering only hours attempted at COA.

Notice: Students transferring from COA should be aware that the receiving institution may include all college work ever attempted in computing G.P.A.

(3) *Academic Suspension*

Students who are unable to meet the requirements of the Academic Progress Scale after two consecutive quarters of Conditional Status will be academically suspended (or directed to a more appropriate program offered by the college). Any student who fails to fulfill the conditions set forth under Conditional Status will be immediately suspended.

Conditional Status II students who earn a 2.5 G.P.A. at the conclusion of any quarter may be continued by the Dean of Student Services as a Conditional Status II student for the following quarter without being suspended or having to appeal their suspension to the Academic Appeals Committee. Students who fail to earn a 2.5 G.P.A. in any quarter thereafter, unless they bring their average up to the minimum G.P.A. on the Scale for Determining Satisfactory Progress, will be suspended but still maintain the right to appeal.

Suspended students who enroll in summer school and pull their overall G.P.A. up to the minimum standards will not have to appeal their suspension to the Academic Appeals Committee.

Students receiving institutional financial assistance (BEOG, SEOG, NDSL, CWSP, NCSIG, and nursing loans and scholarships) and who have been academically suspended will *not* be eligible to receive aid until such time as their overall G.P.A. is within the Scale for Determining Satisfactory

Academic Progress. Conditional Status II aid recipients who earn a 2.5 G.P.A. at the conclusion of any quarter will be eligible for financial assistance for the succeeding quarter.

Right of Appeal

If students wish to appeal their suspension, they must submit a written appeal to the Chairperson of the Academic Appeals Committee. (The Academic Appeals Committee consists of the Faculty Executive Committee, the Dean of Instruction, and the Dean of Student Services, all being voting members. The Chairperson of the Faculty Executive Committee will chair this committee.) Students who are reinstated (either by successful appeal or after one quarter of suspension) must meet the requirements of the Academic Progress Scale within one quarter.

Notice: The Academic Progress Scale does not apply to summer school. Summer school performance will be counted only in the cumulative totals for the quarter(s) following.

COURSE LOAD

Sixteen credit hours of college work is considered the normal student load. Permission must be obtained from the Dean of Student Services for scheduling more than eighteen hours of work.

A student enrolled in at least twelve hours of work is considered to be a full-time student. For students to gain sophomore status at the college they must earn a minimum of 42 credit hours.

REPETITION OF COURSE WORK

A student can repeat a course in order to receive a higher grade. However, all attempts at the course will be recorded on the student's transcript and will be used in calculating a cumulative grade point average.

CLASS ATTENDANCE POLICY

College of The Albemarle regards regular class attendance to be an essential feature of the educational program. Class lectures, demonstrations, discussions, and other experiences are vital ingredients of the educational process which can hardly be compensated for in out-of-class make-up work. Students who miss more than 10 percent of the classes in a course may be disenrolled from that course if such absences are unexcused. Excused absences include

school-related activities which have been approved by the instructor, illness on the part of a student, or serious family problems requiring the student's attention. To qualify for excused status, however, *verification* such as a physician's statement may be required. Students who become ill, or are otherwise prevented from attending classes, should inform their instructors at the earliest opportunity. Failure to do so may result in disenrollment from the course.

DROPPING AND ADDING COURSES

At the beginning of each quarter there is a scheduled period in which students may drop and add courses. The time limit for these changes is published in the academic calendar which appears in the front of the college catalog. Those students wishing to change their schedule should consult faculty and their assigned Student Services Counselor, or in the counselor's absence the Dean of Students Services. However, it should be noted that students are advised to exercise good judgment and concern when registering with their counselor in order that a class schedule can be devised in which no changes will be needed for the duration of the entire quarter.

If the counselor agrees that a change is in order, the drop/add form, called a Registration Change Notice, is completed and signed by the counselor, the instructor of the course involved, and the student. In addition, all financial aid students must have Registration Change Notices approved by the Director of Student Financial Aid. Finally, all such changes must be approved by the Registrar and validated by the Cashier.

CURRICULUM CHANGES

There are times when a student's aptitudes and interests may be better served by a change of curriculum. Should a change in curriculum become advisable, students should consult with their Student Services counselor to explore the possibilities of alternative curricula which might better serve their aptitudes and interests.

Because of the unique nature of each program, students requesting transfer credit will have their academic record evaluated in terms of their goals. Credit and quality points in transfer will be granted only for those courses that are applicable in the new curriculum, and the student will be held accountable for those courses which are "common" in both their old and new curricula.

WITHDRAWAL FROM COLLEGE

Students who withdraw from the college must confer with their counselor and complete the appropriate withdrawal form. If the students are financial aid recipients, they must also confer with the Director of Student Financial Aid. In order to ensure that all obligations to and withdrawals from the library are accounted for the Librarian must also sign the form. The Cashier must validate the withdrawal form.

If the students are unable to confer with their counselor, the students should promptly advise the Dean of Student Services in writing of their decision to withdraw and state the reasons for discontinuing attendance. Students leaving the college without following the official procedure will be automatically assigned grades of "F" in all courses and they will forfeit any refund of tuition to which they might otherwise be entitled.

PROGRAMS OF STUDY

COLLEGE TRANSFER PROGRAMS

College transfer programs are designed to provide academic course work which is transferable to senior institutions. If properly selected, all course work should transfer without loss of credit and the student should be granted junior status at the senior institution after graduation from College of The Albemarle.

Students can earn either the Associate in Arts, the Associate in Science, or the Associate in Fine Arts degree. The section in this catalog titled *Academic Regulations* gives requirements for each of these degrees.

College of The Albemarle provides professional counseling and faculty consultation to help students plan their programs for transfer to the college or university of their choice. Students should realize, however, that the requirements at senior institutions are so varied that it is impossible to design a program of study which will articulate perfectly with the programs of all senior institutions. Students should consult the catalog of the institution to which they plan to transfer. *Final responsibility for selecting the proper courses rests with the student.*

SAMPLE TWO-YEAR COLLEGE TRANSFER PROGRAMS

Note: *These are sample programs of study.* Students' schedules are flexible and are governed by such factors as educational background, academic aptitude, interests, proposed field of study, choice of four-year institution to which they plan to transfer, and degree requirements at College of The Albemarle.

Pre-Liberal Arts (C-011)A.A. Degree

This *suggested* program is designed to allow students to take courses comparable to those offered in the first two years of a liberal arts curriculum at a senior institution. In addition, this program should be followed by college transfer students who have not definitely decided upon an area of specialization.

	Quarter Hours
English Composition (ENG 101, 102, 103)	9
Social Science (HIS 101, 102, 103 required)	15
Natural Science	12
Mathematics (MAT 121, 122, and 123 or 211)	9

Foreign Language (through Intermediate)	12-24
Literature	9
Physical Education Activity Courses	6
Electives to complete at least 96 quarter hours	

Pre-Agriculture (C-001) A.S. Degree

This *suggested* curriculum is designed for the student who intends to major in one of the agricultural sciences at a senior institution.

	<i>Quarter Hours</i>
English Composition	9
Mathematics (College Algebra and higher)	18
Natural Science	24
History 101, 102, 103	9
Literature	9
Economics	9
Psychology	6
Social Science electives	6
Physical Education Activity Courses	6

Pre-Art (C-003) A.F.A. Degree

Students who plan to transfer to a senior college or university and major in art should follow the *suggested* program listed below. All the professional courses listed below are *required* at College of The Albemarle for the AFA in Art.

	<i>Quarter Hours</i>
English Composition	9
Mathematics/Science	6-9
History (HIS 101, 102, 103)	9
Physical Education Activity Courses	3
Humanities	12
Music History and Literature	9
English Literature or American Literature	3
Professional Courses	36
Art History	9
Drafting	4
History of Architecture	2
Color and Design	3
Drawing	3
Figure Drawing	3
Painting Survey	3
Ceramics Survey	3

Sculpture Survey	3
Crafts Design	3
Electives	
Principles of Geography (suggested)	6
General Psychology (suggested)	6
Literature (suggested)	6
Electives to complete at least 96 quarter hours	

Pre-Business Administration (C-004)A.A. Degree

This *suggested* business administration program is designed for the student who wishes to transfer to a senior institution for a major in business administration.

	Quarter Hours
English Composition	9
History (HIS 101, 102, 103)	9
Natural Science	12
Mathematics	9
Accounting (BUS 203, 204, 205)	12
Economics (ECO 201, 202, 203)	9
Humanities	18-24
Literature and/or	
Foreign Language through Intermediate	
Physical Education Activity Courses	6
Electives to complete at least 96 quarter hours	

Pre-Drama (C-006) A.F.A. Degree

This *suggested* program of study is intended for students who plan to major in drama or a related field at a senior institution. All of the professional courses listed below are *required* at College of The Albemarle for the AFA in Drama.

	Quarter Hours
English Composition	9
Mathematics/Science	6-9
History (HIS 101, 102, 103)	9
Physical Education Activity Courses	3
Humanities	12
Any combination of Music History and	
Literature, History and Appreciation of Art,	
Drawing (recommended for Technical	
Theatre Majors), English or American	
Literature	
Professional Courses	36

Voice and Diction	3
Introduction to Phonetics	3
Technical Theatre	9
History of the Theatre	9
Public Speaking	3
Play Production	3
Acting I	3
Acting II	3

Electives (Technical Theatre Majors should elect Color and Design) to complete at least 96 quarter hours. Electives should be in the liberal arts area and/or cognate areas to the major.

Pre-Forestry (C-008) A.S. Degree

This *suggested* program is intended for students who plan to specialize in forestry.

	<i>Quarter Hours</i>
English Composition	9
Mathematics (College Algebra and higher)	18
Natural Science	24
History 101, 102, 103	9
Literature	9
Economics	9
Psychology	6
Physical Education Activity Courses	6
Electives to complete at least 96 quarter hours	

Pre-Law (C-010) A.A. Degree

Students who plan to transfer to a four-year college or university and take a program that prepares them for entrance into a law school should follow this *suggested* program.

	<i>Quarter Hours</i>
English Composition	9
Social Science (HIS 101, 102, 103, ECO 201, 202, 203)	21-24
Mathematics (MAT 121, 122, and 123 or 211)	9
Natural Science	12
Foreign Language (through Intermediate)	12-24
Literature	9
Physical Education Activity Courses	6
Electives to complete at least 96 quarter hours	

Pre-Mathematics (C-012)A.A. Degree

Students who plan to major in mathematics should follow this *suggested* program of study. Modifications may be necessitated due to variations in the requirements of senior institutions.

	<i>Quarter Hours</i>
English Composition	9
Social Science (HIS 101, 102, 103 required)	15
Natural Science	12
Mathematics (through MAT 204)	18-27
Humanities	9
French (through Intermediate)	12-24
Physical Education Activity Courses	6
Electives to complete at least 96 quarter hours	

Pre-Music (C-015) A.F.A. Degree

This *suggested* program is designed for students who plan to transfer to senior institutions to obtain a Bachelor of Music or Bachelor of Fine Arts degree. All the professional courses listed below are *required* at College of The Albemarle for the AFA in Music.

	<i>Quarter Hours</i>
English Composition	9
Mathematics/Science	6-9
History (HIS 101, 102, 103)	9
Physical Education Activity Courses	3
Humanities	12
Voice students should complete two years of French (through FRE 153)	
Music students should take Music History and Literature (MUS 220, 221, 222)	
Professional Courses	48-54
Music Theory	18
Sightsinging and Dictation	12
Chorus	6
Voice, Piano, or Organ	12-18
Electives to complete at least 96 quarter hours	
Voice majors should take Acting II (DRA 131)	

Pre-Science (C-018) A.S. Degree

This *suggested* curriculum is designed for students who are planning to study medicine, dentistry, or one of the pure sciences (physics, chemistry, biology, etc.).

	Quarter Hours
English Composition	9
Mathematics (College Algebra and higher)	18
Natural Science	24
History 101, 102, 103	9
Humanities (Literature)	9
Foreign Language (through Intermediate)	12-24
Physical Education Activity Courses	6
Electives to complete at least 96 quarter hours	

Pre-Elementary Education (C-020)A.A. Degree

This *suggested* program is designed for the student who plans to teach in the elementary grades, and *should be planned on an individual basis to meet requirements of the senior institution to which the student plans to transfer.*

	Quarter Hours
English Composition	9
History 101, 102, 103, 201, 202, 203	18
Geography	6
Mathematics (MAT 111, 112, 113)	9
Natural Science	12
Speech (SPH 101)	3
Introduction to Education	3
General Psychology	6
Educational Psychology	6
Art (ART 103)	3
Music (MUS 100, 101)	4
Hygiene (HEA 121)	3
Government (POL 211, 212)	6
Literature (ENG 205 or 206 or 207)	3
Physical Education Activity Courses	6
Library Usage (LIB 100)	1

Pre-Business Education (C-026)A.A. Degree

This *suggested* program should be followed by students who plan to teach business education in the public schools.

	Quarter Hours
English Composition	9
History 101, 102, 103	9
Natural Science	12
Humanities	18
Mathematics	9

Economics	9
Accounting	12
Typewriting (through BUS 213)	6-9
Shorthand (BUS 111, 112, 113)	13
Physical Education Activity Courses	6

Pre-Secondary Education (C-028) A.A. Degree

Students who plan to teach in the public schools at the secondary level should follow this *suggested* program. Due to the varied nature of secondary education curricula, students in this program *should plan their courses on an individual basis, taking into consideration the area in which they plan to teach and the senior institution to which they intend to transfer.*

	Quarter Hours
English Composition	9
History (HIS 101, 102, 103)	9
Natural Science	12
Mathematics (MAT 121, 122 and 123 or 211)	9
Speech	3
Introduction to Education	3
General Psychology	3-6
Educational Psychology	3-6
Hygiene (HEA 121, 122 or 223)	3
Humanities (Literature and/or Foreign Language)	18
Physical Education Activity Courses	6
Electives to complete at least 96 quarter hours	

GENERAL EDUCATION (G-020)

Associate in General Education Degree

This *suggested* program is designed to serve those individuals who want to expand their knowledge of our culture, to enrich their personal lives, and to improve their understanding of the world today. It is designed as a two-year *terminal* program for those students who desire a basic exposure to the liberal arts, but who would like to tailor their program to personal interests rather than to specific professional requirements.

1. Required Courses	Quarter Hours
A. English and Literature	12
1. ENG 111 & 112 or ENG 101 & 102	6
2. Two courses in American or English Literature	6

B.	Fine Arts		6
	1. One three hour course from one of the following areas:	3	
	a. Art		
	b. Music		
	c. Drama		
	2. SPH 101 or 201	3	
C.	Social Science		12
	1. Any three 100 or 200 level courses from the following areas:	9	
	a. History		
	b. Geography		
	c. Political Science		
	2. One 100 or 200 level course from one of the following areas:	3	
	a. Psychology		
	b. Sociology		
D.	Mathematics and Science		6-9
	1. Mathematics	3-5	
	a. Any College Transfer mathematics course above MAT 102		
	b. Any Technical mathematics course above T-MAT 104		
	c. BUS 107—Business Mathematics		
	2. Science—Any 101 or above course from the following areas:	3-4	
	a. Biology		
	b. Chemistry		
	c. Physics		
	d. Physical Science		
	Total Required Courses		36-39
2.	Electives		57-60
	Any 100 or 200 level College Transfer or Technical courses may be taken as electives		
	TOTAL HOURS		96

TECHNICAL PROGRAMS

Technical programs are designed to prepare students for entry jobs in paraprofessional fields. With experience, many technicians move into professional and managerial positions. Students enrolled in the

technical programs, in addition to taking courses that are occupational in nature, take general education courses.

Even though the technical programs are college level, they are designed for entrance into employment and not for transfer to a senior institution. However, certain courses in the technical programs may be accepted by a four-year college or university for transfer credit.

The technical programs are two years in length and lead to the Associate in Applied Science degree. The following pages give program requirements. Deviations from the requirements must be approved by the appropriate department chairperson and the Dean of Instruction.

AGRICULTURAL SCIENCE (T-126)

Associate Degree in Applied Science

In addition to 90 quarter hours of technical courses listed in the Veteran's Farm Training Program, the following courses are required for the Agricultural Science program:

		Quarter Hours
*English		6
ENG 111	Fundamentals of Communication I	3
ENG 112	Fundamentals of Communication II	3
Geography		3
GEO 101	Principles of Geography I	3
Health		3
HEA 223	First Aid and Safety Education	3
**Mathematics		8 or 10
BUS 107	Business Mathematics	5
T-MAT 104	Technical Mathematics	5
Total quarter hours required for A.A.S. in Agricultural Science and Mechanization		110

* ENG 101 and ENG 102 may be substituted for ENG 111 and ENG 112.

** MAT 121 may be substituted for T-MAT 104.

ACCOUNTING TECHNOLOGY (T-016)

Associate in Applied Science Degree

The Accounting program is designed to meet the needs of those students who intend to seek employment in the accounting profession. Accounting is the process of measuring and reporting various functions of business and governmental organizations. These measure-

ments are in terms of dollars and material, labor, time, and other valid units of measurement.

The duties and responsibilities of an accountant vary in different firms. Some of the things an accountant might do are: record transactions, make periodic and specific reports, maintain cost records, complete tax returns, audit books, and advise management in areas of financial affairs.

Graduates of the Accounting program may qualify for various positions in business and industry, such as accounting clerk, payroll clerk, accounting machine operator, auditor, and cost accountant. Training in this program and work experience should prepare graduates to become office managers or accounting supervisors, and to fill other responsible positions in a business or industry.

BUSINESS ADMINISTRATION TECHNOLOGY (T-018)

Associate in Applied Science Degree

The Business Administration program is designed to prepare the student for employment in one of the many occupations found in the business world. Training is aimed at preparing the student in every phase of administrative work that might be encountered in the average business.

The graduate of this program can enter a variety of careers, from beginning sales person or office clerk to manager trainee.

DRAFTING AND DESIGN (T-043)

Associate in Applied Science Degree

The Drafting and Design program is designed to prepare technical-level draftsmen. Emphasis is placed on the ability to think and plan, as well as upon procedures and techniques used by the draftsmen. Although most of the program deals with mechanical drafting, the student is introduced to architectural drafting techniques.

** Three hours of physical education activity courses, HEA 122, or HEA 223 may be substituted.

ELECTRONICS (T-045)**Associate in Applied Science Degree**

The Electronics program provides a basic background in electronics theory, with practical applications of electronics for business and industry. Courses are designed to develop competent electronics technicians who can work as an assistant to engineers, or in a liaison

capacity between the engineer and the skilled craftsman.

Electronics technicians start in one or more of the following areas: research, design, development, production, maintenance, or sales. Also they may begin as engineering aides, laboratory technicians, supervisors, or equipment specialists.

ASSOCIATE DEGREE NURSING (T-059)

Associate in Applied Science Degree

College of The Albemarle's program to prepare students for registered nursing is a seven quarter curriculum. Students are admitted each September. The primary purpose of the program is to prepare men and women for careers as registered nurses who are competent to give direct patient care in a number of settings.

Students secure a college-level education with the privileges and responsibilities as students in the total student body. They share in social and cultural aspects of college life, while developing their potential as individuals, citizens, and nurses.

Classes in general education courses are shared with students from other disciplines. Clinical experiences are carefully planned around current nursing theory. Nursing faculty select, guide, and evaluate learning experiences in hospitals and other agencies. Present affiliations include: Albemarle Hospital, Pasquotank County Health Department, Portsmouth Naval Hospital, Maryview Hospital, and Winslow Memorial Home.

Rather than complete the program in seven consecutive quarters, a student may choose to complete the requirements over a three year period, taking the general college courses the first year and nursing courses the next two years.

Although the Associate Degree Nursing program is designed to produce a registered nurse in two years, it is possible to transfer most of the courses to a senior institution for application toward a baccalaureate degree.

For specific admissions requirements, contact the Director of Admissions.

Total Hours Required for Graduation 111

The curriculum is constructed to allow the student to progress from the general to the specific and the simple to complex. The first three nursing courses (NUR 101, 102 and 103) must be satisfactorily completed in sequence. All 100 numbered nursing courses, as well as NUT 101, PHM 101, PSY 201, PSY 202, and PSY 231, must be successfully completed prior to enrollment in 200 numbered nursing courses.

A student must meet the college's graduation criteria as stated in the college catalog. ADN students must make at least a "C" in *each* nursing course to graduate. Any student making less than a "C" will be counseled to take a reduced academic load or transfer to another curriculum.

Upon successful completion of the program, the student is granted the Associate in Applied Science Degree. Upon recommendation of the nursing faculty the student is eligible to take the State Board of Nursing Exam to obtain the registered nurse (R.N.) certificate.

* Each sequence of courses is offered each quarter.

Second year students are divided into three groups which rotate through each sequence during their second year.

** Three physical education activity courses may be substituted for the HEA course. These should be spaced over two or more quarters.

EXECUTIVE SECRETARY (T-030)

Associate in Applied Science Degree

The Executive Secretary program is designed to provide students with training in typing, dictation, transcription, office procedures, and other skills needed to perform secretarial work for an executive.

The graduate may be employed as a stenographer or a secretary. Stenographers are primarily responsible for taking dictation and transcribing correspondence and reports. A secretary, in addition to taking dictation and transcribing, is given more responsibility in con-

nection with meeting office callers, screening telephone calls, and assisting an executive. Employment may be found in a variety of fields, such as insurance companies, banks, marketing institutions, and financial firms.

MEDICAL SECRETARY (T-032)

Associate in Applied Science Degree

The Medical Secretary program provides specialized training required by secretaries working in the medical and health care fields. The program is designed to provide students with the training in typing, dictation, transcription, office procedures, and terminology for employment in the medical profession.

The duties of a medical secretary may consist of taking dictation and transcribing letters, memoranda, and reports; meeting office callers and screening telephone calls; filing; and scheduling appointments. The graduate may enter a secretarial position in a variety of offices, such as physicians, private and public hospitals, and federal and state health programs.

VETERAN'S FARM TRAINING PROGRAM (T-017)

This is a special program which is offered for Albemarle area farmers who need to develop or upgrade the basic skills needed to manage an agricultural business involving commercial crops or livestock. Students must be 18 years of age or older.

Veterans who are engaged in farming on a full-time basis and who have their programs approved by the Veterans Administration are eligible for VA benefits.

The program of instruction is designed for 36 months, with classes being held two days per week in the late afternoon and evening. Students who complete the entire program will receive a technical specialty diploma.

VOCATIONAL PROGRAMS

The major objective of each of the vocational programs is to guide youth and adults in acquiring vocational competency in the knowledge and skills that will help them to become well-adjusted and self-supporting citizens.

Courses are designed to prepare students for initial employment, retraining for new skills, or for advancement in a vocation. Students are expected to acquire the skills and technical knowledge that become assets for employment in business and industry.

The vocational programs are generally one year in length and lead to a diploma. Program requirements are given on the following pages. Deviations from the requirements must be approved by the appropriate department chairperson and the Dean of Instruction.

Probation and Suspension

Students that do not pass at least one-third of their work on an hourly basis may be excluded from registration for the next quarter or placed on probation. In either circumstance, students will be expected to work with their counselor to try to find and correct the reason for their poor performance in their chosen program of study or find an alternate program of study in which they may succeed.

If students are incapable of safe conduct in the shops or willfully and flagrantly violate the safety rules of the shops and become a safety hazard to themselves or to their classmates, they may be suspended immediately from their program of study. All suspensions of this type must be approved by the department chairperson and the Dean of Instruction.

A student that has been suspended may be reinstated only by the Academic Appeals Committee. Requests for reinstatement must be in writing and forwarded to the chairperson of the Academic Appeals Committee.

Students attending vocational trade classes will receive a letter grade on each course upon completion of the minimum number of clock hours specified for each course (see the course descriptions) and/or satisfactory performance on the final examination.

Evening Classes

Since evening vocational classes meet for fewer hours per week than do equivalent day classes, a student will have to attend class for more than one quarter in order to complete the minimum clock hours and receive credit for the course.

Grade reports listing satisfactory or unsatisfactory progress and total clock hours completed will be sent to the student at the end of each quarter until the student has satisfactorily completed the course. Course segments will be noted on permanent records by a suffix a, b, or c on the course number.

Hours Per Week

The programs that are described on the following pages include a listing of hours of instruction per week. This is the minimum number

of hours that each student will spend in instructional activities each week.

Class—refers to the time spent in classroom instruction.

Lab —refers to the time spent in laboratory instruction or experimentation.

Shop or Clinical Practice—refers to shop practice or clinical practice in which students are involved in the supervised practice of learning experiences in institution laboratories or approved clinical facilities.

AIR CONDITIONING AND REFRIGERATION (V-024)

This program is designed to give students the basic skills and academic background necessary to enter and compete successfully in the Air Conditioning and Refrigeration trade. All aspects of installation, servicing, troubleshooting and repair for domestic and commercial air conditioning, heating and refrigeration will be covered in this program. Safety and good work habits are stressed in all vocational programs.

AUTOMOTIVE MECHANICS (V-003)

The Automotive Mechanics Program provides training in developing the basic knowledge and skills needed to inspect, diagnose, repair, and adjust automotive vehicles. Manual skills are developed in practical shop work. A thorough understanding of the operating principles involved in the modern automobile comes in class assignments, discussions, and shop practice.

Automobile mechanics maintain and repair mechanical, electrical, and body parts of passenger cars, trucks, and buses. They repair or replace defective parts to restore the vehicle or machine to proper operating condition and use shop manuals and other technical publications as references.

COSMETOLOGY (V-009)

The Cosmetology Program is designed to prepare the student for employment in the field of cosmetology. The program provides instruction and practice in manicuring, shampooing, permanent waving, facials, massages, scalp treatments, hair cutting, and hair styling.

Upon completion of this program, a person is qualified to begin a six-month apprenticeship and to take the examination administered by the North Carolina Board of Cosmetic Art. Both of these require successful completion before the license is issued by the Board. Students may elect to substitute a fifth quarter of the Cosmetology program for the six-month apprenticeship.

ELECTRONIC SERVICING (V-042)

Within recent years improved electronic techniques have provided expanded entertainment and educational facilities in the form of monochrome and color television, frequency modulated radio, high fidelity amplifiers and stereophonic sound equipment. These developments require expanded knowledge and skill of the individual who would qualify as a competent and up-to-date serviceperson.

This one-year curriculum program provides training in the basic knowledge and skills involved in the installation, maintenance and servicing of radio, television and sound amplifier systems. A large portion of time is spent in the laboratory verifying electronic principles and developing servicing techniques.

A radio and television serviceperson may be required to install, maintain and service amplitude modulated and frequency modulated home and auto radios, transistorized radios, monochrome and color television sets, intercommunication, public address and paging systems, high fidelity and stereophonic amplifiers, record players and tape recorders. A serviceperson who establishes his/her own business will also need to know how to maintain business records and inventory.

MACHINIST (V-032)

The Machinist Program is designed to give students the opportunity to acquire basic skills and the related technical information necessary to gain employment in a machine shop. The machinist is a skilled worker who shapes metal by using machine tools and hand tools.

The skilled workers must be able to set-up and operate the machine tools used in a modern shop. They make calculations relating to dimensions of work, tooling, and feeds and speeds machines. The composition of metals must be known so that they can anneal and harden tools and metal parts.

ADVANCED MACHINIST

Students who have successfully completed the Machinist Program may enter the Advanced Machinist Program. This second year option provides further machinist knowledge and skills, and generally enables the student to enter industry at a higher level of pay and responsibility. First year machinist students who have successfully completed three quarters of their program may enroll in some of the advanced machinist courses with the permission of the machinist instructor.

MACHINE OPERATOR

The purpose of this program is to allow students who will not reach a level of excellence as a machinist to succeed in a specialized program allied to the Machinist Program. This program is three quarters in length. The first quarter is the same as the Machinist Program, and during this time the instructor and the counselor will evaluate the student's progress and abilities and advise him concerning the program he should follow.

This program will offer an opportunity for occupational success and satisfaction to students who might not succeed in the other machinist programs. A Machine Operator's Certificate will be presented upon successful completion of the program.

MARINE POWER MECHANICS (V-034)

This program provides a student with the basic knowledge and skills to enter the Marine Mechanics trade. The program of study is designed to give the students the academic background needed to enter and progress in the trade. It consists of all phases of mechanics associated with small and medium size power vessels, pleasure and commercial. Class assignments, discussions and shop practice

provide the students with operating principles and methods of troubleshooting and repair. Safety and good work habits are constantly stressed in this program.

NURSES' ASSISTANT (V-072)

This program is designed to prepare qualified applicants to become nurses' assistants (aides). Nurses' assistants perform those duties associated with patient care and ward management which require limited educational preparation. It is only one quarter in length and consists of a single course (NUR 1100) which is designed for 330 hours of classroom instruction and clinical experience. All clinical assignments are planned and supervised by the teacher so that students will learn to apply classroom learnings to hospital practice.

For specific admissions requirements, contact the Director of Admissions.

OPERATING ROOM TECHNICIAN (V-071)

The purpose of this program is to prepare qualified persons for participation as trained members of the operating room team. Operating Room Technicians are responsible for cleanliness, safety, and efficiency in the operating room and for simple patient care which involves safely transporting patients to the operating room and preparing them for surgery. The tasks they perform under the supervision of registered nurses are: to assemble and open supplies for surgical procedures; to assist the circulating nurse and anesthesiologist; to operate tables, lights, suction machines, electro-surgical units and diagnostic equipment; to pour solutions; to keep the surgical team supplied; to care for specimens; to assist in application of dressings; to clean and maintain equipment; to scrub and set up the operating room table with proper instruments, sutures, drapes, etc.; to assist the surgeon by placing instruments, sutures, sponges; and to assist with cast applications.

This self-contained program is nine (9) months in length and is divided into three quarters, with only one class being admitted each December. Students who successfully complete this program will receive certificates. Persons interested in this program of study should contact the Director of Admissions for specific admissions requirements.

PRACTICAL NURSE (V-038)

The Practical Nurse Program is designed to make available to qualified persons the opportunity to prepare for participation in the care of patients of all ages, in various states of dependency, and with a variety of illness conditions. Throughout the program the student is expected to grow continuously in the acquisition of knowledge and understandings related to nursing, the biological sciences, the social sciences, and in skills related to nursing practices, communications, inter-personal relations, and the use of good judgment.

The licensed practical nurse (LPN) is prepared to function in a variety of situations: hospitals of all types, nursing homes, clinics, doctor's and dentist's offices, and in some public health facilities. In all situations, the LPN functions under supervision of a registered nurse and/or licensed physician. This supervision may be minimal in situations where the patient's condition is stable and not complex, or it may consist of continuous direction in situations requiring the knowledge and skills of the registered nurse or physician. In the latter situation, the LPN may function in an assisting role in order to avoid assuming responsibility beyond that for which the program can prepare the individual.

Upon completion of this program, and the successful completion of a comprehensive examination administered by the North Carolina Board of Nursing, a license is given to the graduate by the Board.

For Specific Admissions Requirements Contact The Director of Admissions.

This curriculum is constructed to allow the student to progress from simple to complex. Each student must successfully complete each course (make a grade of C or better) each quarter in order to enroll in the next quarter's courses.

* Each sequence of courses is offered only one quarter a year.

WELDING (V-050)

The Welding Program is designed to give students a sound understanding of the principles, methods, techniques, and skills essential for successful employment in the welding field and metals industry. Welders join metals by applying intense heat, and sometimes pressure, to form a permanent bond between intersecting sections.

Welding offers employment in practically any industry: ship-building, automotive, aircraft, guided missiles, heavy equipment, railroads, construction, pipe fitting, production shop, job shop, and many others.

COOPERATIVE EDUCATION

Cooperative Education, an optional program for technical students, is designed to allow students to apply classroom knowledge in a practical work situation. College of The Albemarle and cooperating employers work together to better prepare students for meaningful vocations. Students are placed on cooperative job assignments that relate to their programs of study at the college. The actual on-the-job working experience provides students the opportunity to determine their interest in, and suitability for, the occupations for which they are studying.

Many students are unfamiliar with the variety of occupations available in business and industry. By exposing students to various positions within the world of work, employers can help students select careers on a realistic basis. Although the educational experience is the prime objective of the program, most students find that the income earned on field placement covers an important portion of college expenses. Students are paid at least the statutory minimum wage while they are on cooperative job assignments.

The major objectives of the Cooperative Education Program are:

To develop academically prepared and work-oriented students.

To help students realize skills needed for the occupation they plan to enter.

To create a smooth transition for students from the classroom to the world of work.

To develop an interest in area businesses and industries in the Occupational Education Program.

For further information contact the Director of Cooperative Education at College of The Albemarle.

EVENING PROGRAM

College of The Albemarle offers an Evening Program of courses leading toward associate degrees. The courses have the same or equally well-trained instructors, have the same content, and carry the same college credit as courses taught during the regular day session. Credit for evening courses transfers to other institutions on the same basis as credit for other regular College of The Albemarle courses.

Courses are scheduled Monday through Thursday evenings. Courses that require three hours of lecture and/or laboratory per week meet once a week usually from 7:00 P.M. to 10:00 P.M. Courses that require more than three hours per week meet twice a week. Each hour of lecture or laboratory actually involves fifty (50) minutes of clock time.

The admission requirements and cost for all evening courses are the same as for courses offered during the day.

A schedule of time and place for these courses or any additional information may be received by contacting:

Director of Evening Programs
College of The Albemarle
Elizabeth City, North Carolina 27909

Continuing education (non-credit) classes are also offered during evening hours. For further information, refer to the section in this catalog titled Continuing Education Program.

CONTINUING EDUCATION

One of the major functions of a comprehensive community college is that of providing educational programs for adults in its service area. The Continuing Education Department at College of The Albemarle places a strong emphasis on the value of life-long education in our rapidly changing society, and it provides many types of

continuing education activities for citizens of the Albemarle area.

Courses are offered for those individuals whose education stopped short of high school graduation and for those who need to retrain and update themselves in a vocational or professional area. Instruction is also available for those who desire to grow in basic knowledge, to improve in home and community life, and to develop or improve leisure time activities.

Admission

Any adult eighteen (18) years of age or older and not enrolled in public school may be admitted to a continuing education class. In extenuating circumstances, and upon the approval of the appropriate public school superintendent, a public school drop-out between 16-18 years of age may enroll in certain courses.

Class Schedules

A course schedule is published and made available to the public prior to the beginning of each quarter. Classes are organized on the basis of need, interest, and the availability of suitable facilities and qualified instructors. Courses are also announced through the local news media.

Class Registration

Persons enroll in a particular course by attending and registering during the first regular class meeting. Anyone enrolling in a course after it has been organized must do so at the first class meeting attended.

Class Locations

Many continuing education courses and services are provided on the campus at Elizabeth City. Other classes are conducted in surrounding communities or within a particular business or industry in the Albemarle area. Almost any course can and will be organized when a sufficient number of citizens indicate an interest in having a class brought to a particular location.

Course Descriptions

Course descriptions for continuing education courses are not listed in this publication. Only examples of the types of courses that have been offered are listed. Specific course descriptions are furnished

upon request and in the Continuing Education Catalog. Courses in addition to those listed in this publication may be offered to meet expressed needs of the community when evidence of such needs is presented to the college.

Fees

A registration fee of five dollars (\$5.00) is charged for enrollment in each academic, technical, and vocational course. Volunteer firemen and law enforcement personnel are not charged a registration fee for enrolling in training courses. This exemption applies only to volunteer firemen taking fire training courses and law enforcement personnel taking law enforcement courses. Prison inmates are not charged for any continuing education courses. Students who enroll in Adult Basic Education courses or who receive instruction in the Individualized Instruction Center are also exempted from the registration fee. *There is no charge for persons 65 years of age or over.*

Recreational courses are subject to a tuition charge which will enable these courses to be self-supporting. This tuition charge varies depending on the course involved, but is generally substantially more than the standard five dollar fee.

Students are expected to provide the supplies, materials, tools, and books which they will need in continuing education courses. Instructional services and instructional materials are supplied by the college.

Accident insurance is available to all students. This insurance is required for students that participate in laboratory activities using equipment and machinery which might cause physical injury.

Certificates

College credit is not given for completion of continuing education courses; however, certificates are awarded for completion of some of the courses. Licenses, diplomas, or other forms of recognition are awarded by certain agencies outside the college upon successful completion of special designated courses.

Continuing Education Units

Since September 1, 1974, College of The Albemarle has maintained a cumulative record of all courses taken by continuing education students. Continuing Education Units (CEU's) are awarded on the basis of one CEU per ten contact (class) hours. For example, if a student was enrolled in a 36 hour course and attended at least 75 per cent of the time, 3.6 CEU's can be awarded upon completion of the course.

Students who need transcripts or additional information about CEU credit should contact the Continuing Education Department (335-0821).

Library Privileges

Students in all programs sponsored by the college have the privilege of using all services of the library without additional charge. Library cards will be issued at the desk of the library at the request of adult students.

Programs

The seven major areas of continuing education at College of The Albemarle are:

I. Adult Basic Education

The objective of this program is to provide elementary level instruction to those individuals who for any reason do not enjoy the benefits of at least an eighth grade education. Instruction covers the basic fundamentals of mathematics, science, social studies, reading, and oral and written communication.

There are no fees or charges of any kind. All materials have been especially prepared for adults with emphasis on individual needs and interests.

Level I—The basic fundamentals of reading, writing, and arithmetic are stressed. The course is designed to bring adults who have completed less than four grades of formal education to a functional level whereby individual study is possible.

Level II—This course is for adults who stopped school in grades 5-8 or who have completed Level I. It is a continuation of the first level with more individual study and a greater scope of subject matter, including science and social studies. With the completion of Level II, the adult should be equipped to enter one of the High School Completion programs.

II. Vocational Training and Upgrading

These courses are designed to provide training for a specific vocation or skill essential to the earning of a livelihood. They will teach people new skills and improve present skills in order to make them more efficient on their present job or to improve their chances for success on a new job.

The Continuing Education Catalog includes a complete listing of all courses and course descriptions.

III. Special Extension

The following programs are offered by College of The Albemarle to increase individual competence in specialized occupational areas:

A. Fire Service Training

Fire fighters are confronted with situations non-existent a few years ago and their responsibilities demand a continuous program of training and education. Fire Service Training is taken directly to the individual fire fighter. Training sessions are held in the local fire departments, allowing fire persons to be trained as an organized group utilizing equipment they would ordinarily use in controlling fires. For further information, contact the Continuing Education Department.

B. Hospitality Training Program

This program trains personnel in the area of food services, lodging, recreation, and travel information. The primary objectives include providing employers with well-trained personnel to operate their businesses, developing within individuals skills that will qualify them for better employment opportunities, and providing better hospitality services to the citizens of North Carolina and visitors to the state. Hospitality training is arranged and scheduled in accordance with the needs of industry. For further information, contact the Continuing Education Department.

C. Law Enforcement Training

These courses are especially designed as inservice and preservice education for those engaged in law enforcement activities and are provided at the request of these agencies. The program is designed to keep law enforcement officers abreast of legal and technological advancements and at the same time to aid them in becoming more professional. Workshops and courses are offered in many areas. For further information, contact the Continuing Education Department.

D. New or Expanding Industry Training

College of The Albemarle cooperates with new or expanding industries to train work forces. The actual training is carried on in the industry where trainees receive instructions, and depending upon the program objectives, may receive both classroom and on-the-job training. All training programs are established to meet the specific needs of a particular industry.

E. Emergency Medical Training

Organized classes are held for ambulance attendants in the college's service area. The North Carolina Office of Emergency Medical Services works with College of The Albemarle in developing classes for rescue squad units. For further information, contact the Continuing Education Department.

F. Management Development Training

In an effort to meet the needs of persons in business and industry, an elaborate program in Management Development Training is administered by College of The Albemarle. The program is designed to upgrade the competency of supervisory and mid-management personnel in area business and industry. It is also designed to train persons interested in becoming supervisors. Management Development Training is an investment in the future. It may pay rich dividends to those individuals and organizations that take advantage of it.

These programs are further designed to improve and enhance skills and competency on the job, as well as relationships with others. Programs can be tailored to meet existing needs and can be held on the campus or within an individual plant or organization. Qualified instructors are provided without charge to the employer.

Specialized courses related to safety are available regarding management responsibilities as provided by the Occupational Safety and Health Act, as well as courses designed to increase employee safety awareness.

For further information, contact the Continuing Education Department.

IV. Special Projects

Projects, programs, and events that are conducted by the college through special grants and funds are frequently administered by the Continuing Education Department.

V. General Interest Courses

These courses provide for personal or cultural enrichment, self-improvement, and the development or improvement of leisure time activities. This field includes a wide range of courses. For further information, contact the Continuing Education Department.

VI. Community Services

College of The Albemarle sponsors and promotes a number of community services which contribute to the cultural, economic, and civic improvement of the Albemarle area. Such services may arise from almost every program area. Groups or agencies are invited to contact the Continuing Education Department to arrange such activities.

LEARNING RESOURCES CENTER

The LRC is a multimedia center with resources which include books, periodicals, indexes, the individualized instruction center, and audiovisual materials and equipment. It is a center for life-long learning.

Whitehurst and Technical Center Libraries

The combined book collection in the two libraries is more than 32,000 volumes. Whitehurst Library makes available the basic general collection, while the Technical Center Library makes available the majority of the science and technology materials, with some general materials, and some general reference and subject reference materials in the science and technology subject areas. The bulk of basic general and subject reference materials, however, are at Whitehurst Library.

Individualized Instruction Center

The IIC provides the opportunities for completing high school, for preparing for college, for supplementing college courses, and for

studying in many areas of interest. The high school completion program, consisting of the Adult High School Diploma Program and the Adult High School Equivalency, provides two ways to complete requirements for a high school diploma or certificate:

(1) Adult High School Diploma Program

This is a cooperative arrangement between College of The Albemarle and the Board of Education in the Albemarle area, with the college serving as the service agency.

For admission to the High School Diploma Program, a person must be at least 18 years of age and have the written recommendation of the appropriate school superintendent. Individual public school dropouts between the ages of 16 and 18 may be admitted as students with "special needs."

Students who enter the Adult High School Diploma Program must have the consent of the cooperating school system and a list of the specific courses which they need to complete. Upon completion of the required courses in the Individualized Instruction Center, the student is awarded an Adult High School Diploma by the cooperating county Board of Education.

Additional information concerning the opportunity to earn an Adult High School Diploma may be obtained by contacting the Individualized Instruction Center or the local school superintendent in any one of the seven counties served by the college.

(2) Adult High School Equivalency

This program consists of organized classes which usually meet two nights per week, two and one-half hours per night, or the adult student may complete requirements in the Individualized Instruction Centers which are open from 8 a.m. to 10 p.m. daily except Friday, 8 a.m. to 4 p.m.

GED Level 9-10—For those adults who stopped school in grades 9-10 or who have completed Level II in Adult Basic Education.

GED Level 11-12—For those adults who stopped school in grades 11-12 or who have completed Level 9-10 of GED.

These programs offer courses which are directed toward helping an individual pass the General Educational Development (GED) Tests that are given in the Individualized Instruction Center at College of The Albemarle. Upon successful completion of these tests, the North Carolina State Board of Education will issue to the individual the High School Equivalency certificate.

The number of hours needed to complete the Adult High School Equivalency Program depends on the reading level and previous

formal and informal educational experiences of the student.

The Individualized Instruction Centers are approved by the Veterans Administration and benefits are now available to veterans who have not completed high school. Veterans may attend College of The Albemarle's Individualized Instruction Center and/or regularly scheduled adult high school classes and receive benefits while they earn their diploma. The benefits received while earning their high school diploma do not count against total eligibility benefits.

In addition, veterans' wives and children of disabled and deceased veterans who wish to complete their high school education are eligible to receive financial assistance.

Interested persons should call the Individualized Instruction Center (335-0821) for further information.

Audio-Visual Services

Both Whitehurst Library and the Technical Center Library house and make available audio-visual materials, including films, film-strip, slides, cassettes, phonograph recordings, videocassettes, micro-film materials, and kits. The audio-visual function is integrated with the LRC components and philosophy.

COURSE DESCRIPTIONS

COURSE NUMBERING

Courses at College of The Albemarle are numbered in accordance with the system used by the North Carolina Community College System.

1. All developmental courses are indicated by a three-letter prefix and a two digit number. These courses are not transferable.
Example: PSY 98.
2. All freshman college transfer courses are indicated by a three-letter prefix and are numbered 100-199 (some of these courses, indicated by an asterisk, are for preparatory credit and are *not* transferable).
Example: MAT 121.
3. All sophomore college transfer courses are indicated by a three-letter prefix and are numbered 200-299
Example: MAT 201.
4. All freshman technical courses are indicated by a "T" and a three-letter prefix and are numbered 100-199.
Example: T-MAT 105.
5. All sophomore technical courses are indicated by a "T" and a three-letter prefix and are numbered 200-299.
Example: T-DFT 214.
6. All vocational courses are indicated by a three-letter prefix and a four digit number.
Example: AUT 1130.

On the same line following the prefix and number, appears the course title, the quarter(s) the course is normally offered, the number of quarter credit hours, with the number of lecture and lab hours per week being shown in parentheses (F-Fall Quarter; W-Winter Quarter; S-Spring Quarter; SS-Summer Session; Var.-Variable). Vocational courses give the equivalent of quarter hours credit and in parentheses the number of class hours, lab hours, and shop practice or clinical hours per week.

The class and laboratory hours shown in the catalog are minimal. It is a policy of this institution to permit students to enroll in additional class and laboratory work beyond those shown in the catalog in order to broaden their educational experience.

AGRICULTURE

- T-AGR 101 Farm Records and Taxes (Var.) 4(3-2)**
An introductory course in accounting principles as related to farming. Includes basic terminology and techniques used in recording transactions. Actual farm situations are used to show practical application. A study of taxes as related to farm income, forms, deductions, depreciation, and tax schedules applicable to farmers.
- T-AGR 102 Farm Tractors I (Var.) 3(2-3)**
A study of farm tractors including gasoline and diesel engines. Emphasis will be placed on internal combustion engines and electrical systems.
- T-AGR 103 Agricultural Economics (Var.) 5(5-0)**
An introduction to economics and the functions of the economic system and agriculture's role in the economy. Includes a review of managerial functions and decision making in a changing economy.
- T-AGR 104 Soil Science and Fertilizers (Var.) 4(3-2)**
A course dealing with basic principles of efficient classification, evaluation, and management of soils; care, cultivation, and fertilization of the soil and conservation of soil fertility.
- T-AGR 105 Agricultural Marketing (Var.) 5(5-0)**
An analysis of the functions of marketing in the economy and a survey of the problems marketing faces. A review of the market structure and the relationship of local, terminal, wholesale, retail and foreign markets. Problems in the operations of marketing firms including buying and selling, processing, standardization and grading, risk taking and storage, financing, efficiency, and cooperation. Discussion of procedures of marketing such commodities as grain and livestock.
- T-AGR 106 Agricultural Chemicals and Weed Identification (Var.) 4(3-2)**
A study of farm chemical pesticides, their ingredients, formulation, and application. Safe usage is emphasized. Weed identification and control is given special emphasis.
- T-AGR 107 Farm and Home Construction (Var.) 3(2-3)**
This course deals with the fundamentals of farm carpentry, fences, concrete and masonry. The study also includes farm water needs and waste disposal. Attention is given to planning farm water and plumbing systems and their proper care and maintenance.
- T-AGR 108 Farm Management (Var.) 5(5-0)**
A review of the functions of the manager of a business firm and the problems of farm operators. Development of the concepts of costs and budgets as an aid in choosing what to produce. An analysis of the factors of production to find the least cost production procedure.
- T-AGR 109 Farm Tractors II (Var.) 3(2-3)**
A continued study of gasoline and diesel farm tractors. Emphasis will be on power trains, brake systems, and hydraulic systems.

- T-AGR 110 Conservation of Natural Resources (Var.) 5(5-0)**
An introduction to soil conservation, covering what is included in soil and water conservation, the public interest in soil and water conservation, who is involved in soil and water conservation, the available resources to carry out soil and water conservation measures, and the relationship of specialized knowledge in agronomy, biology, economics, engineering, soils, forestry, and recreation.
- T-AGR 111 Horticulture (Var.) 4(3-2)**
A study of the principles of selection and care of ornamental plants and garden crops. Field trips and demonstrations will be used in the development of proper horticultural skills and practices.
- T-AGR 112 Livestock Production (Var.) 4(3-2)**
A study of livestock production, including selection, breeding, feeding, care and management, and diseases.
- T-AGR 201 Pasture and Forage Crops (Var.) 4(3-2)**
A study of the major grasses and legumes of economic importance in North Carolina. Attention will be given to management, soil types, fertilization, harvesting, and nutrient value.
- T-AGR 202 Insect Identification and Control (Var.) 4(3-2)**
A study of the major insect pests in eastern North Carolina. Although the major emphasis will be on insects of agricultural importance, those affecting ornamental plants will also be studied. Chemical and biological control will be included.
- T-AGR 203 Livestock Housing and Equipment (Var.) 4(3-2)**
A study of the housing and equipment utilized in efficient livestock production and marketing. Farm livestock structures. Automatic feeding and watering systems. Specialized equipment for care of livestock and maintenance of quality of livestock products.
- T-AGR 204 Advanced Farm Management (Var.) 5(5-0)**
A continuation of T-AGR 105. Data will be analyzed to select the level of production that yields the highest net return. The relationship between farm size, efficiency, and farm income will be emphasized.
- T-AGR 205 Farm Machinery Repair (Var.) 3(2-3)**
A study of the maintenance and repair of basic farm machinery and equipment. Emphasis is placed upon preventive maintenance through appropriate use and care.
- T-AGR 206 Farm Electrification (Var.) 3(2-3)**
A study of basic principles of wiring farm buildings and the application of electricity to agricultural production. Includes a study of wire sizes, switches, protective and safety devices, and maintenance of electrical motors and appliances.
- T-AGR 207 Feed Grain Crops (Var.) 4(3-2)**
This course stresses the value of scientific methods in the production of corn, oats, wheat, barley, and sorghum. Varieties, soils, fertilization, cultivation, harvesting, and utilization are included.

- T-AGR 208 Farm Forest Management (Var.) 4(3-2)**
A course dealing with the fundamentals of forestry and farm forestry problems, including planting, thinning, harvesting and marketing.
- T-AGR 209 Agricultural Programs and Agencies (Var.) 5(5-0)**
A review of the public agricultural programs and agencies that provide services, including financial aid for agricultural producers. The objectives, organization, functions, and services of these organizations.
- T-AGR 210 Surveying (Var.) 3(2-3)**
A course in the uses of transits and tapes in laying-out farm buildings; grading trenches for proper drain tile; installation of open ditches for flow of water; the use of transits to lay-out terraces.
- T-AGR 211 Agricultural Finance and Law (Var.) 5(5-0)**
Analysis of the capital structure of modern commercial agriculture with emphasis on the sources of credit. A review of lending institutions, repayment, schedules, and credit instruments. Also includes certain fundamentals of law, including contracts, agency and negotiable instruments, partnerships, corporations, suretyships, and real property.
- T-AGR 212 Techniques of Welding (Var.) 3(2-3)**
Principles of oxyacetylene and electrical welding, cutting and brazing. Principles, procedures, safety precautions and experience in using oxyacetylene and arc equipment. Projects are assigned to develop skill in the use of equipment. Includes the study of metals, rods, gases, and special electric welding machinery.

AIR CONDITIONING & REFRIGERATION

- AHR 1120 Principles of Refrigeration & Air Conditioning (Var.) 10(5-0-15)**
An introduction to the principles of refrigeration, terminology, the use and care of tools and equipment, and the identification and the function of the component parts of a system. Other topics to be included will be the basic laws of refrigeration; characteristics and comparison of the various refrigerants; the use and construction of valves, fittings, and basic controls. Practical work includes tube bending, flaring, and soldering. Standard procedures and safety measures are stressed in the use of special refrigeration service equipment and the handling of refrigerants.
- AHR 1122 Domestic and Commercial Refrigeration (Var.) 7(3-0-13)**
Domestic refrigeration servicing of conventional, hermetic, and absorption systems. Cabinet care, controls, and system maintenance in domestic refrigerators, freezers, and window air conditioning units is stressed. Commercial refrigeration servicing of display cabinets, walk-in cooler and freezer units, and mobile refrigeration systems is studied. The use of manufacturers' catalogs in sizing and matching system components and a study of controls, refrigerants, servicing methods is made. The American Standard Safety Code for Refrigeration is studied and its principles practiced.

AHR 1124 Air Conditioning and Refrigeration (Var.) 5(3-0-6)
Servicing

Emphasis is placed on the installation, maintenance, and servicing of equipment used in the cleaning, changing, humidification and temperature control of air in an air conditioned space. Installation of various ducts and lines needed to connect various components is made. Shop work involves burner operation, controls, testing and adjusting of air conditioning and refrigeration equipment, and location and correction of equipment failure.

AHR 1125 Principles of Air Conditioning (Var.) 7(3-0-13)
& Heating

Work includes the selection of various heating, cooling and ventilating systems, investigation and control of factors affecting air cleaning, movement, temperature, and humidity. Use is made of psychrometric charts in determining needs to produce optimum temperature and humidity control. Commercial air conditioning equipment is assembled and tested. Practical sizing and balancing of ductwork is performed as needed.

AHR 1128 Automatic Controls I (Var.) 3(3-0-6)

Types of automatic controls and their function in air conditioning, heating and refrigeration systems. Included in the course will be electric and pneumatic controls for domestic and commercial cooling and heating; zone controls, unit heater and ventilator controls, commercial fan systems controls, commercial refrigeration controls, and radiant panel controls.

AHR 1129 Automatic Controls II (Var.) 5(3-0-7)

A continuation of AHR 1128.

ART

ART 99 Art Skills Lab (F,W,S) 0(Var.)

This lab is designed to aid students who need additional practice and instruction in developing art skills.

ART 100, 101, History and Appreciation of Art (F,W,S) 3(3-0)
102

History of art from primitive times to the present, covering painting, sculpture, and architecture. The course requires some parallel reading and is taught with reference to the life of the people during the time the art-work was created. Slides are used to supplement the textbook.

ART 103 Color and Design (F,S) 3(2-4)

A course dealing with color theory, and design principles, with emphasis on design fundamentals.

ART 104 Drawing (F,W) 3(2-4)

A course which introduces the student to drawing in various media.

ART 105 Figure Drawing (W) 3(2-4)

This course will explore various media leading to an understanding of figure drawing. There will be three studios a week, and discussions and critiques of work.

ART 106 Painting Survey (W,S) 3(2-4)

There will be three studios a week, with discussion and critiques

of work. This course will explore basic concepts of painting and will acquaint the student with the field of painting as a fine art.

- ART 107 Ceramics Survey (F,S) 3(2-4)**
A course which introduces the student to the total ceramic process. Emphasis is placed on use of the potter's wheel.
- ART 108 Sculpture Survey (W,S) 3(2-4)**
This course will expose the student to sculpture, its processes and techniques, and survey the methods and materials as well as styles of sculpture.
- ART 110 Crafts Design (F,W,S) 3(2-4)**
This course will explore crafts design principles and the use of craft materials and tools.

AUTOMOTIVE MECHANICS

- AUT 1100 Internal Combustion Engines (F) 9(3-8-8)**
Development of a thorough knowledge and ability in using, maintaining, and storing the various hand tools and measuring devices needed in automotive repair work. Study of the construction and operation of components of automotive engines. Testing of engine performance; servicing and maintenance of pistons, valves, cams and camshafts, fuel and exhaust systems and cooling systems; proper lubrication; and methods of testing, diagnosing and repairing.
Minimum clock hours—195.
- AUT 1110 Auto Electrical Systems (W) 6(3-4-4)**
A study of the complete electrical system of an automobile. This includes batteries, starters, generators, alternators, regulators, ignition, wiring, and schematic drawings. Proper testing methods and use of test equipment is stressed.
Minimum clock hours—110.
- AUT 1111 Auto Electrical and Electronic Systems (Var.) 17(5-25-0)**
This course is to train the student to understand the basic functions of the electrical and electronic components and systems that are found in the modern automobile. Emphasis will be placed on the proper troubleshooting and repair techniques associated with these systems. The course is basically designed to be offered in a self-contained program for prison inmates.
- AUT 1115 Auto Fuel and Emission Systems (W) 6(3-4-4)**
A study of the complete fuel and emission system. This study includes fuel pumps, carburetors, fuel injectors, intake and exhaust manifolds, positive crankhouse ventilation, and emission control devices used by domestic and foreign automobiles.
Minimum clock hours—110.
- AUT 1116 Auto Fuel System Servicing (Var.) 17(5-25-0)**
This course is to train the student to understand the basic functions and principles of the fuel system of an automobile. Emphasis will be placed on troubleshooting, repair, rebuilding, and proper adjustment of the components of this system. This course is basically designed to be offered in a self-contained program for prison inmates.

- AUT 1117 Auto Tune-Up Servicing (Var.) 17(5-25-0)**
This course is to train the student to understand proper tune-up procedures and techniques, including the emission systems. Emphasis is placed on proper use of the various types of diagnostic equipment and the repair and adjustments of components to properly tune-up a vehicle. This course is basically designed to be offered in a self-contained program for prison inmates.
- AUT 1118 Auto Air Conditioning and Heating (Var.) 17(5-25-0)**
This course is to train the student to understand the comfort control systems on the modern automobile. Emphasis will be placed on the proper use of test equipment, proper troubleshooting techniques, and proper repairs and adjustments necessary to repair the air conditioning or heating system of a vehicle. This course is basically designed to be offered in a self-contained program for prison inmates.
- AUT 1123 Brakes Chassis and Suspension (SS) 5(3-3-4)**
Principles and functions of the components of automotive chassis. Practical job instruction in adjusting and repairing of suspension, steering, and braking systems. Units to be studied will be shock absorbers, springs, steering system, steering linkage, front end, and types and servicing of brakes.
Minimum clock hours—100.
- AUT 1124 Auto Transmissions and Drive Trains (S) 9(3-9-8)**
Principles and functions of automotive power train systems; clutches, standard transmissions, automatic transmissions, torque converters, drive shaft assemblies, rear axles, and differentials. Identification of troubles, servicing, and repair.
Minimum clock hours—200.
- AUT 1125 Automotive Servicing (SS) 5(3-3-4)**
Coordinated methods of using knowledge acquired in previous automotive courses to correctly troubleshoot and repair any part of the automobile. This course incorporates diagnostic testing.
Minimum clock hours—90.
- AUT 1140 Automotive Air Conditioning (SS) 4(2-4-0)**
General introduction to the principles of refrigeration; study of the assembly of the components and connections necessary in the mechanisms, the methods of operation, and control; proper handling of refrigerants in charging the system.
Minimum clock Hours—60.

BIOLOGY

- BIO 100 Basic Biology (F,SS) 4*(3-3)**
An introductory course for those students wishing to strengthen their backgrounds in biological science. Topics include the metric system of measurement, elementary chemistry, cell structure and function, biological classification, elementary genetics and evolution, and emphasis on anatomy and physiology of humans. *Not* designed to transfer to a four-year Liberal Arts college.
- BIO 101 General Biology I (F,W,S,SS) 4(3-3)**
An introduction to basic biological principles—the nature of

* Denotes preparatory credit (non-transferable).

science, elementary chemistry, cell structure and function, energy transformation, and the anatomy and physiology of higher vertebrates including coverage of digestion, excretion, and circulation.

- BIO 102** **General Biology II** (W,S,SS) 4(3-3)
Continuing study of the anatomy and physiology of higher vertebrates including respiration, immunity and disease, locomotion, nervous mechanisms and behavior, sensory reception, hormones and reproduction.
- BIO 103** **General Biology III** (S,SS) 4(3-3)
Continuing study of the anatomy and physiology of higher vertebrates including development, biochemical genetics, and heredity. Population genetics and evolution, introductory ecology and population study, and a survey of the major plant and animal phyla is also included.
- BIO 120** **Selected Topics in Biology** (Var.) 3(3-0)
A course designed for students interested in current issues in biology. Topics to be covered will include energy problems, human population trends, pollution, social biology, marine resources, and other controversial issues. Independent literature research and discussion presentations will be required. Field trips will be used when appropriate.
- T-BIO 121** **Human Anatomy and Physiology I** (W) 4(3-3)
The study of the structure and function of the human skeletal, muscular, nervous, circulatory, and respiratory systems, and the interdependence of these various systems to total body functioning (*Note:* This course is part of the self-contained Operating Room Technician program; therefore, only students in that program may register for it.)
Prerequisite: None
- T-BIO 122** **Human Anatomy and Physiology II** (S) 4(3-3)
Part two of an integrated anatomy and physiology course of the human body (*Note:* This is part of the self-contained Operating Room Technician program; therefore, only students in that program may register for it.)
Prerequisite: T-BIO 121
- T-BIO 123** **Introduction to Microbiology** (W) 4(3-3)
Study of the fundamental principles of micro-organisms, including identification, classification, morphology, culture methods and media, modes of transmission, sterilization and pathogenic organisms. (*Note:* This course is part of the self-contained Operating Room Technician program; therefore, only students in that program may register for it.)
Prerequisite: None
- BIO 205-206** **Anatomy and Physiology I and II** (F,W,SS) 4(3-3)
An integrated anatomical and physiological study of the human body. Designed to give the student an understanding of basic human anatomy and physiology.
Prerequisite: BIO 103 or permission of the instructor.
- BIO 207** **Microbiology** (S) 4(3-3)
A study of microorganisms with an emphasis on morphology and physiological processes, and their relationship to man and the en-

vironment. Laboratory exercises will introduce the student to the detection, identification and destruction of pathogenic microorganisms.

Prerequisites: BIO 103 or BIO 205, 206.

- BIO 210** **Principles of Ecology** (Var.) 5(3-4)
A study of basic ecological principles. Content includes productivity, nutrient cycles, pollution, environmental factors, species interaction, physiological ecology, population dynamics, community ecology, world biomes, paleoecology, and ecology and man. A week-end field trip is required.
Prerequisites: BIO 103 or permission of instructor.

- BIO 220** **Introduction to the Marine Environment** (S,SS) 5(3-6)
A study of the physical, chemical, geological, and biological components of the marine environment. Emphasis is placed on the interrelationships between these components and their effects on man's use of marine resources. Two weekend field trips are required.

BUSINESS

- BUS 99** **Business Skills Lab** (F,W,S,SS) 0(0-3)
This lab is designed to aid students who need practice or additional instruction in typing, office machines, and transcription.

- T-BUS 100** **Stenoscrypt** (Var.) 3(3-1)
An easy-to-learn phonetic shorthand written with the "abc's" rather than symbols. Accepted by the Civil Service and industry. Speed of 80 words a minute can be achieved in one quarter. This course will generally not transfer to a four-year institution.

- BUS 101** **Elementary Typewriting** (F,W,S,SS) 4(3-2)
Mastery of the keyboard and development of basic techniques leading to speed and accuracy. A brief introduction to different business letter formats, manuscripts, and tabulation typing.

- BUS 102** **Intermediate Typewriting** (F,W,S,SS) 3(2-3)
Accuracy and speed are developed through correct typewriting techniques. Practical applications, business letters, manuscripts, tabulations, centering.
Prerequisites: BUS 101 or demonstration of proficiency.

- BUS 103** **Advanced Typewriting** (F,W,S,SS) 3(2-3)
Further development of production speed and accuracy. Application of skills: special communications, statistical tabulations, minutes, reports, legal documents, and business forms.
Prerequisite: BUS 102.

- BUS 106** **Introduction to Business** (F,S,SS) 5(5-0)
A comprehensive introductory analysis of the modern business field, including organization, methods of operation, forms of ownership, business functions, and problems of management.

- BUS 107** **Business Mathematics** (F,W,S,SS) 5(5-0)
The application of standard principles of mathematics to business situations. Includes markup, trade and cash discount, interest, depreciation, installment credit, negotiable instruments, payrolls,

insurance, commissions, graphs, and statistics.

Prerequisite: A minimum of CGP math test C score of 50, or a math test D score of 40; plus high school general math or consumer math with grades of "C" or better.

- BUS 108 Personal Finance (W,S) 5(5-0)**
Covers personal and family finance, budgeting, borrowing, charge accounts, installment buying, insurance, home buying, income taxes, the stock market, and other investment media.
- T-BUS 109 Inter-Personal Relations (F,W,S) 3(3-1)**
The course is designed to help individuals become more aware of themselves, their potential, and how to react in many situations. Emphasis is placed on personality; speech; grooming; and physical, mental, and social improvement pertaining to business and daily relations with others.
- BUS 110 Filing (F) 3(3-0)**
Fundamentals of indexing and filing, combining theory and practices by the use of miniature letters, filing boxes, and guides. Students will also become familiar with modern filing equipment.
- BUS 111 Elementary Shorthand (W) 5(5-0)**
Emphasis is placed on the mastery of word-building principles of the Gregg system, with intensive drill on brief forms and correct writing and reading techniques.
- BUS 112 Intermediate Shorthand (S) 4(3-2)**
Designed to perfect the knowledge of theory, to widen vocabulary range, to develop phrasing skill, and to achieve a speed of from 60 to 80 words a minute on new material.
Prerequisite: BUS 111 or demonstration of proficiency.
- BUS 113 Advanced Shorthand (F) 4(2-3)**
Dictation at increasingly higher speeds, with a goal of from 80 to 100 words a minute on new material. Includes transcription practice.
Prerequisite: BUS 112.
- T-BUS 115 Business Law I (F,W) 3(3-0)**
A general course designed to acquaint the technical student with certain fundamentals and principles of business law, including contracts, negotiable instruments, and agencies.
- T-BUS 116 Business Law II (W,S) 3(3-0)**
Includes the study of laws pertaining to bailments, sales, risk-bearing, partnership-corporation, mortgages, and property rights.
- T-BUS 123 Business Finance (W) 3(3-0)**
Financing of business units—individuals, partnerships, corporations, and trusts. A detailed study is made of short-term, long-term, and consumer financing.
- T-BUS 161 Principles of Sales (Var.) 3(3-0)**
A course designed to acquaint students with fundamental techniques that bring success in selling ideas, products, and services.
- BUS 203-204-205 Principles of Accounting I, II, III (F,W,S) 4(3-3)**
Basic accounting principles and concepts are applied to single proprietorships, partnerships, and corporations. Introduces the

student to the basic concepts of cost accounting and the interpretation of financial statements.

Prerequisite: None (BUS 107 encouraged).

- BUS 206 Cost Accounting (F) 3(2-4)**
Introduction to cost accounting, definitions and objectives. Topics emphasized include cost-volume-profit relationships, job-order accounting, budgeting, systems design and human motivation, flexible budgets, standard costs, contribution approach to decisions, cost allocation, joint product and by-product costing, process costing.
- BUS 208 Intermediate Accounting I (F) 3(2-4)**
Financial accounting theory and practice underlying the accounting process. Topics emphasized include asset and liability accounts, the related income measurement, valuation, and reporting problems associated with these accounts.
- BUS 209 Business Communications (W) 3(3-0)**
A study of the principles of modern business communications through the development of dynamic English grammar, with analysis and composition of the various types of effective business letters and reports.
- T-BUS 210 Office Machines (F,W,S,SS) 2(1-2)**
Develop mastery in correct stroking techniques in operating the ten-key adding machine, ten-key printing and electronic calculator machine. Leads to skills in manipulating the fluid duplication machine, transitional keypunch machine, and transcribing machine.
Prerequisite: BUS 101
- BUS 211 Marketing (F) 5(5-0)**
A study of the principles, functions, and methods of marketing products from producer to consumer. Consumer behavior, marketing consumer goods, and the ways middleman activities affect the manufacturer's sales strategy.
- T-BUS 212 Accounting (S) 4(3-2)**
Principles, techniques, and tools of accounting for understanding of the mechanics of accounting. Collecting, summarizing, analyzing, and reporting information about service and merchantile enterprises, to include practical application of the principles learned.
Prerequisite: None (BUS 107 encouraged).
- BUS 213 Typewriting for Speed (S) 3(3-1)**
Emphasis is placed on accuracy and speed developed through correct typing techniques.
Prerequisite: BUS 103.
- BUS 214 Office Procedures (S) 4(3-2)**
Introduces the student to a wide range of office activities and provides the means to attain skill and confidence in performing secretarial-managerial operations.
- BUS 215 Medical Terminology and Vocabulary I (F) 3(3-0)**
Terminology and vocabulary appropriate to the course of study as it is used in business, technical, and professional offices.

BUS 216	Medical Terminology and Vocabulary II Continuation of BUS 215. Prerequisite: BUS 215	(W) 3(3-0)
T-BUS 221	Word Processing Designed to develop rapid and accurate transcripts from office-type dictation. Includes intensive practice in machine transcription. Emphasis is placed on typing mailable/acceptable copies of business letters, manuscripts, and medical, legal, and government documents using the transcribing machine. Prerequisite: BUS 103, ENG 111 & ENG 112, or ENG 101.	(F) 4(3-2)
T-BUS 222	Transcription I Continuation of T-BUS 221 with an emphasis on shorthand transcription. Prerequisite: Shorthand speed of 80 words per minute for 3 minutes.	(W) 4(3-2)
T-BUS 223	Transcription II Continuation of T-BUS 221 and T-BUS 222 with an emphasis on shorthand transcription.	(S) 4(3-2)
T-BUS 229	Taxes Designed to give students an understanding of federal and state income taxes. A study of income tax withholding, forms to use, special tax situations, and the basic individual income tax returns.	(S) 4(3-2)
T-BUS 230	Federal Income Taxes for Individuals Introduces the student to the federal tax law and to recommended procedures for preparing individual income tax returns. Students who complete this course should be more proficient in preparing federal income tax returns.	(W) 1(1-1)
BUS 232	Auditing Study of auditing standards and procedures for a contemporary audit. Topics emphasized include working papers, reports, ethics, legal responsibilities, and internal control.	(F) 3(2-4)
BUS 233	Intermediate Accounting II Continuation of BUS 208 with an emphasis on inventories, receivables, and long-term investments. Prerequisite: BUS 208	(W) 4(3-2)
T-BUS 235	Business Management Principles of business management, including an overview of the major functions of management, such as planning, staffing, controlling, directing, and financing. Clarification of the decision-making function versus the operating function. Role of management in business—qualifications and requirements.	(W) 3(3-0)
T-BUS 243	Advertising The role of advertising in a free economy and its place in mass communication media. A study of product and market research; advertising appeals; selection of media; and the means of testing advertising's effectiveness. Theory and practice of writing advertising copy for various media.	(W) 3(3-0)
T-BUS 247	Business Insurance A presentation of the basic principles of risk insurance and their application. A survey of the various types of insurance is included.	(Var.) 3(3-0)

- T-BUS 271 Office Management (S) 3(3-0)**
Presents the fundamental principles of office management. Emphasis on the role of office management, including its functions, office automation, planning, controlling, organizing, and actuating office problems.
- T-BUS 272 Principles of Supervision (S) 3(3-0)**
Introduces the basic responsibilities and duties of supervisors and their relationship to superiors, subordinates, and associates. Emphasis on securing an effective work force and the role of the supervisor. Methods of supervision are stressed.
- BUS 1103 Small Business Operations (SS) 2(2-0-0)**
An introduction to business, covering basic business problems, equipment and office layout, business forms and records, purchasing and inventory, and basic business law.

CHEMISTRY

- CHM 101 General Chemistry I (F) 4(3-3)**
An introductory course dealing with the basic principles and theories governing the relationships between the different states of matter, atomic theory, chemical bonding, and the periodic law. Laboratory includes an introduction to qualitative analysis.
- CHM 102 General Chemistry II (W) 4(3-3)**
A continuation of Chemistry 101. Gas laws, introduction to thermodynamics, changes of state, and chemical equilibrium.
Prerequisite: CHM 101.
- CHM 103 General Chemistry III (S) 4(3-3)**
Chemical kinetics, a study of properties of chemical elements and their compounds, and an introduction to nuclear and organic chemistry.
Prerequisite: CHM 102.

COOPERATIVE EDUCATION

Technical

Technical students will be allowed two credit hours per quarter in Cooperative Education to count as elective credit for a maximum of five quarters (10 quarter hours).

- T-BUS 150, 151 Business Cooperative Education (F,W,S,SS) 2(0-8)**
152, 153 I, II, III, IV, V
154
- T-DES 150, 151 Drafting and Design Cooperative (F,W,S,SS) 2(0-8)**
152, 153 Education I, II, III, IV, V
154
- T-ELN 150, 151 Electronics Cooperative Education (F,W,S,SS) 2(0-8)**
152, 153 I, II, III, IV, V
154

Cooperative Education students will be assigned to an employment situation with one of the cooperating businesses. This will serve as an extension of the students' laboratory experiences. It will provide an opportunity to broaden the students' understanding of their field of study as they obtain actual on-the-job experience.

COSMETOLOGY

- COS 1001 Scientific Study I (F,W,S,SS) 7(5-5-0)**
This is a course for beginners in cosmetology, it includes a study of professional ethics, grooming and personality development, sterilization, sanitation, first aid and bacteriology, cosmetology law, anatomy, chemistry, nails, nail disorders, manicuring, hair, scalp, skin, and disorders pertaining to the hair, scalp, and skin. Minimum clock hours—100.
- COS 1002 Scientific Study II (F,W,S,SS) 5(5-0-0)**
A classroom study of skin, scalp, hair, nails, and their disorders; salesmanship; permanent waving; marcelling; relaxing; hairdressing; wigs; and hair coloring. Minimum clock hours—50.
- COS 1003 Scientific Study III (F,W,S,SS) 5(5-0-0)**
A classroom study of anatomy, manicuring, chemistry, cosmetics-facials, hair styling, theory of massage, scalp treatments, superfluous hair removal, grooming and hygiene. Minimum clock hours—50.
- COS 1004 Scientific Study IV (F,W,S,SS) 5(5-0-0)**
A classroom study of chemistry, sanitation, sterilization, hair coloring and lash and brow tinting, artistry in hair styling, beauty salon salesmanship and management, electricity, cold waving and hair shaping. Minimum clock hours—50.
- COS 1005 Scientific Study V (F,W,S,SS) 5(5-0-0)**
A study of hair chemistry, product chemistry, bone structure of head and face, reading style blueprints, salesmanship and management, personality development and images. Minimum clock hours—50.
- COS 1011 Mannequin Practice (F,W,S,SS) 12(5-15-0)**
A study of finger waving, pin curling, rollers, marcelling, hair relaxing, shampooing and rinses, scalp treatment, hair cutting, permanent waving, hairdressing and combing, hair tinting, bleaching, frosting, streaking, wig care, and styling. Minimum clock hours—200.
- COS 1022 Clinical Application I (F,W,S,SS) 8(0-5-20)**
A study of live model performance. This course is designed to develop skills and understanding of techniques and applications in the areas of bacteriology, pin curling, finger waving, rollers, permanent waving, marcelling, chemical relaxing, hairdressing and wigs, manicuring and pedicuring, skin and scalp disorders, hair coloring, and hair cutting. Minimum clock hours—250.

- COS 1033 Clinical Application II (F,W,S,SS) 8(0-5-20)**
 This course gives continued laboratory practice and application of techniques of hair shaping, professional ethics, manicuring, chemistry, cosmetics-facials, hair styling, hair coloring (rinses, etc.) and scalp treatments.
 Minimum clock hours—250.
- COS 1044 Clinical Application III (F,W,S,SS) 8(0-5-20)**
 A continued study of laboratory practices in chemistry, sanitation, sterilization, hair coloring and lash and brow tinting, artistry in hair styling, cold waving, and hair shaping.
 Minimum clock hours—250.
- COS 1055 Clinical Practice IV (F,W,S,SS) 8(0-5-20)**
 Cosmetology services will be performed in a simulated salon experience as this 300 hour period replaces apprenticeship in a salon. This course consists of: appointment-booking to utilize time, practice in new trends and "quick service" styles, custom-permanent waving, adapting hairstyles to features and life-styles, blending haircolor and make-up to skin tones.
 Minimum clock hours—250.

DESIGN

- T-DES 101 Tools, Materials and Processes I (F) 3(3-0)**
 Introduction to design principles which affect the drafter-designer; characteristics of materials and their application to specified design requirements; and problem solving methods as applied to the design process.
- T-DES 102 Tools, Materials and Processes II (W) 3(2-3)**
 Hands-on experience in solving design problems through laboratory experiences. Application of methods and procedures used to produce a product.
- T-DES 103 Strength of Materials (S) 3(3-0)**
 A study of the characteristics of various materials used by industry and structural members subjected to different types of loads.
- T-DES 201 Machine Shop Technology (W) 3(0-6)**
 Laboratory experiences involving the use of various types of machine shop equipment of a more advanced nature than experienced in T-DES 102. Experience to be gained through individual or group production projects.

DRAFTING

- DFT 99 Drafting Skills Lab (F,W,S,SS) 0(Var.)**
 This lab is designed to aid students who need additional practice and instruction in developing drafting skills.
- DFT 101-102-103 Engineering Drawing I, II, III (F,W,S) 4(3-3)**
 A sequence of courses in basic engineering graphic techniques and principles, including but not limited to use and care of instruments, lettering, applied geometry, orthographic projection, dimensioning, pictorial drawing, sections and conventions, and

graphical analysis. Beginning students who have had two or more years of mechanical drawing in high school and who are proficient in basic engineering graphics may be allowed to substitute an elective for DFT 101.

- T-DFT 104 Electronic Drafting (W) 2(1-3)**
The application and principles in the use of symbols and conventions in the making of schematics, block diagrams, and other graphic methods of representing electronic engineering problems. Prerequisite: DFT 101.
- DFT 105 History of Architecture I (S) 3(3-0)**
A study of the development of architectural forms from early civilization to present time.
- DFT 106 History of Architecture II (SS) 2(2-0)**
A continuation of DFT 105 with emphasis on American architecture and the contemporary architecture of Europe and the Americas. Prerequisite: DFT 105.
- T-DFT 201-202-203 Advanced Engineering Graphics I, II, III (F,W,S) 4(3-3)**
An advanced technical study of engineering graphics to include, but not limited to: gears and cams; various industrial fasteners; fluid-power drawings; tool and die drawings; patent drawings and study of American Standards Association (ASA) drafting practices. Prerequisite: DFT 103.
- T-DFT 204 Technical Illustrations (SS) 4(3-3)**
A study of the techniques and procedures used by the technical illustrator. Pictorial methods used include isometric, oblique, dimetric, trimetric, and perspective drawing. Skills in the use of these methods will be developed through selected problems.
- DFT 205 Descriptive Geometry (W) 4(3-3)**
Graphic analysis of space problems involving points, lines, and planes either separately or in combined forms. Pattern development of geometric forms with emphasis toward construction and industrial application. Prerequisite: DFT 102.
- T-DFT 206 Design Drafting (S) 4(3-3)**
Introduction to basic motion transfer as related to power trains, including pulleys, chain drives, ratchet pawls, gears and cams, levers, and design problem solving. Prerequisite: DFT 103.
- DFT 207-208 Architectural Drawing I, II (SS) 4(3-3)**
Basic architecture relating to the construction of dwellings and commercial buildings, including basic design requirements for foundations, floors, walls, roof construction, windows, doors and appointments. Prerequisites: DFT 103, DFT 105.
- DFT 209 Individually Supervised Study, Drafting 3(Var.)**
Research and study in a specialized area of engineering graphics as related to the students' vocational interests. Prerequisite: Instructor's consent.

- T-DFT 210 Printed Circuit Board Layout & Design (SS) 4(3-3)**
An electronic drafting course focusing on the development of printed circuits boards from schematic drawings. Skills in transferring circuit design and etching will be gained through selected laboratory problems.
- T-DFT 214-215 Jigs and Fixtures, I, II (Seq. S,F) 4(3-3)**
Principles and practice of jig and fixture design, and problem and design analysis as related to jigs and fixtures construction.
Prerequisite: DFT 102.
- DFT 1000 Blueprint Reading I (F) 4(4-0-0)**
Basic principles of blueprint reading, lines, views, dimensioning procedures, and notes.
- DFT 1010-1020 Blueprint Reading II, III (Seq. W,S) 3(3-0-0)**
A continuation of DFT 1000, with an emphasis on machine shop blueprint reading, section views, auxiliary views, and development.
- DFT 1030 Blueprint Reading IV (SS) 2(2-0-0)**
A continuation of DFT 1000, 1010, and 1020 to include basic principles of machine drawing.
- DFT 1104 Blueprint Reading: Mechanical (Var.) 1(0-0-3)**
Interpretation and reading of blueprints. Information on the basic principles of the blueprint, lines, views, dimensioning procedures and notes.
- DFT 1116 Blueprint Reading: Air Conditioning (Var.) 2(1-0-3)**
A specialized course in drafting for the heating, air conditioning and refrigeration student. Emphasis will be placed on reading of blueprints that are common to the trade; blueprints of mechanical components, assembly drawings, wiring diagrams and schematics, floor plans, heating system plans including duct and equipment layout plans, and shop sketches. The student will make tracings of floor plans and layout air conditioning systems.
- DFT 1135 Blueprint Reading: Electrical (Var.) 2(2-0-0)**
This course provides a basic knowledge necessary to read and understand electrical blueprints and schematic drawings. It teaches the student the use of symbols, how to sketch basic electrical plans and circuits and how to plan and estimate requirements from blueprints.
- DFT 1417 Blueprint Reading: Welding (Var.) 1(0-0-3)**
A thorough study of trade drawings in which welding procedures are indicated. Interpretation, use and application of welding symbols, abbreviations, and specifications.
- DFT 1418 Pattern Development and Sketching (Var.) 1(0-0-3)**
Continued study of welding symbols; methods used in layout of sheet steel; sketching of projects, jigs and holding devices involved in welding. Special emphasis is placed on developing pipe and angle layouts by the use of patterns and templates.
- DRAMA**
- DRA 117 Technical Theatre I (F) 3(2-2)**
Stage architecture, scene construction, and rigging. Techniques of the past and present are emphasized.

- DRA 118 Technical Theatre II (W) 3(2-2)**
Stage makeup and costuming; lighting and sound effects; and the construction of properties. Styles of the past and present are emphasized.
- DRA 119 Technical Theatre III (S) 3(2-2)**
Scene design, emphasizing color and form as applied to scenery of the past as well as to the various types and styles of dramatic literature.
- DRA 121 History of The Theatre I (F) 3(3-0)**
The history of the great period of theatre from the Greek Classical through the Medieval, emphasizing types and styles of drama, dramatic literature, acting, and directing.
- DRA 122 History of The Theatre II (W) 3(3-0)**
The history of the great periods of theatre from the Elizabethan through the French Neoclassical, emphasizing types and styles of drama, dramatic literature, acting, and directing.
- DRA 123 History of The Theatre III (S) 3(3-0)**
The history of the great periods of theatre from the Restoration Period to the Contemporary, emphasizing types and styles of drama, dramatic literature, acting, and directing.
- DRA 124 Play Production (Var.) 3(2-2)**
An exploration of the functions of the director, actor, and designer in the production of a play. Students are expected to participate in the production of a play each quarter, by playing roles, assisting the director, or serving as members of construction, sound, property, lighting, stage or house management, publicity, costume and/or makeup staffs.
- DRA 130 Acting I (S) 3(3-0)**
This course emphasizes removing restrictions, both inner and outer, which suppress spontaneity as an approach to acting and a catalyst for self-discovery.
Prerequisite: Permission of the instructor.
- DRA 131 Acting II (Var.) 3(3-0)**
Practice in developing the ability to control the voice and body as instruments of expression: improvisations, pantomime, vocal exercises, acting styles, stage business, rehearsal techniques, characterization, phrasing, tempo and climax, action and reaction. Selected scenes will be presented and analyzed during the term.

ECONOMICS

- ECO 201-202-203 Principles of Economics I, II, III (F,W,S) 3(3-0)**
Fundamental principles underlying basic economic concepts and the problems of modern economic society. First quarter surveys the nature of our private enterprise system. The second quarter reviews the role of government, evaluates our credit structure, and introduces national income accounting and analysis. The third quarter is devoted to studying the forces which determine the composition and pricing of national output, the distribution of income, and the allocation of resources.

ELECTRONIC DATA PROCESSING

- EDP 101 Computer Fundamentals (F,W,S,SS) 3(3-0)**
Basic course in computers covering the history of computers. Comparison of digital and analog computers and their uses, binary numbers, fundamentals of logical algebra and logic equations, and the terminology of computers.
- EDP 102 Programming for Computer-Based Information Systems (W,SS) 4(3-2)**
Study of concepts of computer-based systems design, the concepts and tools of programming, and a specific computer language. Prerequisite: EDP 101.
- EDP 103 Programming for Computer-Based Information Systems (SS) 4(3-2)**
A continuation of EDP 102. A study of the concepts and tools of programming with emphasis on data sets and file systems. Prerequisite: EDP 102.

EDUCATION

- EDU 201 Introduction to Education (Var.) 3(3-0)**
This course is designed for students beginning professional training in teacher education. To acquaint the prospective teacher with the four major aspects of education; the teaching profession, the school system, the teacher, and the pupil.

ELECTRICAL INSTALLATION & MAINTENANCE

- ELC 1102 Applied Electricity (Var.) 3(2-0-3)**
The use and care of test instruments and equipment used in servicing electrical apparatus for air conditioning and refrigeration installations. Electrical principles and procedures for troubleshooting of the various electrical devices used in air conditioning, heating, and refrigeration equipment. Included will be transformers, various types of motors and starting devices, switches, electrical heating devices and wiring.
- ELC 1510 Fundamentals of Electrical Installations I (Var.) 10(5-0-16)**
A study of the Electron Theory and Magnetism. The relationship between voltage, current, and resistance. Electrical terms and symbols. Basic electrical circuits, series, parallel, and combination. Types of electrical measuring devices and how to apply them in electrical circuits. Electrical systems for lighting and power. (wye and delta) Principles of measurement and a study of electricity. Subjects such as electron theory, magnetism, electromagnetism and its application, and elements of circuits and their effect on current will be considered. Safety is stressed in all aspects of electricity.
- ELC 1520 Fundamentals of Electrical Installation II (Var.) 4(3-0-5)**
A continuation of ELC 1510.
- ELC 1522 Residential Installation (Var.) 4(3-0-5)**
Provides instruction and application in the installation of electrical requirements in residential dwellings. Regulations governing the wiring as listed in the National Electrical Code and in the

specifications. Load calculations for family-type dwellings. Installation of service equipment and branch circuits in actual building mock-ups.

- ELC 1530 Fundamentals of Electrical Installation III (Var.) 7(5-0-6)**
A continuation of ELC 1520.
- ELC 1532 Commercial Installation (Var.) 9(5-0-12)**
Provides instructions and application in the installation of electrical service equipment and branch circuits in commercial type buildings. Requirements for electrical service as set forth by the National Electrical Code. Load calculations. Actual wiring of commercial type installation in buildings.
- ELC 1540 Marine and Industrial Installations (Var.) 6(3-0-10)**
Provides instructions and application in installations of electrical service in vessels and industrial type buildings. Installation of three phase power circuits. National Electrical Code requirements.
- ELC 1542 Electric Motors and Controls (Var.) 8(5-0-10)**
Provides instruction and application in the installation of electrical motors, generators and control devices, manual, automatic, remote control stations, relays, dual motor operations. Maintenance and trouble shooting, repair of controllers and control devices. Types of electrical motors, single phase, and three phase. Maintenance and repair of electrical motors.

ELECTRONICS

- T-ELN 101 D.C. Circuits (F) 6(5-3)**
Development of basic circuit theories, electron theory, basic circuits, cells and batteries, resistance, resistance networks, Ohm's law, Kirchhoff's law, Watt's law, Thevenin's theorem, Norton's theorem, superposition principles, magnetism, and electromagnetism.
- T-ELN 102 A.C. Circuits (W) 6(5-3)**
Fundamental electrical laws are extended to include A.C. circuits, impedance, phase relationship, resonance, transformers, time constants, principles and the use of measuring instruments.
Prerequisite: T-ELN 101.
- T-ELN 103 Semiconductors and Vacuum Tubes (S) 6(5-3)**
Theory of semiconductors, vacuum tubes, and gaseous tubes, and the development of their characteristics; mutual conductance, load lines, A.C. theory, resonance, network theorems, decibels, and test equipment.
Prerequisite: T-ELN 102.
- T-ELN 104 Electronic Servicing I (Var.) 4(3-3)**
Radio receiver servicing with emphasis on qualitative analysis. Laboratory work is correlated with the lecture material.
Prerequisite: T-ELN 103.
- T-ELN 105 Electronic Servicing II (Var.) 4(3-3)**
Television receiver servicing with emphasis on qualitative analysis. Laboratory work is correlated with the lecture material.
Prerequisite: T-ELN 104.

T-ELN 201	Advanced Semiconductors and Vacuum Tubes	(F) 4(3-3)
	Rectification and filtering methods, transistor and vacuum tube amplifiers, integrated circuits, hybrid parameters, amplifiers, coupling methods, special and push-pull amplifiers, test equipment. Prerequisite: T-ELN 103.	
T-ELN 202	Basic Communication Electronics	(F) 4(3-3)
	Basic transmitters, commercial transmitters, amplitude modulation systems, frequency modulation systems, phase modulation, amateur transmitters, frequency measurements, modulation measurement. Prerequisite: T-ELN 103.	
T-ELN 203	Basic Computer Electronics	(W) 4(3-3)
	An introduction to digital and analog computer circuits. Prerequisite: T-ELN 103.	
T-ELN 204	Advanced Communication Electronics	(W) 4(3-3)
	Communication receivers, amplitude and frequency modulation, circuit characteristics and design, antenna design, FCC regulations. Prerequisite: ELN 202.	
T-ELN 206	Advanced Computer Electronics	(S) 4(3-3)
	Application of computers to problems, computer circuits, memory circuits, and read out devices. Prerequisite: T-ELN 203.	
T-ELN 207	Individually Supervised Study, Electronics	(Var.) 3(Var.)
	Designed to foster independent study, research, and investigation in electronics. The student will make a preliminary presentation of a problem, conduct an investigation, and make a final report including a statement of the problem and methods of investigation, along with conclusions and suggestions for further study. Prerequisite: Instructor's consent.	
T-ELN 215-216	Industrial Electronics	(W,F) 4(3-3)
	Study of industrial electronic devices including industrial rectifiers, photo-tube circuits, time delay circuits, resistance sensitive circuits, weld timers, ignition and thyrotron circuits, speed controls, selsyns, amplidyne, and transducers. Prerequisites: T-ELN 103 and 215.	
ELN 1101	Fundamentals of Electronic Servicing I	(F) 7(7-0-0)
	This course includes the proper use of test equipment and proper methods of testing circuitry and components. It also includes the proper use of service manuals reading schematics and short cuts in various servicing procedures. This course is designed to be offered in a self-contained electronics servicing program for prison inmates.	
ELN 1102	Fundamentals of Electronic Servicing II	(S) 2(2-0-0)
	A continuation of ELN 1101. This course is designed to be offered in a self-contained electronics servicing program for prison inmates.	

- ELN 1103 Fundamentals of Electronic Servicing III (S) 2(2-0-0)**
A continuation of ELN 1102. This course is designed to be offered in a self-contained electronics servicing program for prison inmates.
- ELN 1104 Fundamentals of Electronic Servicing IV (SS) 2(2-0-0)**
A continuation of ELN 1103. This course is designed to be offered in a self-contained electronics servicing program for prison inmates.
- ELN 1111 Direct and Alternating Current (F) 11(5-0-18)**
A study of the structure of matter and the electron theory, the relationship between voltage, current and resistance in series, parallel and series-parallel circuits. Analysis of direct current circuits by Ohm's law and Kirchhoff's law; sources of direct current potentials. Fundamental concepts of alternating current flow; a study of reactance, impedance, phase angle, power and resonance and alternating current circuit analysis.
- ELN 1112 Vacuum Tubes and Solid State Devices (W) 15(10-0-15)**
An introduction to vacuum tubes and their development; the theory, characteristics and operation of vacuum diodes, semiconductor diodes, rectifier circuits, filter circuits, triodes and simple voltage amplifier circuits. Transistor theory, operation, characteristics, and their application to audio and radio frequency amplifier and oscillator circuits. Troubleshooting and repair of solid state devices.
Prerequisite: ELN 1111.
- ELN 1113 Television Theory and Circuits (S) 7(6-0-3)**
This is a beginning theory course which introduces the study of the following: brightness control and DC re-insertation circuits, video detector stages, automatic gain control circuits, deflection oscillator and amplifier stages, automatic frequency control circuits, picture IF amplifier stages and RF tuner units, etc. Shop work will include construction, analysis, testing, and simple troubleshooting of the stages studied in class. Visual alignment and adjustments of control circuits are performed.
Prerequisites: ELN 1111, ELN 1112, MAT 1115.
- ELN 1125 Radio Receiver and Amplifier Servicing (S) 9(5-0-12)**
An introduction of commonly used servicing techniques as applied to monophonic and stereophonic high fidelity amplifier systems and auxiliary equipment. The operation and servicing of intercommunication amplifiers and switching circuits will also be taught. Principles of radio reception and practices of servicing; included are block diagrams of radio receivers, servicing techniques of AM and FM receivers by resistance measurements, signal injection, voltage analysis, oscilloscope methods of locating faulty stages and components and the alignment of AM and FM receivers.
Prerequisite: MAT 115, ELN 1112, ELN 1111.
- ELN 1127 Television Receiver Circuits and Servicing (SS) 16(10-0-18)**
A study of principles of television receivers, alignment of radio and intermediate frequency amplifiers, adjustment of horizontal and vertical sweep circuits will be taught. Techniques of troubleshooting and repair of TV receivers with the proper use of

associated test equipment will be stressed. Additional study of more specialized servicing techniques and oscilloscope waveform analysis will be used in the adjustment, troubleshooting and repair of the color television circuits.
Prerequisites: ELN 1113, ELN 1125.

ENGLISH

- ENG 99 English Skills Lab (F,W,S,SS) 0(0-3)**
This lab is designed to aid students who need additional practice with mechanics of writing and who need to eliminate specific deficiencies.
- ENG 101 English Composition I (F,W,S,SS) 3(3-0)**
Study of expository writing with an analysis of various methods of development; study of the essay and the short story; frequent theme assignments; individual conferences.
Prerequisite: A minimum CGP reading score of 45 and composition score of 45; plus average high school English grades of "C" or better.
- ENG 102 English Composition II (F,W,S,SS) 3(3-0)**
Continued study of composition, emphasizing techniques of analysis and synthesis in writing, with drama providing substance; and techniques of research writing.
Prerequisite: ENG 101*.
- ENG 103 English Composition III (F,W,S,SS) 3(3-0)**
Continued study of composition based upon critical reading of poetry and novels.
Prerequisite: ENG 102*.
- ENG 111 Fundamentals of Communication I (F,W,S,SS) 3(3-0)**
An intensive study of communication fundamentals as emphasized in three areas: the theory and application of grammar; etymology and vocabulary power; and reading improvement.
- ENG 112 Fundamentals of Communications II (F,W,S,SS) 3(3-0)**
A continuation of ENG 111 with emphasis on the study of expository writing with an analysis of various methods of development.
- ENG 115 Man and the Media (W,S) 3(3-0)**
Designed to increase the student's ability to think analytically about the various media and their impact on man. Discussion of selected television programs, and movies, and the relationship between verbal and visual media.
- ENG 121, 122, 123 Writing for College Publications (F,W,S,SS) 1(Var.)**
Study of and practice in writing for college publications. Designed to encourage and instruct those students interested in the college's paper, literary magazine, and yearbook. A student can earn no more than three (3) quarter hours credit per year in this sequence of courses.
Prerequisite: Permission of the instructor.

* Stated prerequisites may be waived with permission of the instructor and department chairperson.

- ENG 201 English Literature I (F,W,S,SS) 3(3-0)**
A survey of English literature from Beowulf to Milton.
Prerequisite: ENG 103*.
- ENG 202 English Literature II (F,W,S,SS) 3(3-0)**
A survey of English literature from Milton to the Victorians.
Prerequisite: ENG 103*.
- ENG 203 English Literature III (F,W,S,SS) 3(3-0)**
A survey of English literature from the Victorians to the present.
Prerequisite: ENG 103*.
- ENG 205 American Literature I (F) 3(3-0)**
A survey of American literature from its beginnings to Hawthorne.
Prerequisite: ENG 103*.
- ENG 206 American Literature II (W) 3(3-0)**
A survey of American literature from Hawthorne to the twentieth century.
Prerequisite: ENG 103*.
- ENG 207 American Literature III (S) 3(3-0)**
A survey of American literature of the twentieth century.
Prerequisite: ENG 103*.
- ENG 1020 Reading Improvement (F) 2(2-0-0)**
A concentrated effort to improve students' ability to comprehend what they read by training them to read more rapidly and accurately. This course is adjusted to vocational students' interests.
- ENG 1030 Communication Skills (W) 2(2-0-0)**
Development of the ability to communicate effectively through the medium of good language usage in speaking and writing. Organizing and presenting thoughts effectively in connection with problems. This course is adjusted to vocational students' interests.

FRENCH

- FRE 101-102-103 Elementary French I, II, III (F,W,S) 3(3-1)**
An introduction to the essentials of French grammar, pronunciation, composition, conversation, and civilization. Students who have acquired two high school units in French may not take French 101-102-103 except by permission of the instructor.
- FRE 151-152-153 Intermediate French I, II, III (F,W,S) 3(3-1)**
An introduction to grammar with attention to correct pronunciation, aural drills, composition, and special emphasis on the development of reading skills.
Prerequisites: Two years of high school French or FRE 101-102-103.
- FRE 200 Selected Readings in French (Var.) 3(3-0)**
A course for those able to read French literature. Selections of short stories and drama will be used and literary interpretations

* Stated prerequisites may be waived with permission of the instructor and the department chairperson.

will be included.

Prerequisite: Three years of high school French or the completion of FRE 153.

GEOGRAPHY

- GEO 101 Principles of Geography I (Var.) 3(3-0)**
First quarter of a two-quarter sequential course designed to introduce the student to the study of geography, emphasizing physical geography and its influence on man.
- GEO 102 Principles of Geography II (Var.) 3(3-0)**
Second quarter of a two-quarter sequential course to introduce the student to the study of geography, emphasizing the influence of geography on man in the major climatic regions of the earth.
Prerequisite: GEO 101 or special permission of instructor.

HEALTH

- HEA 121 Hygiene I (F,W,S,SS) 3(3-0)**
This course is designed to give students a stimulating and realistic approach to personal and community life health, and to develop in them a sound and critical attitude where their own personal health is concerned.
- HEA 122 Hygiene II (F,W,S,SS) 3(3-0)**
A continuation of HEA 121—the human body and its function as related to problems of health and disease. Also included is an emphasis on preparing students in knowledge and skills needed in preventing accidents as well as rendering first aid to the victims of accidents.
- HEA 223 First Aid and Safety Education (F,W,S,SS) 3(3-0)**
Standard and accepted practices of first aid and safety education. Official certification to students who qualify.

HISTORY

- HIS 101 Ancient History (F,W,S,SS) 3(3-0)**
A survey of pre-history, the Ancient Near East, China, Greece, Rome, the Byzantine and Arab Empires to the time of Charlemagne.
- HIS 102 Medieval History (F,W,S,SS) 3(3-0)**
A survey of the High Middle Ages, the Medieval Church, the Crusades, the growth of towns and trade, the Renaissance, the Age of Discovery, and the emergence of Royal Absolutism during the 17th and 18th Centuries. Non-Western cultures, such as China, Japan and Pre-Columbian America, are also presented.
- HIS 103 Modern History (F,W,S,SS) 3(3-0)**
A survey of European imperial expansion, the dynastic struggles of the 18th century, the Industrial Revolution, the American and French Revolutions, the two World Wars, and the Cold War period.

- HIS 201** **U.S. History I** (F,SS) 3(3-0)
A survey of European Colonial expansion in the Western Hemisphere, the establishment of the English Colonies, the struggle for American independence, the Federal Period, and the War of 1812.
- HIS 202** **U.S. History II** (W,SS) 3(3-0)
A survey of the Ante Bellum period, the Civil War, Reconstruction, the rise of big business, the Labor Movement, the Populist-Progressive movements and imperial expansion to 1917.
- HIS 203** **U.S. History III** (S,SS) 3(3-0)
A survey of 20th Century U.S. history from the Progressive Movement through the Cold War.
- HIS 204** **An Introduction to Latin America** (S,SS) 3(3-0)
A survey of the geography, culture, economy, politics, and history of Latin America. Emphasis is placed on the geographical and cultural forces that have contributed to the Latin America of the modern period, together with the modern movements in Latin America that strive to solve Latin American problems.
Prerequisite: 3 hours of college history.
- HIS 206** **Modern Europe, 1815-1914: Seminar** (Var.) 3(3-0)
Traces the development of the European State System as it evolved in the 19th century leading to certain factors involved in the causes of the First World War. Emphasis is placed upon the forces of liberalism, conservatism and nationalism and why their roles changed during the period.
Prerequisite: 3 hours of college history.
- HIS 207** **Modern Europe, 1919-1960: Seminar** (Var.) 3(3-0)
Traces the development of the Second World War, the course of the war and the post war period of reconstruction. Emphasis is placed on the political, intellectual and economic developments in European Civilization following World War I and the Treaty of Versailles.
Prerequisite: 3 hours of college history.
- HIS 208** **Oral History** (Var.) 3(3-0)
A course in the gathering of historical source material through interviews. Especially valuable for anyone interested in North Carolina, local, or social history. Open to all students.

LIBRARY

- LIB 100** **Library Usage** (F,W,S,SS) 1(1-0)
A general course covering the use of standard library reference tools such as the card catalog, indexes, directories, handbooks, periodicals, etc. Frequent short research projects are required and one long project is completed during the course.

MATHEMATICS

- MAT 99** **Math Skills Laboratory** (F,W,S,SS) 0(0-3)
This lab is designed to aid students who need practice or additional instruction in math.

MAT 100	Basic Mathematics (F,W,SS) 3*(3-0) Whole numbers, rational numbers, integers and their operations, ratios, proportions, per cents, irrational numbers.
MAT 101	Basic Algebra I (F,W,S,SS) 3*(3-0) Symbols and sets, linear equalities and inequalities, absolute value, Cartesian coordinate system, polynomials, rational algebraic expressions, integral exponents, systems of equalities and inequalities.
MAT 102	Basic Algebra II (F,W,S,SS) 3*(3-0) Rational exponents, factoring, operations with rational algebraic expressions, quadratic and irrational equations.
T-MAT 104	Technical Math I (F) 5(5-0) Introduction to algebra and trigonometry for students in the Drafting and Design and the Electronics programs. Includes basic algebra, functions and graphs, linear and quadratic equations, and the trigonometric functions.
T-MAT 105	Technical Math II (W) 4(4-0) This course is designed primarily for students enrolled in Electronics and in Drafting and Design. The emphasis of this course is on problem solving at a post-secondary level. The student is to be presented problems which are meaningful within the context of conventional engineering at a realistic level of sophistication in view of the student's preparation. Included will be an introduction to algebra, linear equations, functions and graphs, exponents and radicals, quadratic equations, ratio and proportion, the binomial theorem, and logarithms. This course is not designed to transfer to a four-year liberal arts college. Prerequisite: Technical Math I or minimum CGP math test E score of 50.
T-MAT 106	Technical Math III (S) 3(3-0) A continuation of Technical Math I. Emphasis is on trigonometry. Includes a study of right and oblique triangles, vectors, trigonometric formulas and identities, graphs, and complex numbers. Prerequisite: Technical Math II.
MAT 111	Fundamental Concepts of Mathematics I (F,W,SS) 3(3-0) Logic, set theory, systems of numeration, and properties of the whole numbers. MAT 111, 112 and 113 are designed for students who major in elementary education. Prerequisite: A minimum CGP math test C score of 50, or math test D score of 40, or a math test E score of 40.
MAT 112	Fundamental Concepts of Mathematics II (W,S,SS) 3(3-0) Properties of the systems of integers and rational numbers, and number theory. Prerequisite: MAT 111.
MAT 113	Fundamental Concepts of Mathematics III (S,SS) 3(3-0) Real and complex numbers, elementary probability and statistics,

* Denotes preparatory credit (non-transferable).

elementary plane geometry, lengths, areas, and volumes of geometric figures.

Prerequisite: MAT 112.

- MAT 121** **College Algebra I** (F,W,S,SS) 3(3-0)
Review of basic algebra, the coordinate plane, functions and their graphs, quadratic functions, and polynomial functions.
Prerequisite: A minimum CGP math test E score of 50; plus two years of high school algebra with grades of "C" or better.
- MAT 122** **College Algebra II** (W,S,SS) 3(3-0)
Exponential and logarithmic equations, permutations, combinations, probability, mathematical induction, binomial theorem, matrices, determinants, sequences, series.
Prerequisite: MAT 121 or permission of instructor.
- MAT 123** **Trigonometry** (F,S,SS) 3(3-0)
Definitions of the trigonometric functions, solutions of right triangles, law of sines and cosines, oblique triangles, identities, conditional equations, inverse functions, polar coordinates, complex numbers, vectors.
Prerequisite: MAT 121-122 or permission of the instructor.
- MAT 201** **Calculus I** (F) 5(5-0)
Rate of change of functions, limits, derivatives of algebraic functions, applications of derivatives, continuity, the indefinite integral, the definite integral, areas, derivative and integral of sine and cosine functions.
Prerequisite: MAT 123 or permission of instructor.
- MAT 202** **Calculus II** (W) 5(5-0)
Applications of the definite integral; derivatives and integrals of trigonometric functions, inverse trigonometric functions, logarithmic functions, exponential functions, and hyperbolic functions; methods of integration.
Prerequisite: MAT 201
- MAT 203** **Calculus III** (S) 5(5-0)
Plane analytic geometry, polar coordinates, vectors and parametric equations, vector functions and their derivatives.
Prerequisite: MAT 202
- MAT 204** **Calculus IV** (S) 3(3-0)
Partial differentiation, multiple integration, infinite series (Maclaurin, Taylor, Fourier).
Prerequisite: MAT 202
- MAT 210** **Linear Algebra** (W) 3(3-0)
Matrices and systems of equations, vector spaces, independence, bases, dimension, rank, linear transformations, inverse of a linear transformation, changing coordinates, representations of transformations.
Prerequisite: MAT 123
- MAT 211** **Elementary Statistics** (S) 3(3-0)
Frequency distribution, presentation of data by graphs and charts, measures of central value, measures of dispersion, normal distribution, correlation and distribution, sampling, hypotheses testing, chi square test.
Prerequisite: MAT 122

MAT 1000	Fundamentals of Mathematics (F) 5(5-0-0) Theory of numbers and the analysis of basic operations: addition, subtraction, multiplication, and division of whole numbers. Common fractions, decimal fractions, powers and roots, percentages, and rules and formulas.
MAT 1010	Vocational Mathematics (W) 3(3-0-0) Ratio and proportion, measurement of surfaces and volumes, gear ratios, pulleys, angular velocity, mechanics, and electricity. Also includes basic algebra.
MAT 1020	Geometry and Trigonometry (S) 3(3-0-0) Applied math for machinist trade application. Geometry and trigonometry stressed as applied to the trade.
MAT 1030	Machinist Mathematics (SS) 3(3-0-0) Practical application of algebra and trigonometry in the solution of problems related to the machinist trade. Lead screw and indexing problems, and compound angles.

MACHINIST

MEC 1120	Duct Construction and Maintenance (Var.) 5(3-0-6) Study of various duct materials including sheet steel, aluminum, and fiber glass. Safety, sheet metal hand tools, cutting and shaping machines, fasteners and fabrication practices, layout methods, and development of duct systems. The student will service various duct systems and perform on the site repairs including ducts made of fiber glass. A study is made of duct fittings, dampers and regulators, diffusers, heater and air washers, fans, insulation and ventilating hoods.
MEC 1200	Machine Shop Theory and Practice I (F) 9(3-8-8) An introduction to the machinist trade and the potential it holds for the craftsman. Deals primarily with the identification, care, and use of basic hand tools and precision measuring instruments. Elementary layout procedures and processes of the lathe, drill press, and milling machines will be introduced both in theory and practice. Minimum clock hours—195.
MEC 1201	Machine Shop Processes (Var.) 2(0-0-6) To acquaint the student with the procedures of layout work and the correct use of hand and machine tools. Experiences in the basic fundamentals of drill press and lathe operation; hand grinding of drill bits and lathe tools; set-up work applied to the trade.
MEC 1210	Machine Shop Theory and Practice II (W) 7(2-6-8) Advanced operations in layout tools and procedures, power sawing, drill press, surface grinder, milling machine, and shaper. The student will work on projects encompassing all the operations, tools, and procedures thus far used and those to be stressed throughout the course. Minimum clock hours—170.

- MEC 1215 Lathe Operation (Var.) 7(3-6-4)**
Operating principles and functions of the lathe, lathe tool sharpening and setups, care and maintenance of the lathe. Minimum clock hours—130.
- MEC 1220 Machine Shop Theory and Practice III (S) 6(2-4-8)**
Advanced work on the lathe, grinders, milling machine, and shaper. Introduction to basic indexing and terminology with additional processes on calculating, cutting, and measuring of gears. The student will use precision tools and measuring instruments such as vernier height gage, protractor, and comparator. Minimum clock hours—140.
- MEC 1225 Drill Press Operation (Var.) 7(3-6-4)**
Operating principles and functions of the drill press, both standard and radial. Drill sharpening and setups on drill press. Care and maintenance of drill press. Minimum clock hours—130.
- MEC 1230 Machine Shop Theory and Practice IV (SS) 10(3-8-8)**
Development of class projects in planning, blueprint reading, machine operations, final assembly, and inspection. Processes on the tool and cutter grinder and cylindrical grinder will be practiced. Special procedures and operations, processes and equipment, observing safety procedures faithfully, and establishing good work habits and attitudes acceptable to the industry. Minimum clock hours—195.
- MEC 1235 Shaper Operation (Var.) 8(3-8-4)**
Operating principles and functions of the shaper. Shaper tool sharpening and shaper setups and the care and maintenance of shaper. Minimum clock hours—150.
- MEC 1245 Mill Operation (Var.) 8(3-8-4)**
Operating principles and functions of milling machines, mill setups, care of milling cutters, and the care and maintenance of milling machines. Minimum clock hours—150.
- MEC 1250 Structure of Metals I (S) 3(3-0-0)**
Elementary and practical approach to ferrous metals. A study of their structure, marking, classification, and uses. The theory of iron and steel and their alloys. The shaping, forming, heat treatments, and surface treatments for steel.
- MEC 1255 Structure of Metals II (S) 3(3-0-0)**
Elementary and practical approach to non-ferrous metals. A study of their structure, marking, classification, and uses. The shaping, forming, heat treatments, and surface treatments for non-ferrous metals.
- MEC 1260 Precision Machining I (F) 8(2-8-8)**
The designing and building of machine shop projects that require a great deal of skill by the student. The student will be required to use all the equipment in the shop to build these projects; close tolerances will be held on all parts that make up the projects. Minimum clock hours—185.

- MEC 1265 Precision Machining II** (W) 8(2-8-8)
A continuation of Precision Machining I.
Minimum clock hours—185.
- MEC 1270 Machine Repair** (S) 8(2-8-8)
This course is designed to familiarize the student with the installation, maintenance, and repair of machine shop equipment. He will also manufacture some of the parts needed to repair the equipment.
Minimum clock hours—185.
- MEC 1275 Jig and Fixture Building** (SS) 6(2-6-4)
This course is designed to familiarize the student with the designing and building of jigs and fixtures used in production manufacturing by machine shops.
Minimum clock hours—123.
- MEC 1280 Die Making** (SS) 6(2-6-4)
Elementary and practical approach to building of simple dies. Special attention is given to the methods of developing the different types of dies. Instruction is given in types of materials used and the machining of component parts of dies.
Minimum clock hours—123.

MUSIC

- MUS 90 Music Skills Lab** (F,W,S) 0(Var.)
This lab is designed to aid students who need additional practice and instruction in developing music skills.
- MUS 91-92-93 Organ** (Var.) 1*(1-1)
A preparatory course for organists of insufficient background for college credit organ courses, or for those who do not wish to study organ for credit. Qualified students upon the completion of each quarter can, by examination, enter MUS 114.
- MUS 94-95-96 Voice** (Var.) 1*(1-1)
A preparatory course for vocalists of insufficient background for the college credit voice courses, or for those who do not wish to study voice for credit. Qualified students upon the completion of each quarter can, by examination, enter MUS 108.
- MUS 97-98-99 Piano** (Var.) 1*(1-1)
A preparatory course for pianists of insufficient background for the college credit piano courses. Qualified students upon the completion of each quarter can, by examination, enter MUS 111.
- MUS 100-101 Music Fundamentals I, II** (F,W) 2(2-1)
A course designed to fulfill requirements in basic music for those who plan to major in elementary education and as a preparatory course for students of insufficient musicianship background to enter the first year theory course. Open to all students.
- MUS 102-103-104 Music Theory I, II, III** (F,W,S) 3(3-0)
The writing of melodies, intervals, chords, and four-part harmony. Beginning keyboard harmony. All students who plan to

* Denotes preparatory credit (non-transferable).

work towards a music degree must take this course and MUS 105-106-107 their first year as they are prerequisites for third year courses in a senior college. The students should have enough knowledge of piano to be able to play the harmony example they will write during the year. Open to all other qualified students as an elective.

- MUS 105-106-107** **Sight-singing and Dictation I, II, III** (F,W,S) 2(2-0)
The study of melodic and rhythmic elements of music using the counting syllables and the moveable "do." Rhythmic and melodic dictation involving scale, major, and minor chord line intervals. Registration in the latter portions of the sequence will require completion of the earlier courses in this sequence. Open to all students.
- MUS 108-109-110** **Voice I, II, III** (Var.) 1(2-0), 2(2-0) or 3(3-0)
Emphasis upon correct posture, breathing, intonation, vowel formation, and diction; attacking, sustaining, and releasing the tone; legato singing and phrasing; messa di voce, mezzovoce, scales, arpeggios, simple embellishments, and recitative. Repertoire; folk and folk-like songs in English; simpler early Italian arias; simple songs and arias from the Baroque and Classic periods. Six hours practice weekly for one hour credit each quarter, nine hours practice weekly for two hours credit each quarter, twelve hours practice weekly for three hours credit each quarter. All voice students are required to sing in the college chorus. Open by audition to all qualified students.
- MUS 111-112-113** **Piano I, II, III** (Var.) 1(2-0), 2(2-0) or 3(3-0)
All major and minor scales; major, minor, dominant seventh, and diminished seventh arpeggios. Selected technical studies. Bach Two and Three-Part Inventions. Sonatinas and easier sonatas of Haydn, Mozart, and Beethoven. Easier literature of the Romantic School. Six hours practice weekly for one hour credit each quarter, nine hours practice weekly for two hours credit each quarter, twelve hours practice weekly for three hours credit each quarter. All piano students are required to sing in the college chorus. Open to all students who demonstrate by audition a sufficient background to complete the required literature.
- MUS 114-115-116** **Organ I, II, III** (Var.) 2(2-0) or 3(3-0)
A foundation of organ technique is laid through study of manual and pedal exercises as given in the methods books of Clarence Dickinson or Harold Gleason. At least four of Bach's "Eight Little Preludes and Fugues" should be completed, together with some chorale preludes from Dupre and from Bach's "Orgelbuchlein." Selected compositions by other composers. Nine hours practice weekly for two hours credit each quarter, twelve hours practice for three hours credit each quarter. All organ students are required to sing in the college chorus. Open to all students who have completed MUS 113, or can demonstrate by audition a similar proficiency in piano playing.
- MUS 117-118-119** **Chorus I, II, III** (F,W,S) 1(0-2)
Study activity course designed to give the student a deeper understanding, appreciation, and enjoyment of choral music and its practice. Open to all students by permission of the instructor.

- MUS 202-203-204** **Music Theory IV, V, VI** (F,W,S) 3(3-0)
Continuation of first year theory. Study of altered chords, modulation, and non-harmonic tones. Musical analysis. Further study of keyboard harmony. All students who plan to work toward a music degree must take this course and MUS 205-206-207 their second year because these courses are prerequisite for third year courses in a senior college.
Prerequisite: MUS 104.
- MUS 205-206-207** **Sight-singing and Dictation IV, V, VI** (F,W,S) 2(2-0)
Continuation of the study of melodic and rhythmic elements in music along with harmonic dictation using altered chords, modulations, and non-harmonic tones. Required of students registering for MUS 202-203-204.
Prerequisite: MUS 107.
- MUS 208-209-210** **Voice IV, V, VI** (Var.) 1(2-0), 2(2-0) or 3(3-0)
Emphasis upon portamento; execution of wider intervals, extended scales and arpeggios, and more difficult embellishments; exercises to develop agility, and songs and arias from the Baroque and Classic periods; detached notes and vocal color. Repertoire: more difficult songs and arias from the Baroque and Classic periods; easy to medium difficult Romantic art songs and arias; simpler songs and arias by contemporary composers. Sophomore recital for voice majors. Six hours practice weekly for one hour credit each quarter, nine hours practice weekly for two hours credit each quarter, twelve hours practice weekly for three hours credit each quarter. All voice students are required to sing in the college chorus. Voice majors should complete FRE 153.
Prerequisite: MUS 110 or permission of the instructor.
- MUS 211-212-213** **Piano IV, V, VI** (Var.) 1(2-0), 2(2-0) or 3(3-0)
All major and minor scales and arpeggios in rhythms. More difficult selected technical studies. Easier Preludes and Fugues of Bach. More difficult sonatas of Mozart and Beethoven, and literature of Schubert, Schumann, Chopin, and Brahms. Pieces from the modern composers. Six hours practice weekly for one hour credit each quarter, nine hours practice weekly for two hours credit each quarter, twelve hours practice for three hours credit each quarter. All piano students are required to sing in the college chorus.
Prerequisite: MUS 113 or permission of the instructor.
- MUS 214-215-216** **Organ IV, V, VI** (Var.) 2(2-0) or 3(3-0)
Completion of the "Eight Little Preludes and Fugues" and study of other Bach such as the "Toccata and Fugue in D Minor." Pieces from pre-Bach, Romantic, and Modern school of organ composition; hymn-playing and church service playing. Nine hours practice weekly for two hours credit each quarter and twelve hours practice weekly for three hours each quarter. All organ students are required to sing in the college chorus.
Prerequisite: MUS 116 or by permission of the instructor.
- MUS 217-218-219** **Chorus IV, V, VI** (F,W,S) 1(0-2)
A continuation of MUS 117, 118, 119.
- MUS 220-221-222** **Music History and Literature** (F,W,S) 3(3-0)
An historical survey of music from its primitive beginning to the

present, designed to develop a deeper understanding, appreciation, and enjoyment of music. Recorded music examples. Listening assignments. Open to all students.

NURSING

- NUR 99 Nursing Skills Lab (F,W,S,SS) 0(Var.)**
This lab is designed to aid students who need practice or additional instruction in the particular nursing procedures required in the Associate Degree Nursing program.
- NUR 100 Orientation to Nursing Education (SS) 2(2-0)**
A course designed to orient applicants of the Associate Degree Nursing program (both accepted and interested applicants) to the very basic concept of nursing education. The role of the student nurse is emphasized with particular attention to the policies, philosophies, curriculum, etc. of the local program. Students have the opportunity to become familiar with the affiliating agencies which they will utilize during their nursing education. Approximately one-half of the course includes some basic concepts of math which are necessary for nursing students.
- NUR 101 Introduction to Nursing (F) 9(4-15)**
Explains the concepts of health, illness, man's pursuit of wholeness, and nursing intervention through the use of the nursing process. Basic human needs, interpersonal relationships, and dynamics of behavior are studied. Laboratory experience is provided in the clinical setting.
Corequisite: BIO 205, NUT 101, PSY 201
- NUR 102 Medical/Surgical Nursing I (W) 9(4-15)**
Applies the nursing process to the care of adults who experience problems related to basic human needs. Explores the body's responses to illness. Surgical intervention as a stress situation is studied. The psychological needs of the patient and family are integrated throughout the course. Laboratory experiences are provided in the hospital and other clinical settings.
Corequisite: BIO 206, PHM 101, PSY 202
Prerequisite: NUR 101, BIO 205, NUT 201, PSY 201
- NUR 103 Medical/Surgical Nursing II (S) 9(4-15)**
Utilizes the nursing process in caring for adults who experience complex problems related to basic human needs. Man as a totality is considered with emphasis on psychosocial, emotional, and spiritual as well as physical needs. Concepts from allied health disciplines are applied in meeting the needs of the individual. Laboratory experiences are provided in hospitals.
Corequisite: BIO 207, PSY 231
Prerequisite: NUR 101, NUR 102, BIO 205 & 206, NUT 101, PHM 101, PSY 201 & 202.
- T-NUR 110 Nursing Procedures (F) 4(3-3-0)**
This includes transport, positioning, and skin preparation of the surgical patient, and procedures for meeting patients' basic needs through simple nursing care, observation, and reporting. (Note: This course is part of the self-contained Operating Room Technician program; therefore, only students in that program may register for it.)

- NUR 201 Maternity Nursing (SS) 9(4-15)**
 Applies the nursing process in caring for the emerging family group throughout the maternity cycle. Assesses the basic concepts of maternal and family health and comprehensive nursing care during the maternity cycle. Recognizes the interrelationship within the family throughout the span of marriage. Laboratory experiences are provided in hospitals and other community agencies.
 Prerequisites: NUR 103, NUT 101, PHM 101, PSY 201-202, PSY 231.
- NUR 202 Child Health Nursing (F,W,S) 9(4-15)**
 Applies the nursing process in caring for the child from infancy through adolescence, including the family constellation. Includes the study of growth and development and the care of ill children. Laboratory experiences are provided in hospital and other community agencies.
 Prerequisites: NUR 103, NUT 101, PHM 101, PSY 201-202, PSY 231.
- NUR 203 Psychiatric/Mental Health Nursing (F,W,S) 9(4-15)**
 Integrates the pursuit of wholeness with a study of personality structure and common psychiatric disorders. Applies principles of individual and group behavior to the emotionally ill. Laboratory experiences are provided in Community Mental Health Center and other community agencies.
 Prerequisites: NUR 103, NUT 101, PHM 101, PSY 201-202, PSY 231.
- NUR 204 Medical/Surgical Nursing III (F,W,S) 9(4-15)**
 Applies scientific principles to the care of the critically ill adult patient. Man's adaptation to his environment is emphasized. Utilizes the health team approach in helping the individual to attain optimum fulfillment of his health needs. Emphasizes teaching health concepts to the patient and his family. Laboratory experiences are provided in hospital and other community agencies.
 Prerequisites: NUR 103, NUT 101, PHM 101, PSY 201-202, PSY 231.
- NUR 205 Issues in Nursing (F,W,S) 4(4-0)**
 This course provides opportunities for the student to become familiar with the historical background of the nursing profession as well as explore the contemporary problems and trends in health care. The student is also exposed to the ethical and legal aspects of nursing and to legislation affecting nursing. Nursing organizations, disaster nursing, thanatology, as well as job opportunities are stressed. The importance of continuing education to improve nursing competencies is emphasized. Each student is encouraged to explore his/her own personal and professional philosophy of nursing.
 Prerequisites: NUR 103, NUT 101, PHM 101, PSY 201-202, PSY 231
- NUR 206 Leadership and Management of Patient Care (F) 2(2-0)**
 Emphasizes the role of the nurse leader. Helps students to understand the responsibilities they have in the delivery of health care services and the ways they may exercise leadership in providing

patient care. Systems of Communication are examined and emphasis is placed on the nursing process. The basic concepts of team nursing are also covered.

Prerequisites: Satisfactory completion of all first year level nursing courses.

NUR 1100

Nurses' Assistant

(SS) 15(8-0-22)

This course is designed to prepare qualified men and women to give effective nursing care to selected patients, to make and report observations, and to carry out routine aspects of ward management. Classroom teaching is centered around modern concepts of health, functional relationships within a hospital, fundamentals of effective interpersonal relations, and nursing procedures related to daily needs of patients and to common therapeutic measures. Throughout the course emphasis is given to the role of the nurses' assistant. Clinical experiences provide opportunities for applying classroom learnings to practice in the hospital setting.

NUTRITION

NUT 101

Nutrition

(F) 3(3-0)

Deals with nutrition throughout the entire life cycle. Included in the course are the principles of good nutrition and their application to patients suffering from various diseases.

PHYSICAL EDUCATION

PED 101

Basic Movement

(F,W,S) 1(1-2)

Primarily designed for the development and improvement of muscular strength, muscular endurance, and circulo-respiratory endurance. Gross motor activity such as running, jumping, leaping, and general floor exercises are stressed.

PED 101A, 102A 103A

Adapted Physical Education

(F,W,S) 1(1-2)

A planned program of selected activities for individuals with physical defects or limitations that would prohibit them from participating in regular physical education activity classes.

PED 102

Flag Football

(F) 1(1-2)

Introduction to the basic skills of football (kicking, passing, running, and blocking). Controlled competition is stressed to utilize skills and develop and/or improve muscular strength and endurance.

PED 103

Soccer

(F) 1(1-2)

Introduction to the basic skills of soccer (kicking, passing, heading, dribbling, and guarding). Controlled competition is stressed to utilize skills in game situations.

PED 104

Stunts and Tumbling

(W) 1(1-2)

Flexibility and strength activities are stressed. Forward rolls, backward rolls, shoulder rolls, head stands, hand stands, hand springs, rope climbing, vaulting, and balance activities.

PED 105

Elementary Gymnastics

(W) 1(1-2)

Primary activity with the use of the vaulting box, horse, spring board, vaulting buck, and trampoline.

- PED 106 Volleyball (W) 1(1-2)**
Introduction to the basic skills of volleyball (serving, passing, set-up, spike, and blocking). Controlled competition involving rules, scoring, and strategy is an integral part of this course.
- PED 107 Track and Field (S) 1(1-2)**
Class competition in the high jump, broad jump, discus throw, shot put, and running events. Designed to develop and maintain and/or improve muscular strength and endurance.
- PED 108 Field Hockey (F) 1(1-2)**
Introduction to the basic skills of field hockey (dribble, push-pass, drive, flick, fielding, dodge, and scoop). Controlled class competition is stressed.
- PED 109 Beginning Swimming (F,S,SS) 1(1-2)**
For the non-swimmer or individual with limited swimming ability. Introduction to basic self-rescue and swimming skills (breathing, floating, gliding, kicking, and stroking). American Red Cross certificates issued.
- PED 110 Basketball (F,W) 1(1-2)**
Introduction to the basic skills and rules of basketball (passing, dribbling, and shooting). Class competition is stressed.
- PED 111 Baseball (S) 1(1-2)**
Introduction to the basic skills and rules of baseball (hitting, throwing, running, sliding, and field position). Class competition is stressed.
- PED 112 Badminton (F,W,S,SS) 1(1-2)**
Fundamental skills and rules of badminton (swing and cocking of strokes, serves, drop shots, net play, scoring and strategy). Class competition is stressed.
- PED 113 Intermediate Swimming (F,S,SS) 1(1-2)**
Basically for individuals with limited swimming ability. Development of basic strokes and self-rescue skills is stressed. American Red Cross certificates issued.
- PED 114-115 Basic-Intermediate Sailing (F,S,SS) 1(1-2)**
Practical on-the-water experience in the basic rudiments of small boat sailing. Small craft safety is stressed. American Red Cross certificates issued.
Prerequisite: Demonstrated ability to swim.
- PED 116 Advanced Life Saving (S,SS) 1(1-2)**
Development of swimming skills and advanced rescue techniques. Fundamental strokes emphasized are side, elementary back, breast, and over arm. American Red Cross certificates issued to qualified class members.
- PED 117 Basic Canoeing (F,S,SS) 1(1-2)**
Lecture and laboratory experiences in basic skills of lake, river, and creek canoeing. All of the basic canoeing strokes are covered along with fundamentals of canoeing safety and rescue. American Red Cross certificates issued.
Prerequisite: Demonstrated ability to swim.

- PED 118 Advanced Canoeing (F,S,SS) 1(1-2)**
Lecture and laboratory experiences utilizing advanced skills of flat water and open water canoeing. Fundamentals of canoeing safety and self-rescue are stressed. Outdoor education is an integral part of this course.
Prerequisites: Demonstrated ability to swim, PED 117
- PED 201 Archery (F,S,SS) 1(1-2)**
Introduction to skills and techniques of archery target shooting using various types and weights of bows. Class target practice is stressed.
- PED 202 Tennis (F,S,SS) 1(1-2)**
Introduction to the elementary skills used in tennis (serve, volley, smash, and lob). Basic rules and strategy for singles and doubles are included. Practical experience in class competition is stressed.
- PED 203 Dance I (Var.) 1(1-2)**
Designed to develop and improve fundamental skills in dance movements and techniques to encourage appreciation of dance as an art form.
- PED 204 Bowling (W,S,SS) 1(1-2)**
Designed for beginning and/or experienced bowlers. Introduction to basic techniques and skills in bowling (ball selection, approach, release, and various steps). Practical experience is stressed. A nominal lane fee is charged for each game.
- PED 205 Softball (S) 1(1-2)**
Introduction to the basic skills and rules of softball (hitting, fielding, running, and field position). Class competition is stressed.
- PED 206 Golf (F,S) 1(1-2)**
Instruction in the skills and rules of golf (stance, grip, swing, and club selection). Class experience in use of irons is stressed.
- PED 207 Water Safety Instructor (SS) 1(1-2)**
Class organization is based upon American Red Cross program of instruction involving advanced skills and techniques of water safety. American Red Cross certificate issued.
Prerequisite: Advanced Life Saving.
- PED 208 Instructor Sailing (F,S,SS) 1(1-2)**
Class organization is based upon American Red Cross program of instruction in small-craft safety. Practical experience in teaching individuals how to handle small day sailers is stressed. American Red Cross certificate issued.
Prerequisite: Demonstrated ability to swim and sail.
- PED 209 Intermediate Tennis (F,S,SS) 1(1-2)**
Development of the intermediate skills in tennis (volley, smash and lob) as well as improving ground strokes and serving techniques. Basic rules and strategy for singles and doubles are included. Practical experience in class competition is stressed. This course is open to all male and female students who have completed PED 202 or by permission of instructor.

- PED 210 Advanced Basketball (W) 1(1-2)**
A continuation of PED 110—Basketball. Class competition is stressed.
- PED 211 Advanced Baseball (S) 1(1-2)**
A continuation of PED 111—Baseball. Class competition is stressed.
- PED 212 Dance II (Var.) 1(1-2)**
Designed to further develop and improve basic dance technique as well as beginning to study and realize dance as a special art form, with a basic introduction to knowledge about the body as a sculptural partnership with space.
Prerequisite: PED 203 or permission of instructor.
- PED 213 Square Dancing (Var.) 1(1-2)**
Designed to teach the basic fundamentals of square dancing, which includes: basic step (shuffle), musical timing, types of figures, parts of the square dance, introduction, main figure, trimming, and ending.
- PED 216 Advanced Swimming (SS) 1(1-2)**
Designed for experienced swimmers that want to improve their ability in self-rescue techniques and basic strokes. American Red Cross certificate issued.
- PED 221 Techniques for Teaching Physical Education (S) 3(3-0)**
Activities in the Public Schools
Experience in planning activities for the high school and elementary school and the review of learning the necessary skills and techniques of leadership. Methods, techniques and organization of Physical Education programs at the secondary level are stressed with some experience in practical application.
- PED 222 Techniques of Officiating Sports (F,W,S) 4(2-4)**
Designed for pre-physical education majors and/or other students with a particular interest in individual, dual, and team sports. This course will involve lecture and laboratory experience to expose students to methods and techniques of officiating sports. Safety, sportsmanship and ethics, knowledge of rules and mechanics of officiating will be of primary concern.

PHARMACOLOGY

- PHM 101 Pharmacology (W) 3(3-0)**
This course provides an opportunity for the student to gain a basic foundation in the understanding of drugs and drug therapy. It includes the principles of safe preparation and administration of drugs as well as a review of specific drugs. The mathematical principles related to drug therapy are also included. The role of the nurse to prepare and administer drugs safely, to observe intelligently patient's receiving drugs, and to report and record accurately are focused upon.

PHYSICAL SCIENCE

- PHS 101-102-103 Physical Science I, II, III (F,W,S) 4(3-3)**
A study of the principles of the physical world. Scientific concepts are developed by means of an experimental and theoretical in-

vestigation into the nature of the solid state. Subjects studied include measurements and their significance, the nature of light and its interaction with solids, forces and their effect on and in solids, and the molecular theory of matter.

PHYSICS

- PHY 201, 202, 203** **General Physics I, II, III** (F,W,S) 4(3-3)
A survey course of the basic principles of physics. Topics include mechanics, heat, light, electricity, magnetism, and wave motion.
- PHY 1040** **Applied Physics I** (W) 2(1-2-0)
Basic principles of electricity and magnetism. Electron theory, magnetism and electromagnetism, series and parallel circuits, and electrical measurement.
- PHY 1050** **Applied Physics II** (S) 2(1-2-0)
Properties and measurement of light. Properties and measurement of heat and its effect upon matter.
- PHY 1060** **Applied Physics III** (SS) 2(1-2-0)
Systems of measurements, properties of solids, liquids, and gases. Theory of matter, energy, force and motion.

POLITICAL SCIENCE

- POL 211** **United States Government I** (F,S,SS) 3(3-0)
A study of the origins of the United States system of government: the English historical roots, the Parliament, Common Law, the jury system, Magna Carta, British Colonial influences, the Enlightenment, weaknesses of the Articles of Confederation, the Constitution.
- POL 212** **United States Government II** (W,SS) 3(3-0)
A study of the operation of the United States system of government: interest groups, political parties, elections, the committee system of Congress, the executive and the bureaucracy, and the judiciary. Emphasis is placed on the problem solving aspects of governmental operations.
Prerequisite: POL 211.

MARINE POWER MECHANICS

- PME 1102** **Engine Electrical and Fuel Systems** (Var.) 6(3-0-3)
A thorough study of the electrical and fuel systems of marine engines. Battery cranking mechanism, generator, ignition, accessories and wiring; fuel pumps, carburetors, and fuel injectors. Characteristics of fuels, types of fuel systems, special tools, and testing equipment for the fuel and electrical system.
- PME 1103** **Introduction to Marine Mechanics** (Var.) 2(2-0-2)
This course is designed to introduce the student to the marine aspect of mechanics. It acquaints the student with boats and their basic operation. The application of marine engines, their components and mountings in small vessels is stressed in this course. All aspects of marine safety are taught in this course.

- PME 1104 Diesel Fuel Systems (Var.) 4(2-0-8)**
A study of components of diesel fuel systems, including filters, pumps, injectors and controls. Emphasis is placed on troubleshooting, testing, adjustment and repair of diesel fuel systems and related components.
- PME 1127 Marine Engines Servicing (Var.) 7(2-0-10)**
A thorough familiarization with the various types of marine gasoline and diesel engine construction and the comparison of system designs. Emphasis is on the engine servicing; troubleshooting, disassembly, cleaning, and inspecting of parts, procuring replacement parts, installing new parts, reassembly, checking, and adjusting under operating conditions. Job sheets and various reports to be completed by the mechanic.
- PME 1128 Marine Power Train Systems (Var.) 4(2-0-8)**
Power train systems: hydraulic and mechanical clutches, reduction gears, thrust bearing assembly, couplings, propeller shaft and bearings, stuffing boxes and stern bearings. Engine installation, alignment, and security. Hull fittings and piping.
- PME 1129 Marine Auxiliary Equipment: Electrical & Hydraulic (Var.) 6(3-0-10)**
A comprehensive study of marine auxiliary equipment, such as pumps, compressors, generators, steering apparatus, anchor windlass, rigging, and booms. Laboratory and shop practices in the repair and operation of this equipment, and in preventative maintenance.
- PME 1131 Marine Propulsion System Servicing (Var.) 6(3-0-10)**
Emphasis is on the procedures necessary in determining the nature of troubles developed in the propulsion system of marine equipment. Troubleshooting of the propulsion system, providing a full range of experiences in testing, adjusting, repairing and replacing of parts as the mechanic will encounter on the job. Simulated and actual marine mechanics experiences will be provided when possible.

PRACTICAL NURSE EDUCATION

- PNE 1510 Anatomy & Physiology (F) 6(6-0-0)**
Complete study of the general plan of the human body and its ten systems. Study of how the body controls its functions, stands erect and moves; how digestion of food takes place, how the body removes waste products, and how the body provides for reproduction and survival.
- PNE 1511 Microbiology (F) 3(3-0-0)**
A general presentation of bacteria and viruses with emphasis on culture, identification, interpretation of these organisms in selected practices as related to nursing. The student has the opportunity to learn the nursing principles in the control of micro-organisms.
- PNE 1512 Nutrition and Diet Therapy (F) 3(3-0-0)**
This course is designed to give the student the basic knowledge relative to normal nutrition in health and disease. Special

emphasis is placed on normal nutrition in the selection and quality of nutrients to meet the needs of people in health and sickness.

- PNE 1513 Pharmacology I (F) 2(2-0-0)**
This course gives an overview of basic math principles. Gives opportunity to review and work with common math problems. Apothecary and metric systems are introduced. Opportunity to work with calculating dosages of drugs from hypodermic tablets, for children, solutions, insulin and antibiotics.
- PNE 1514 Fundamentals of Nursing (F) 6(6-0-0)**
Present the historical as well as introducing the legal aspects of nursing to the student. A complete study of fundamentals of nursing procedures based on scientific principles.
- PNE 1515 Nursing Skills Lab (F) 2(0-4-0)**
Provide opportunity for student to practice fundamental procedures of nursing with supervision of nursing instructors.
- PNE 1516 Clinical Practice I (F) 0(0-0-2)**
This course is designed to provide the student an introduction to the clinical setting and to allow the student to perform simple nursing procedures under supervision of the nursing instructors.
- PNE 1520 Medical/Surgical Nursing I (W) 4(4-0-0)**
Introduction to medical/surgical nursing. Complete study of pre-operative and post-operative care of the patient, including anesthesia. Complete study of patients with general and specific nursing care problems in: nosocomial infections, cancer, diseases and disorders of the respiratory system, and diseases and disorders of the blood and blood forming organs, including communicable diseases of these systems.
- PNE 1521 Maternity Nursing (W) 4(4-0-0)**
Provides opportunities for the student to learn the nursing care of the maternity patient during the entire maternity cycle. It introduces the concept of maternal and family health and the importance of family relationships during the maternity cycle. It assists the student in recognizing the normal and abnormal aspects of pregnancy and birth. The student is exposed to the nursing care of the newborn. Laboratory experience is provided in the clinical setting.
- PNE 1522 Pediatrics (W) 4(4-0-0)**
In this course the student is introduced to the growth and development of the normal child, the principles of the care of children, behavioral patterns of children in illness, conditions and diseases both medical and surgical of various ages.
- PNE 1523 Nursing Skills Lab (W) 1(0-2-0)**
Provide opportunity for student to practice fundamental procedures of nursing with supervision of nursing instructors.
- PNE 1524 Clinical Practice II (W) 6(0-0-18)**
Clinical practice of nursing skills and treatments of selected patients in medical and surgical conditions in the clinical facility and nursing care of the maternity patient and newborn infant.

- PNE 1530 Medical/Surgical Nursing (S) 4(4-0-0)**
Complete study of patients with general and specific nursing care problems in diseases and disorders of the cardio-vascular system, gastro-intestinal system, urinary system and reproductive system, including cause, treatment and prevention; and communicable diseases of these systems.
- PNE 1531 Pharmacology II (S) 4(4-0-0)**
Course designed to give basic understanding of drugs, their action and effect in the human body. The student is introduced to the principles of drugs. Emphasis given to the assessment of patients receiving drugs and to reporting, recording accurately drugs given.
- PNE 1532 Psychiatric/Mental Health Nursing (S) 4(4-0-0)**
A course designed to teach the student practical nurse the fundamentals of good mental hygiene and mental health. The student is exposed to personality structure and development with integration of the common psychiatric disorders.
- PNE 1533 Clinical Practice III (S) 6(0-0-18)**
A continued study of patients of all ages in medical/surgical conditions, nursing care of children in health and diseases of all ages, nursing care of the maternity patient and the newborn. Introduction to long term illness and the administration of medications.
- PNE 1540 Medical/Surgical Nursing II (SS) 4(4-0-0)**
Complete study of patients with general and specific nursing care problems in diseases and disorders of the endocrine system, nervous system, the eye and ear, skin and musculo-skeletal system. . . . and allergic conditions, including communicable diseases of these systems.
- PNE 1541 Issues/Trends (SS) 3(3-0-0)**
Reemphasizes legal roles of Practical Nursing and prepare for graduation and the functions of a Licensed Practical Nurse. The role of continuing education whether voluntary or mandatory is discussed. Introduces student to disaster nursing and the legal role of giving first aid. Certification in Cardio-Pulmonary Resuscitation is included.
- PNE 1542 Long Term Illness (SS) 3(3-0-0)**
A course designed to teach the student various aspects of a long term illness. Specific diseases common to long term illness and nursing care are covered. The student is introduced to the physical and emotional process of death and dying. The study of the geriatric population and special geriatric needs are discussed. The concepts of prevention and rehabilitation are developed throughout the course.
- PNE 1543 Clinical Practice IV (SS) 7(0-0-21)**
Advanced arts and skills of patients of all ages, total patient care of specific diseases. Continued practice in Maternity Nursing, Newborn Nursery and Pediatrics, and in special areas, and the administration of medications.

PSYCHOLOGY

- PSY 98 Group Counseling (Var.) 3*(3-0)**
This course is intended to give students who are having academic difficulty intense counseling and supervision as a guide toward academic success. Emphasis will be placed on effective study habits such as note taking and scheduling for effective use of time. Graded on a satisfactory (S), unsatisfactory (U) basis.
- PSY 201-202 General Psychology I, II (F,W,S,SS) 3(3-0)**
Emphasizes psychology as a science of behavior; man as a biological organism in a social world; man as a motivated person with attitudes, emotions, needs and desires; man as a thinking, imagining, reasoning, and learning person.
- PSY 221-222 Educational Psychology I, II (W,S) 3(3-0)**
The teaching-learning process with an emphasis on learning theory, transfer, problem solving, habit formation, individual differences, and factors that facilitate learning. Focus is on the individual—how one grows and how intelligence and motivation combine to shape personality.
Prerequisite: EDU 201 or PSY 201 or permission of the instructor.
- PSY 231 Child Growth and Development (S) 3(3-0)**
A study of the principles of growth and the development of the child, beginning with prenatal factors. Biological, emotional, social, and intellectual aspects are examined.
Prerequisite: PSY 201.
- PSY 1060 Industrial, Community, and Personal Relations (S) 2(2-0-0)**
A study to promote a clear understanding of the basic principles of human psychology, particularly as applied to the personal relations involved in successfully holding and performing a job in modern industry.

RELIGION

- REL 200 A Study of World Religions (Var.) 3(3-0)**
A general survey of the origins, beliefs, and contemporary practices of Hinduism, Confucianism, Taoism, Buddhism, Judaism, Christianity and Islam. Attention is given to the interaction of specific religions and the cultures in which they are practiced.
Prerequisite: None

SOCIOLOGY

- SOC 201 Introduction to Sociology I (F,W,SS) 3(3-0)**
An introduction to the essential concepts and principles of Sociology. Sociology 201 includes an analysis of the structure and function of society and culture, personality, socialization, role, status, social control and deviation, social groups, institutions, and the family.

* Denotes preparatory credit (non-transferable).

- SOC 202** **Introduction to Sociology II** (W,S,SS) 3(3-0)
This course continues the study of social organizations and includes the processes of social interaction, concepts of human ecology, social and cultural change, and social movements.
- SOC 206** **Marriage and the Family** (Var.) 3(3-0)
Analysis of sexuality, sex roles, courtship, mate selection, procreation; tracing and analysis of developing forms and functions of family relationships and the effects of contemporary social changes in family life.
Prerequisite: None

SPANISH

- SPA 101-102-103** **Elementary Spanish I, II, III** (F,W,S) 3(3-1)
Pronunciation, grammar, oral and written exercises, conversation, dictation, and introductory reading material. Students who have acquired two high school units in Spanish may not take Spanish 101-102-103 except by permission of the instructor.
- SPA 151-152-153** **Intermediate Spanish I, II, III** (F,W,S) 3(3-1)
For students with two years high school or one year college Spanish. Systematic review of Spanish grammar with some written composition and oral practice and with further reading of modern prose (short stories, drama, etc.) of both Spanish and Spanish-American writers.
- SPA 200** **Selected Readings in Spanish** (Var.) 3(3-0)
A course for those able to read Spanish literature. Selections of short stories and drama will be used and literary interpretations will be included.
Prerequisite: Three years of high school Spanish or the completion of SPA 153.

SPEECH

- SPH 101*** **Voice and Diction I** (F,W,S,SS) 3(3-0)
Vocal and auditory mechanisms; exercises in phrasing, projection, pitch, and rate. Emphasis on vocal variety through the oral interpretation of non-dramatic literature.
- SPH 102*** **Voice and Diction II** (F,W,S,SS) 3(3-0)
Emphasis on the separate sounds of speech through the study of the manner and placement of the articulators as each of the forty-five American English phonemes are formed; standard general American and regional pronunciation.
- SPH 103** **Introduction to Phonetics** (S,SS) 3(3-0)
A study of the International Phonetic Alphabet as used in standard general American and regional speech.
- SPH 201** **Public Speaking** (F,W,S,SS) 3(3-0)
Speech preparation and delivery. Practical training in presentation of short speeches.

* Both SPH 101 and 102 are recommended for ease of transfer.

SURGERY

- T-SUR 101** **Introduction to Operating Room** (W) 4(3-3-0)
This is an introductory course devoted to developing an understanding of the principles of operating room technique and to acquiring fundamental skills essential to assisting in the operating room. Instruction includes environmental and personal orientation; weights and measures; anesthesia; operating room procedures; operating room techniques; operating room personnel duties; and ethical, moral and legal responsibilities.
- T-SUR 102** **Surgical Procedures I** (S) 5(4-3-0)
This course includes procedures for general surgery, obstetrics and gynecology, ophthalmology, orthohinolargngology, plastic surgery, oral surgery, urology, orthopedic surgery, thoracic surgery, cardiovascular and peripheral vascular surgery.
- T-SUR 103** **Surgical Procedures II** (SS) 4(3-3-0)
Continuation of Surgical Procedures I.
- T-SUR 104** **Clinical Procedures I** (S) 5(0-0-15)
The student is given an opportunity to demonstrate in an actual clinical situation his ability to assist a surgeon in the procedures learned in the classroom.
- T-SUR 105** **Clinical Procedures II** (SS) 8(0-0-24)
A continuation of Clinical Procedures I.
- T-SUR 106** **Suggested Seminar I** (S) 2(2-0-0)
This seminar time will be used in review of experiences received in Surgical Procedures and Clinical Procedures I.
- T-SUR 107** **Suggested Seminar II** (SS) 1(1-0-0)
This seminar time will be used in review of experiences received in Surgical Procedures and Clinical Procedures II.

TECHNOLOGY

- T-TEC 201** **Technical Report Writing** (S) 4(4-0)
A study of the design and composition of both the long and short forms of technical reports. Exercises in developing typical technical reports, using writing techniques and graphic devices, are completed by the student. Practical application in the preparation of a full-length technical report is required of each student at the end of the term.
Prerequisite: ENG 101.

WELDING

- WLD 1101** **Basic Gas Welding** (Var.) 1(0-0-3)
Welding demonstrations by the instructor and practice by students. Safe and correct methods of assembling and operating the welding equipment. Practice will be given for surface welding, bronze welding, silver soldering, and flame-cutting methods applicable to mechanical repair work.
- WLD 1400** **Beginning Welding** (Var.) 8(3-0-16)
Introduction to the history of oxyacetylene and arc welding, the principles of welding and cutting, nomenclature of the equip-

ment, assembly of unit. The operation of various AC transformers, AC and DC rectifiers, and DC motor generator arc welding units. Welding procedures such as practice of puddling and carrying the puddle, running flat beads, butt welding in the flat, vertical and overhead positions, and the cutting of straight lines with the torch. Safety procedures are stressed throughout the program of instruction.

Prerequisite: None.

- WLD 1401 Basic Welding (Var.) 3(2-0-3)**
This course is designed to acquaint automotive mechanic and machinist trade students with basic welding principles and techniques. Instruction includes welding shop safety, proper use of equipment, gas welding and brazing, oxygen-acetylene cutting and arc welding.
- WLD 1412 Mechanical Testing and Inspection (Var.) 2(1-0-3)**
The standard methods for mechanical testing of welds. The student is introduced to the various types of tests and testing procedures and performs the details of the test which will give adequate information as to the quality of the weld. Types of tests to be covered are: bend, destructive, free-bend, guided-bend, nick-tear, notched-bend, tee-bend, nondestructive, V-notch, Charpy impact, etc.
- WLD 1422 Commercial and Industrial Practices (Var.) 6(3-0-9)**
Designed to build skills through practices in simulated industrial process and techniques: sketching and laying out on paper the size and shape description, listing the procedure steps necessary to build the product, and then actually following these directions to build the product. Emphasis is placed on maintenance, repairing worn or broken parts by special welding applications, field welding and nondestructive tests and inspection.
- WLD 1423 Inert Gas Welding (Var.) 3(2-0-4)**
Introduction and practical operations in the use of inert-gas-shield arc welding. A study will be made of the equipment, operation, safety and practice in the various positions. A thorough study of such topics as: principles of operation, shielding gases, filler rods, process variations and applications, manual and automatic welding.
- WLD 1424 Pipe Welding (Var.) 7(3-0-12)**
Designed to provide practice in the welding of pressure piping in the horizontal, vertical, and horizontal fixed position using shield metal arc welding processes according to Sections VIII and IX of the ASME code.
- WLD 1425 Certification Practices (Var.) 5(3-0-7)**
This course involves practice in welding the various materials to meet certification standards. The student uses various tests including the guided bend and the tensile strength tests to check the quality of his work. Emphasis is placed on attaining skill in producing quality welds.
- WLD 1442 Intermediate Welding (Var.) 9(3-0-19)**
A review of basic oxyacetylene cutting and welding, preparation of metals, types of joints, welding procedures and testing of the

welds. The operation of A.C. transformers and D.C. motor generator arc welding machines. Studies are made of welding heats, polarities, and electrodes for use in joining various metal alloys by the arc welding process. After the student is capable of running beads, butt and fillet welds in all positions are made and tested in order that the student may detect his weakness in welding.
